Gentlemen:

We refer to the United States Savings Bond of Series G, described above, which was received in this office for redemption.

Under Department regulations, when bonds of Series G are redeemed at par prior to maturity, ordinarily only two interest payments are authorized after the date of the death by reason of which the bonds became eligible for par redemption. Therefore, a deduction, representing the interest paid after the second interest payment date, is being made from the proceeds of redemption. A check in payment of the face amount of the bond, less the necessary deduction for overpaid interest, will be mailed to you within a short time.

Very truly yours,

s/ A. E. Wilson
Assistant Chief in Charge
Div. of Loans & Currency, Chicago Branch.
