My dear Doctor

I am much obliged to you for your favor of yesterday and for its interesting anecdote of Bp White containing his emphatic protest against our Indian management which is really no better to day than it was forty years ago, or indeed two hundred and fifty years ago, for our New England neighbors in fact began that sort of treatment of the natives which has its natural fruits in the present system.

Could you give me the approximate date of the meeting in Independence Square to which you allude, I will be very much obliged to you: that will be sufficient for me to fix the exact date. Any such public utterances of the venerable man I like to locate if possible.

You have doubtless other memories of the Bishop of value as portraying his character or thought, and I wd esteem it a great favor could you at your leisure jot them down from time to time for me and my children:- all my industry in storing old memories is prompted by a desire to show them what a heritage they have and to increase that veneration for such an ancestor wh must prompt them to good things.

With my love to Mrs Morris and Carrie believe me, my dear Doctor
Very sincerely yours
Jos. H. Clement
