The Easton Star.

TUESDAY, APRIL 24, 1877.

SPECIAL NOTICE.—Mercantile advertisements must be handed in on Saturday Morning to insure their appearance in the next issue of the Star. Legal advertisements, which cannot be inserted usually require all the type we can spare on Saturday.

Local Record.

—We had heavy thunder and lightning and a drenching rain here, on Thursday night last.

—The recent warm showers have made the wheat and grass look green.

—We are now having splendid weather for corn planting.

—O'Brien's great show holds forth in Easton next Monday. See their advertisement in the Star.

—Roberts & Sons are building a handsome porch for Mr. L. Dodson, which will add much to the appearance of his residence.

—"Facts are stubborn things," and so are colds and coughs, but the latter will invariably yield to Dr. Bull's Cough Syrup, which costs but 25 cents.

—Mr. E. V. Higgins has enlarged her millinery store, and now has a very handsome establishment, and a new stock of spring goods is display to her customers.

—Mrs. Mary Ann Stewart has just returned from the city with a splendid stock of new millinery goods, which she would like to have her customers call and examine.

—Some thieves broke into Mr. James H. Lloyd's meat house a few nights ago and stole a few pieces of bacon, or about 1000 pounds. The robbers are yet a mystery.

—The dwelling house and furniture of Mr. Jas. Bryan, in Little Neck, Trappe district, were destroyed by fire on Monday week. We understand there was no insurance on the property.

—In setting the sale of the Andrew O. Orem farm some time ago, made by Mr. Oliver Bartes, Spedden Orem, Esq., was the purchaser. This is a mistake, the farm was bought by Mr. Edward S. Harris.

—Messrs. Nichols & Cox have again returned to the city with an additional supply of Men and Gentlemen's Dress Goods. These goods are selling rapidly increasing. We think they will pay our readers to examine their stock of goods.

—There was a lively trot on the Point road on Tuesday, between Mr. Langdon's mare Sweet, and Capt. Hitchens' bay horse. The horse beat the mare a long distance, Mr. Langdon immediately bought the horse at high figures.

—No. 10 of The Lakeside Library, just received, contains a splendid description of the Black Hills country. "The Black Hills and Other Wonderland in the Yellow Stone Park" is the name of the book, which has to be enjoyed by the Lakeside.

—The celebrated Virginia trotting mare Sallie Ash trotted a half mile at Cambridge on Friday in 1:18, under a strong pull. Those who saw her trot say she could have easily beaten it in 1:00, which is equal to 2:12. She is fast, the fastest, and can beat the world.

—Dr. John M. Mason is having the store recently vacated by Jacob Williams' store, on Market street, enlarged, and will soon move his confectionery and ice cream establishment into the new place of business. It will be a great improvement when completed.

—The ladies of St. Peter's Parish will serve oysters and other delicacies on Monday evening, and we hope that all who may come to the show will get a good dinner in time to see the opening of the dramatic performance. Call at the town hall and look before going to the show. You will be in a good humor to take oysters in the evening, and enjoy the fun at night.

—We learn that the ladies connected with the Church of the M. E Church propose holding a grand Bazaar Festival and Fair in Odd Fellow Hall, for three days and nights during the last week of Court, next month. We have not learned particulars as yet except that it promises to be one of the largest and finest affairs of this kind ever presented to our citizens. We hope our readers will keep it in mind and extend to a good cause their liberal patronage.

—The citizens of Caldwell's Addition to Easton have regularly organized, with a view of appealing to the next legislature for a charter to establish new numbers nearly, if not one hundred souls, and the Addition, by the way is the prettiest part of our town is going ahead rapidly, building houses, setting trees opening and improving streets, and is assumed ultimately to become an integral important part of Easton. The proceedings of the public meeting held on the evening of the 16th inst. will be found in another place in this morning's STAR.

—It will be a matter of interest to all our readers who are desirous of adorning their homes to know that there has been incorporated in New York a Stock Company with a capital of a quarter of a million of dollars, for the manufacture of Pianos, which will be sold direct to the people at factory prices. Its name is the MENDELSSOHN PIANO CO., office 862 Broadway, New York. These Pianos are spoken of as the finest displays at the Centennial Exhibition, and were unanimously received for the Diploma of Honor and Medal of Merit. This Company are the first to do a business with the purchaser direct, saving one-half the price charged by other piano makers. We would recommend our readers who have any idea of ever buying a piano, to send for their Illustrated Descriptive Catalogue, which will be mailed free.

—A Grover & Baker Chain-Stitch Sewing Machine. Inquire of the editor of the Star for particulars.

—Dodgers, handbills, pamphlets, cards, and all other JOB WORK neatly and promptly executed at the STAR Office.

—MARKETS.—The price of grain keeps up. In Maryland wheat is quoted at $2, and Southern corn at 61 cents. Oats are in demand at 45 cents. Rye 85 cents.

—VALUABLE PROPERTY FOR SALE.—Charles H. Ray, Esq., Attorney, advertises to offer the residence of William B. Townsend, on Dodson Avenue, at public sale on the 18th inst. Also Mr. Townsend's slaughter-house property. Here is a chance for a profitable investment.

—LOOK HERE.—We noticed last week that Mr. Jarrettsmore had gone North for the purpose of buying a stock of carriages. He has returned with a fine lot, selected with care from the shops of the best makers, which he is offering for sale as low or lower than the same quality of work can be bought elsewhere. Persons wanting any particular kind of carriage can be supplied at short notice. See his advertisement in another place.

—OPENING OF MILLINERY &c.—The attention of our many readers is called to the Spring Opening of Millinery Goods, Dry Goods, Notions, &c., at Mrs. M. S. Nordheimer's bazaar of fashion. The ladies cannot be attracted by her large and tasteful display. She keeps everything in her line, from a pin to a *love of a bonnet*. When in our town call and see her, and examine her beautiful stock. See advertisement in another column.

—MAGAZINES FOR MAY.—Lippincott's Magazine for May, just received, is an unusually good number, and several of the papers are beautifully illustrated. We have not had time to analyze the articles, and it must suffice to say, the contents are of a thoroughly good and attractive character.

—Godey's Monthly for may is one of the best numbers of the year. In Nicholas Minturn, Richard Irwin of the Mission Schools of New York, and illustrates how easily a good and thoughtful young gentleman may be led into the dead beats, which infest the world under the guise of assumed characters.

—The Lady's Book for May is the perfection of a book for boys and girls. Every family should be without it ought to take it.

—Godey's Lady's Book for May contains the usual, many choice articles, and a few things to interest the ladies.

—EYE AND EAR INSTITUTE.—Dr. J. Ridlon, Surgeon in Charge of the Eye and Ear Institute, No. 65 North Gay Street, Baltimore, reports to the board of trustees of the institute, that during the past month there have been over three thousand persons treated, who, coming from all parts of the country, presented to view the various diseases of the eye and ear. During this time there have been 179 operations for cataract; 96 for squint; 43 for the removal of foreign bodies in the eye, the "right" of which has caused the enhancement of the eyesight. The operation for the relief of deafness was performed one hundred and twenty times during the past month. The Institute is a large number of so-called chronic affections have also been successfully treated during the same time. Of these the formation of two new societies, the old ones having been taken away by a violent storm, and the transforming of a chronic complaint into the latest specific in order preventing quietly to prevent collision between these societies, deserved special mention. In the dispensary department of the institution 6,911 patients received medical treatment. Judge Dobbin, Judge of the Superior Court of Baltimore City, is President of the Board of Directors.

[COMMUNICATED.]

MR. STAR:—I write not to criticise the report of the trustees of the almshouse, published in Tuesday's Star, but to remove an impression which the reading of the report might convey.

If the affairs of the almshouse have been well managed by the present board, and from the report of the trustees, I see no just cause for complaint, it must not therefore be inferred that they were not equally as well managed by the late board.

When the late board took charge of the almshouse, it found it in debt about $5,000. It paid off that debt, rebuilt the overseer's house, which had been burnt, repaired the almshouse, built a new porch to it, lined the farm all over, and largely increased the crops. It turned over the establishment to the present trustees comparatively out of debt, with several hundred dollars in bank or in the hands of the county commissioners, to run the establishment until the next levy. In the meantime, the sanitary and moral condition of the almshouse had been much improved, and everything about the place was prosperous when the present board took possession. I do not say there was no room for improvement; there was: and I hope the present board will go on and improve the almshouse, until it is made what it ought to be.

THE EASTON MOZART BAND.—The following is a copy of a preamble and resolutions, passed by the Easton Band at their last meeting:

WHEREAS, The Easton Mozart Band feeling the deep necessity of a uniformity in appearance on public parade, and being a purchase organization have not the means whereby to equip themselves individually, adopted a mode of raising the necessary funds by instituting a series of Dramatic Entertainments in the town of Easton; said entertainments being held, and the public patronage remunerative, therefore be it *Resolved*,

1st. That to a generous public we make our grateful bow, for the liberal patronage of their very liberal patronage to our entertainment and for the excellent good order and fairness manifested in our efforts to discharge our laborious duties, and for the appreciative manner in which they evinced their delight by continuous rounds of applause.

2d. That the most profound thanks of this association be tendered to the members of the Easton Dramatic Association who, under the management of Mr. S. B. Hopkins, Jr., very kindly aided us in conducting our entertainments, and that we ever cherish a high esteem for that association collectively and individually.

3d. That to Messrs. John Mason and J. L. Caldwell, also to the ladies and others, we owe a debt of gratitude for their liberality in extending to us the use of various articles of furniture, &c., for stage arrangement.

4th. That the committee of this association receive our many thanks for their unceasing efforts, and successful accomplishment of their arduous duties connected with said entertainments.

5th. That the aforegoing resolutions be printed in the newspapers of the town.

ROBT. N. LARRIMORE,
President.

J. H. McHALE, Sec'y.

THOMPSON & KERSEY'S ENLARGEMENT.—We have hitherto noticed the fact that Messrs. Thompson & Kersey were enlarging their dry goods store, in front of the market house. The enlargement is now completed, and they have just moved their goods, desks, &c., into the new part. Their store is now 110 feet deep, the new part being devoted principally to their large carpet business and storage of domestic goods. The elevated floor, where their desks stood, has been removed, the back wall of the old store has been taken out, and replaced with iron columns; a magnificent skylight has been constructed in the centre of the store, which illuminates the whole establishment, and immediately under it their counting desks are placed. Front of the skylight is devoted to their general dry goods business; the rear to their carpet trade; and the upstairs is stocked with ready-made clothes. It is as complete an establishment, in all of its appointments, as can be found on the Peninsula South of Philadelphia. But few stores in cities will compare with it in extent and completement. Their stock of goods is immense and it is needless to say they are driving a smashing business. In the dry goods and grocery department together, they employ six clerks, besides the two proprietors, and keep one clerk constantly on the road, selling to farmers at a distance by sample. Their stock embraces every variety of goods, from the highest priced silks down to five cent muslin and calico, and a hundred kinds of notions. They are attentive and obliging to customers, and are pleased to show their store or stock to all visitors, whether buyers or not. Such a store is highly creditable to Easton as a business place. We advise all of our readers when they come to Easton next Monday to see O'Brien's great circus and menagerie, or at any other time, to call and take a look at Thompson & Kersey's improvements, and if they have goods to buy, they will find there every thing they may want, at prices that will astonish them, and a clever set of clerks to show them.

"CALDWELL'S ADDITION."
