1850-1889 Henry H. Murray

that is if you do not hear before the middle of November that Cousin Thomas has got the money or my Illinois property - if he has he will pay the note and you will then make the disposition of the money that I requested you to do.

I am glad to say that I have more practice here than I have had for some time and begin to feel quite an interest in Medicine again. Give my love to Dr Morris and tell him that there has been an epidemic of scarlet fever here, but of a very mild variety. I am getting all the information I can of the disease in Calif.a to will with him all I can gather about it before long. I hope you go out to see Cad now & then. Give my love to her I will not be able to write to her by this mail, but will do so by the next I am sorry to say that I have not heard from her since I left home.

Remember me very affectionately to Molly and to Mrs Morris & all the family -

Very truly & affectionately
Your brother
Robt. Murray
