Sep 8 1887

My dear Galloway

I only reached home last night Wedy. although we went into dock on Sunday. I stayed off to meet my wife at The British Association at Manchester — You will see from this that we had a splendid trip although storms were raging all around the coast we slipped thro' all. We had not a very entertaining set of passengers still all went smoothly & we had a happy time — I have not as yet got into harness. My partners approve the stand I have taken — Only think! — NHW. took passage in the Werra on Friday the 3rd inst without letting us know on the 6th they telegraphed over to us to know whether we had received their telegram so that they had made up their minds to send some one over before they telegraphed to me to come under the decision was very quickly come to. I merely mention this to show how little they are able to understand business matters. Before this arrives you will know what is to be done — with A.T. Collins I took the firm a stiff protest against the subsequent borrowing — saying I could not acknowledge it. I found all my family in good health on my return & glad to see me — & my sincere hope is that this may find you in the same condition in which case I conclude this hasty scrawl with love to all your charming circle & believe me yours sincerely

J. B. Beck
