Dr Morris
Dear Sir

Miss Atkinson was improving very nicely so as to talk about that hungry gnawing. Then "the piles" became suddenly worse than usual and took her to bed. The hemorrhoidal tumors have existed about ten years and combined as they are with prolapsus of that lighting and so much relaxation of the sphincter that they protrude more a less

She has tried so long to get well with such poor success that she is inclined to look hopefully to this as the means of relief.

With Sincere Respect
I am Yours,
R. B. Glenson
