1884 January - July Galloway C. Morris incoming Letters 1994

SIDE TWO

will at any rate leave it until
we can talk the matter over. If I find
one or two odd plates of the kind
you describe, which are as fresh in
my memory as in yours, I will
share them with you. We shall
hope for a visit from you when
we can talk it over. I hope that
Nan does not find the weather
too cold at Lake George and
that she may improve with
the change Please give very much
love to her, let us hear from you
whenever you can, with fond
love to all in which all join
me in great haste

Your loving Sister
Mary H. Murray
