My dear Sally

I am again in your debt, and must acknowledge the receipt of your letter containing check for rent of store, also the account, and what we may expect to receive next month which it is a satisfaction to know. About the title for the store, the opinion of the Trust Company is quite a relief and I do not see why the Careys would not be as suitable as any one to attend to the matter. I quite agree with you that it would be right for Uncle James to share the expense whatever it may be, and suppose that he will take the same view of the case. He went to Baltimore on Thursday I do not know whether

Write soon & much love to the boys as well as yourself
Ever affectionate
Sister Mary Galloway
