1884 October - December Galloway C. Morris incoming letters MS 1994

He is, evidently, very weak, & has a bad cough, but I hope he will take some care of himself, & be able to throw off this attack. I am very sorry to hear that you, dear Galley, have been so unwell, and that our dear Hannah is not stronger. I hope you both, will feel the good effects of Lake George, when you reach home again. I return you, Mr Rollin's letter of 16th of Septr, much to the same effect as the one to me, which I copied & sent to you last ~~Saturday~~ Tuesday. I will not enter into this land business, this afternoon, for I am so tired, I am not able to do it & beside, as you expect to come home so soon as the 16th or 17th, it will be better to talk the matter over, than write about it. The draft here Rollin has yet been presented to me, tho he wrote, Septr 6th he had drawn on me. If the draft does not appear
