Mr. Laurence Hall Fowler
10 West Highfield Road
Baltimore 18 Maryland

Dear Mr. Fowler:

With reference to your letter of June fifth, I have reserved twenty-two (22) yards of 1946-2 for you, but if your records for the Senate Chamber show that moreen was used they cannot very well use moire'.

We make a silk and linen moire' which would be appropriate to use if you wish, but in other historical places it seems they have been able to control the destruction of the moth with moth-proofing treatments.

At least I would like to have Tinolan Corporation treat this material before we send it to you, but of course it all depends on how clean they can keep the place.

Very truly yours,
Franco Scalamandre', Pres.
