# THE EASTON STAR

EASTON, MD.

TUESDAY, MAY 13, 1879.

T. K. ROBSON, Editor.

HON. A. P. GORMAN has been re-elected President of the Chesapeake & Ohio Canal Company, and the old Board of Directors have been re-elected for another term.

$100,000,000 SURPLUS in the U. S. Treasury is enough. Before the war the Democrats never thought of keeping more than $50,000,000 surplus in the Treasury. Secretary Sherman has $450,000,000 in the Treasury! What is the country going to do about it?

THE Democrats in Congress have decided in caucus to knock under to the Republicans, and vote the supply bills without the repealing sections that caused Mr. Hayes veto. Brave boys! They should go home and make their excuses to those that sent them to congress.

GENERAL JAMES SHIELDS died suddenly at Ottumwa, Iowa, last week. He had filled a great many public positions during his life. He was at different times United States Senator from Illinois, Minnesota, and Missouri. He was shot through the lungs in the Mexican war, and commanded a division on the Union side in the late civil war. He was poor when he died, and supported himself by lecturing.

THE total debt of the United States for June 1st, is advertised to be

| | |
|---|---|
| | $2,457,773,765.91 |
| Cash in Treasury | $30,591,207.72 |
| Debt less cash in Treasury | $2,027,182,468.19 |
| Bonds issued to Pacific Railroad Company | 64,628,512.00 |
| Whole amt of debt less cash in Treasury | $2,091,805,980.19 |

With all of Mr. Sherman's fuss and funding, he does not appear to be making much headway in reducing the public debt.

ST. PATRICK'S CATHEDRAL.—Cardinal McCloskey's new Roman Catholic Church in New York city, which cost between four millions and five millions of dollars, and to build which will cost over half a million of dollars more—has been opened for divine service. It is the largest and finest Cathedral on the American continent. The choice for 55 pews, which does not include pew rent, was sold at auction one night last week, and brought $18,000; the first choice brought $2,100, and was purchased by Mrs. J. F. de Navarro. The second choice brought $750, and several brought $600.

AN army of deers commanded by a lion, would be better than an army of lions commanded by a deer, says the old proverb. Mr. Hayes has gained immensely in popularity with his party by the pluck he has shown in vetoing the bills passed by Congress, repealing the bayonet election laws; and by yielding the points at issue, the Democrats in Congress have lost the confidence of their constituents. They haven't the pluck to stand up to the issue, and therefore they might just as well adjourn and go home. They had the cards in their own hands but were afraid to play them. As soon as Blaine and Conkling cracked their whips over their heads, they took to the bushes. Bosh.

THE United States Treasury holds in cash at this time over $430,000,000. This is nearly half the currency of the country, including gold, silver, greenbacks, and national bank notes. We can see no good reason why the Treasury should be allowed to absorb so much of the money of the country; and it would be a good thing if Congress would order Mr. Sherman forthwith to pay off $300,000,000 of the domestic public debt with the money in the Treasury, and stop the interest on it. Such a measure would give instant relief to business, and at the same time reduce the annual expenses of the government some $15,000,000.

If Congress does not give the country some such measure of relief, but adjourns without doing anything, leaving Mr. Sherman free to contract the currency at his pleasure, to the ruin of business, the Democrats will commit party suicide, and give a momentum to the National or Greenback movement that will send it forward as the ultimate, dominant and ruling party of the country; for if the people cannot get relief in one way, they will have it in another, and they will not submit longer to be oppressed and ruined by the Federal treasury.

$430,591,507.72 of currency remaining idle in the public treasury, and the country in a state of collapse for the want of money, and Democrats in Congress sitting sucking their thumbs, not knowing what to do to give the people relief! What a picture!

### Protestant Episcopal Convention of the Diocese of Easton.

SNOW HILL, MD., June 4.—In the absence of Bishop Lay, the Protestant Episcopal Convention of the Diocese of Easton was called to order by Rev. Theodore P. Barber, chairman of the standing committee of the diocese. Dr. Barber announced that he had just received a telegram from Bishop Lay, at New York, signifying his return after six months in Europe, in improved health, and that he would be in Snow Hill on Thursday to preside over the convention. The convention then proceeded with its organization. Rev. James A. Mitchell was elected secretary and W. S. Walker appointed assistant secretary. Fifteen ministers and nineteen lay delegates were present. In the afternoon session the president announced the usual committees. Reports of the treasurer of the convention and treasurers of relief fund, Home for Friendless Children and Home of the Friendless were made. A committee—Revs. Dr. Stearns and Dashiell, and Messrs. S. S. McMaster and Wm. S. Walker, were appointed to act with the committee of the diocese of Maryland in reference to a memorial service in November, 1880, to commemorate the organization of the diocese of Maryland. Rev. Dr. Burton submitted the report of the board of diocesan missions; Dr Adkins, of the treasurer of missions, and Judge Carmichael, of the trustees of the Episcopal fund.

SECOND DAY.

THURSDAY, June 5.—The convention had three sessions to-day, all of which were well attended by persons from all parts of the county. At night a meeting of the committee appointed for the purpose, welcomed Rev. Bishop H. C. Lay, who responded in an address. Chestertown was selected as the meeting place for next year. A resolution was offered to extend the sympathies of the diocese to the Bishop of Pennsylvania in his efforts to suppress ritualism in his diocese, but it was laid on the table to preserve harmony in this diocese.

### Acquittal of a Congressman.

The trial of Congressman Hull, of Florida, before the United States Court at Jacksonville, for conspiracy to secure his election to Congress, has resulted in his acquittal. Four colored men and one white republican were on the jury, and the grand jury which found the indictment was organized under the test-oath system. A special committee of the Florida Legislature, composed of representatives from both parties, some time ago unanimously reported that Mr. Hull was innocent of the conspiracy charged.

### The News.

Texas has adopted the bell punch, and after the first of next October there will be a tikle in the State after every drink.

Hon. Alexander H. Stephens is ill again, and has lost that extra pound of flesh.

A Washington Critic says: "Senator Groome shaves so often and gets up his whiskers in so many styles that the Senate door keepers cannot recognize him half the time."

The Catholic Bishops have had a meeting and resolved to do what they can to help Arch-Bishop Purcell out of his pecuniary difficulties.

Cause and effect are inseparable, and to nullify any effect the cause must be removed, particularly in disease. Dr. Bull's Baltimore Pills always work radically, and at once neutralize the effect of disease by eradicating the cause. Price only 25 cents.

Three members of the Pennsylvania legislature have been convicted of bribery by the Report of a Committee of the House, but the expulsion resolutions were defeated. It looks bad for the morals of the legislature, when members cannot be expelled for proved bribery.

The Judiciary Committee of the Senate has reported against the confirmation of R. Stockett Matthews as Judge of the U. S. Circuit Court for Maryland.

Judge Dillon, of the United States Circuit Court, of Iowa, having resigned, President Hayes has appointed Secretary McCrary of his Cabinet to fill the vancancy, but as it is reported that Secretary McCrary had a hand in preparing Mr. Hayes' veto message of the Army bill, and it is known that he is in favor of bayonet elections, his confirmation by the Senate is not likely.

The workmen in the iron factories of Pittsburg are on a big strike, bringing business to a stand still in the city of soot and smoke.

Mayor Ferdinand D. Latrobe has been unanimously nominated for reelection by the Democratic convention of Baltimore. The Baltimore Democrats appreciate the value of a good Mayor. General Latrobe accepts the nomination.

General Thomas Ewing has been nominated for Governor, and General A. V. Rice has been nominated for Lieutenant Governor, of Ohio, by the Democratic State convention which met last Wednesday at Columbus. The following expressions of opinion will be interesting:

Secretary Sherman says: "It is the strongest and most respectable ticket the Democrats have put in the field for twenty years."

Speaker Randall says: "Nothing better could have been named. I predict a sweeping success for the party."

Mr McMahon: "This was my original ticket, and I am satisfied now as I was in the first place that nothing can beat it."

Sergeant-at-Arms Bright: "The ticket is just about as invincible as any that could have been found. For once the party has done its best."

These are but specimens. All agree that the nomination of these two distinguished Democrats will place the party in a better position than it has been in for some time. Mr. McMahon regards it especially strong, because it will unite all elements of the party. Mr. Bishop, who was regarded as the Tilden man, threw his strength for Ewing and General Rice, who was chaperoned by Senator Thurman, takes the second place, with the Greenbackers standing on to break for Ewing.

Baron Lionel Rothschild, the great English banker, died in London last week. He was the eldest son of the late Baron Mere de Rothschild, and a grandson of Anselm Rothschild, of Frankfort, that founded the great banking house of Rothschild, in 1770, which now has its branches in all the great money centres of the world, and worth billions of dollars.

The New York Herald, in an article on the Grant movement, condemns it very emphatically, and is bold enough to say "to nominate General Grant would alarm the country, and would be fatal to the party which did it."

The decision of Judge Christian, of Virginia, with regard to the selection of negroes for jury service, emphasizes the view that a State has the right to prescribe the mode in which jurors are to be selected and summoned and trials conducted in its courts.

Referring to the charges of violence and disorder brought against the South, the correspondent, of a Boston paper he it re-

For can the North afford to taunt the South with the mote that is in her eye till the dominant section first extracts the beam from her own eye. In the North, women and children are daily murdered by brutes. Public sentiment is often low-toned in its judgement of bad men, the destroyers of children and helpless women. In the South, man murders man in the street affray or the bar-room duello. For my part, I think the man who stands in deadly encounter with his fellow man, willing to take his chances in his deadly interchange of shots, is a manlier fellow than the fanatic who slays his child, the seducer who packs his victim in a trunk, the husband who brains the woman he has sworn to cherish, and thus on through the ghastly catalogue of Northern crime. Christian charity, in our judgment of the South, and a lively remembrance of our social sins, will do much to aid the attainment of fair views.

### The Nature of a Miracle.

A priest, after vainly trying to explain the nature of a miracle to a doubting Irishman, suddenly stopped, kicked him, and asked, "Did you feel that?" "Yes," said the Irishman. "If you hadn't," resumed the priest, "it would have been a miracle." Thus argument sometimes fail to convince, though every objection be fully answered. Like stubborn are the few who yet doubt the efficacy of Dr. Pierce's Family Medicines. Positive proof of merit has repeatedly been advanced. Testimonials from prominent citizens in nearly every town in North America have been published, certifying to the doctor's sincerity, honesty, and superior skill. Why longer doubt? If afflicted with a cold, cough, bronchitis, consumption, or any scrofulous disease or humor, Dr. Pierce's Golden Medical Discovery will effect your speedy cure. Give no heed to what some unsuccessful physician, or healthy and "skeptical" neighbor may say. Decide for yourself. J. A. Alexander, M. D., of Broadway, Va., writes that he has thoroughly tested Dr. Pierce's Family Medicines in an extensive practice, and has found them to possess superior merit, and to do all that was claimed for them. He further says that a copy of the People's Common Sense Medical Adviser should be in every house.

### Helmbold's Medicinal Preparations.

Helmbold's various medicinal preparations have for the last twenty or more years occupied a prominent place on the shelves of every respectable druggist and physician in the land. The skill displayed in their preparation, the invariable promptness and efficiency of their action, the absence of nauseous and disgusting taste or odor, and the attractive manner in which they are put up, have made them universal favorites. Especially is this the case with Helmbold's famous Buchu, a medicine which has become indispensable in the treatment of a large and troublesome class of diseases, particularly those which affect the digestive and urinary organs. As a diuretic, it is invaluable, and the great advantage it possesses over other preparations is the absolute purity of the ingredients, and the uniformity of strength. Parties purchasing should be careful to see that Helmbold's proprietary stamp is affixed to each bottle.

MR. I. N. ELSTON,

Easton's fashionable Cutter is with him and guarantees to cut and make suits in style and workmanship that will please the most fastidious. He will put his work in competition with Philadelphia artists or with all others combined.

He will not be undersold by any fair and honest dealer in his line, but will not meet the prices of those who do business to no advantage to themselves and to the detriment of everybody else. a15 79

Millinery! Millinery!

Fancy Goods And Notions!

My "Millinery Opening" of this spring was such a GRAND success that I desire now to renew my request to those who saw the display of Hats and Bonnets, and to the public generally, to call and examine my stock of "Untrimmed Hats and Bonnets and trimmings for the same. I have left nothing undone (in my selection of stock) to please the most fastidious, and can to-day show a stock (in variety and cheapness) equal to any in this town. This being the first town on the shore in having enough. I make no boast of superior stock, nor skill, nor cheaper goods, nor anything else, for I believe that others have equal facilities with myself; but while I do not claim superiority, I do emphatically deny that others have superior facilities to mine. The favor with which the Trimming done at my establishment has been received by those fully capable of judging, the amount of trade accorded me this season (although working under disadvantages, for want of room, &c.) and the compliments passed by those who have examined my stock, all satisfy me that I am not behind any one in my display.

I keep every kind of goods usually kept in my line of business, and cordially request a call and examination.
