Dear Mr. Scalamandre:

On the ticket with the samples you sent me one sample was marked " # 1946 - 2 moire ". If you will look at these samples you will see that one piece is plain and the other has a 'watered' effect printed or impressed on it. I was only copying the notation of your sample.

I have written Mr. Harris of the Tinolan Corp. but find he is away for a week or so and will answer my letter on his return.

Thanking you for your attention to this matter.

Very truly yours,
