My Dear Sir

I am in receipt of your favor of 18th and in reply would say that there was no delay in making the application to the Court but in consequence of the Testator in this case being the owner of property in Balto. City and Balto. County a controversy at once arose among the lawyers as to whether proceedings in both Courts would not be necessary in order to make title, and it appears that the Counsel of the purchaser of Wallwork demanded that this should be done before he would be willing to "pass" the title which is yet to be made to his Client. As the County Seat of Balto. County is Nine Miles from the City, and this double proceeding being necessary, with your knowledge of the "Barnes delay" under ordinary circumstances - you will readily understand why no further progress has been made. It is not I assure you for the want of urging and following up the lawyers on my part. The Executors are making preparations to divide the personal property and only a few days ago informed me that they expected to

I am in receipt of your favor of 21st inst. The application has been made to both Courts, the delay in deciding whether it was necessary made the application to one of the Courts later than it would otherwise have been and of course will consume more time in having them act upon them. The Court has now decided upon the 16,000 - matter treating it as part of the Estate and as that much of it, having been already paid to Mrs Murray w. of the 1/3 in which she is to have a life Estate but not holding her individually liable for it. We have no copy of the account of the Executors nor have we applied for one as the only copy we will need will be a copy of the order for distribution which has now been prepared and I understand was pre
