1879 January - March Casper Morris incoming letters P194.

Martin has entered into
partnership with his Cousin
in Denmark - & is living
in Copenhagen - (he was with
us on Oct 14th) & is hoping
to be married during this year -
Hubert at Cambridge studying
for Holy Orders. & my Imogen
at Barrow where he entered
last Sept - has taken a good
place, & promises well - it
is a great pleasure to me
that I hear the Masters
think him so like dear Percy -
who was quite a Father to him
- the poor boy was terribly
overwhelmed at first - he
is just 14 - now you see
my dear Friend I have
done

as you bid me - that a selfish
letter I have written - all self -
but I am thinking much of
that family & the poor Mother
with her 12th Baby - that a sore
trial - but I do trust her family
have now opened to her & that
all rule is permitted to regain
health - you did not mention
your daughter - so I trust all
is well with her - & her dear
girls - My kindest remembrances
to your sisters - tell Mrs Carnish
I keep the lines she so kindly
gave me - My love to your
dear Wife - tell her I always
look at you both every morning
and often think of the
meeting I can hold forward
to - when all these cares &
griefs shall be over for ever
