herself (as she always was)
on Thursday following
this distressing headache
came on, & she has con-
-tinued to get worse ever
since - Mary is with her
Mother. Dear little Frank is
very ill, but she had
leave him at the Neck
with Miss Alice - I dont

that before the first con-
-vulsion 'I cannot sleep
but Oh so peaceful',

I will write you again if
there is any change. Yester
-day we saw in the paper
the death of Mrs Read.

who could tell us any of
the particulars, but suppose
you have heard from
some of the family -
