1874-1887 Sally Scott [Murray] Chestnut [redacted] Memory Lane

-bitterness of Medicines. For I still remember the bad taste of the Medicines I used to take in my first childhood, & this is very nice. We will leave here next week for some place up north. I think the hills in Connecticut. Mr Markoe told me the other day that Mrs Hughes had been very sick under homeopathic treatment in Germantown but was better & had gone to Atlantic City. Miss Mary Thomas has her pension of 25 pr mo for life, a very handsome thing for Government to do for her. I hope to get to see you in September or October & to pay you quite a long visit. If Adelaide finds a place up north which she likes, willing to remain by herself when Rob is located in New York & Dr ah D. returns I think I will come back to Maryland & loaf around among my relations. I'll Bet I think of locating at the Rode like old uncle Phil Roper did if Mr Jno Roper has the present Mr Roper resides with his nephews at Elkridge City at the foot & growth & snare to be taken care of. I will write you from the North or town or over plans in more nature. Best love to all. Ever yrs S. Murray
