1879 May-December Cooper Morris - incoming letters MS 1994

SIDE ONE

No. 1110 Spruce Street
21 Nov. 1879

My Dear Doctor Morris

This note will serve to introduce to you my Grand Son Robert Patterson Robins a student of medicine in the university of Penna. who expects to graduate at the close of the present term of the medical Department of that institution, he proposes to apply to the managers of the Episcopal Hospital to be appointed one of the resident Physicians of that institution

I can say in reference to him that his aim has been to qualify himself to fulfil the duties and obligations of his profession, he is a hard and industrious student and I think stands well in his class, and is prepared for the practical duties of a Hospital course, if you can aid him to accomplish his wishes I shall feel greatly obliged, and am Most sincerely &c

Thomas Robins
