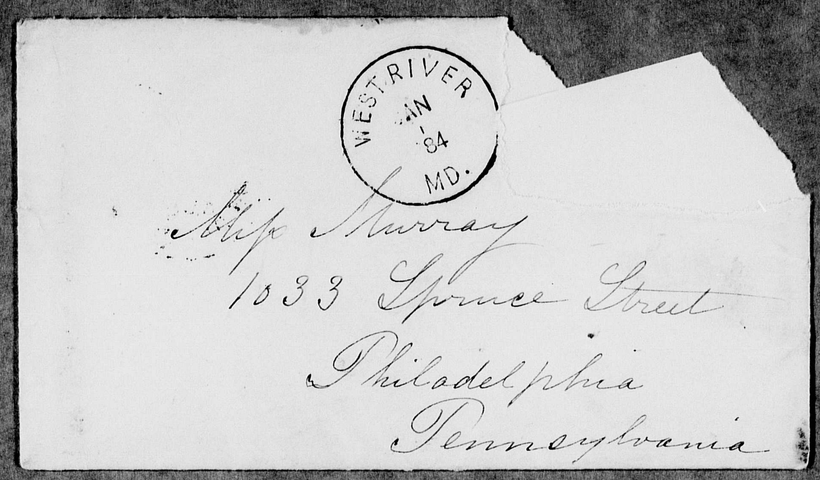
Mary [Morris] Murray Letters 1884



Miss Murray
1033 Spruce Street
Philadelphia
Pennsylvania

My dear Child

Your Father will be in Philadelphia next week and will then attend to your business. I wished at 1033 and perhaps you would like to see him while he is there. I did not know until this morning that it would not be possible to get a letter to the boat this morning unless it chanced to come to our wharf which is very doubtful. Had I realized it yesterday I should have written in time for the mail, at least I would have sent you a line by when your Father went to church last evening. Now I will wait, and if it cannot go by the boat it will have to wait for tomorrow's mail. First then and most important Eddie is much better. Morris came to see her on Saturday, and said that the spot would come to a head

Dec 31st 1883

Your loving Mamma
