of Income which came in after the Auditor had made his final report.

The way the Auditor has stated his accounts is I think unnecessarily complicated but it was thought necessary to take that course. I saw Mr. Newcomes who thinks that ~~it is~~ the result arrived at as above stated is correct though the process is complicated.

I dont know that I have made it any clearer to you than it was before but hope that I may have done so.

I am sorry that I did not think about the Snow Shoe matter when I was there but I did not. I have no doubt the balance was paid in Cash. Frank Yarnall can give me the information but he is not at his office today.

Give my love to Father and tell him I intended to write him to day but have not had time. Tell him also that his letter to Bishop Stevens was duly mailed to him. Love to all

Affectionately
Israel W. Morris
