1837-1888 Caspar Morris [redacted] medical notes -1999

Opium commonly constipates – but not
Colic: opium aids the operation of Cath:
by relaxing Spasm: Manna & Pot: Tartr
prevent the peculiar effect of opium –
Easy diseases modifies the susceptibility in some
extent: Climate Mod: alters unfortunately:
Heat calls for large doses of Calomel by torpor
of liver from congestion: Susceptibility of nervous
~~Sanguine temperament~~ & arterial system more
susceptible in hot climates: Except the anomalies
which stimulate the stomach: as the stimulating
condiments of the East Indies: Another Modifyg
influence: Mode of living – Generous living requiring
different treatment – Robust health requiring larger
doses ~~for~~ both of stimulating & depressing
Medicines: labourers can use with impunity
large quantities of Acrid ferments which would
poisoning sedentary persons: Habit modifies
also Opium soon becomes a customary &
Medicine: important provision of nature to
prevent the liability to disease from contact
of Miasma for instance & Heat &
Cold may also be referred to Acclimation

physician Institute Memory but advises the
hand rotary-state Medical Humanity the
Mind and Morals – but diminishes the heart
and nature – stimulating locally & relaxing in
general operation – Sanguine supply & the tissue
for the inflammatory activity allowed
inflammation of Result from congestion
allays the effect from with a Constitution
the healthy Mind – But the effect and in
Young by Scarity Small doses of Calomel
stimulate large Prematurity but lessening
Secretory in small quantities but lessening
life in large quantity – There is no Legal
of Surgery & Conscient – Morbid Surgeon
from Medicine Slow: or Sog: not only &
the over Inflation enhanced but also to the
Work of the Bowel & the Nerves they are and
by Cleanly the by Nervous supply of
the Work important – On other hand Study
Influence Common Causes Fear on the Affecting
of the Bowel: Fear causes an Inversion
Bowels Peristalsis or Quiet influence on the
