My dear Son

On my arrival here last Evening I met your letter to Conover written the day after your arrival at Lake George. You could of course have had no opportunity to make more minute report of what is needed. Will you please now enter into more detail.

(1) Shall we need spoons and forks & knives?

(2) Shall we want tea & coffee pots.

(3) How many dinner & how many desert plates are there

(4) How many Cups & Saucers.

(5) Are the pots & kettles and kitchen utensils in order

You account of your own experience makes me very uneasy about the relations between Mrs ——— and ourselves – Had we not better give up Raquette? Can we get along comfortably. With dearest love to Hannah.

Your affectionate father
Asher Morris

Is the cooking stove one for wood or coal & such as our women can manage and how near the houses the water supply?

Let us hear every thing you can tell us. I do not yet see how we can go – Left were not for the Mad River family would give staff.
