—The County School Board has appointed Mr. William Nelson, of Virginia, Principal of the Easton Hight School for the coming school year. Mr. Nelson taught in the Easton High School as assistant teacher, in 1868, 1869, and 1870, and is an accomplished teacher and gentleman. He is a graduate of the University of Virginia, and the patrons of the school will doubtless be delighted to have him back again.

—By a notice in to-day's STAR, it will be seen that Miss Betts, of Greensborough, will open a school for young ladies in Easton on the 15th inst. She has rented Mrs. Powell's large house and grounds, corner of Aurora street and Railroad avenue, for 1880, and will, after the 1st of January next, open a first-class boarding school, an enterprise that deserves to be fostered and patronised by our citizens.

—The Williamsburg B. B. C., of Dorchester, publish a challenge in the Federalsburg Courier to any club or picked nine in Talbot county to play them a game on the Williamsburg grounds. That is a sickly challenge. It is always supposed that a challenging club follows its challenge. There is no regularly organized club here, but if the Williamsburgers will come here we think we can raise a "picker nine" that will send them home mourning at having received a "chicago."

[COMMUNICATED.]

EDITOR OF THE STAR:

Please allow me room in your columns to correct an error which seems to prevail in this community regarding Messrs Gorrell & Lane as carpenters and builders. There has been a rumor set afloat by a certain set of mechanics in town, to the effect that Mr. Gorrell is not competent to be trusted with a good job of work, and that he is only a common rough workman. Now, sir, since the above rumor has been going the rounds, I have taken the pains to go to Baltimore and see some of his former employers, and they say he is a first-class mechanic, and one man who was in his employ for five years says that there never grew a piece of timber that he (Gorrell) could not make something useful of. Now, sir this rumor was set afloat for an effect against Gorrell & Lane, and we put ourselves before the public as carpenters and builders, and intend to do work as low as anybody on the Shore, and do it as good as anybody in any style, either Greek, Russian, Chinese, English, or American, and defy competition in either particular. I was told by another of Mr. Gorrell's employers that he is one of the best mechanics in the State. As regards myself, I don't claim to be a first-class mechanic, but say I can do about as good work as nine out of every ten who profess to be first-class. Try us, and if you do not get a first-class job it shall not cost you a cent.

SILAS LANE.

Death of Charles P. Smith.

It will be remembered that in April, 1878, some excitement was caused here by a young man of the above name selling a note to Mr. A. A. Pascault, with the name of Mr. J. E. McDaniel forged thereon. A special to the Philadelphia Times, of Wednesday, announces his death at Tunkhannock, Pa., on Monday night. Before his death he made to the Rev. Geo. T. Kneller the following confession:

"My true name (he was known at Tunkhannock as George Dalton) is Charles P. Smith. I will be twenty-one years of age on Monday night. I ran away from home in March, 1877, and was married. My wife and child now live with her father, in New Windsor, Md. In April, 1878, I forged the name of J. E. McDaniel to a note and sold it to A. A. Pascault, of Easton, Md. A reward was offered for my arrest. I fled to Seaford, Del., and was there arrested, but was released on some legal technicality, since which time I have been a fugitive from justice. I had it reported that I died of consumption at Asbury Park. I believe God has sent this disease upon me as a just judgment. I have been guilty of other grave vices and immoralities, and since coming to your town have lived the life of an imposter to evade the hand of justice. I have greatly deceived the good people of the place and cruelly abused their generous sympathy and hospitality. I beg you to ask those I have so basely wronged to forgive and pity me, and may God Himself, for Christ's sake, have mercy on me in my dying hour."

Prior to his death Mr. Kneller telegraphed to the youth's father, and in reply received the following dispatch: "Affairs at home will not permit my leaving. If Charles dies telegraph me." This Mr. Kneller answered as follows: "In God's name relent. Take pity on the poor, dying boy. See Luke xv., 11-32 (the story of the Prodigal Son)." No reply was received, however. The funeral took place on Tuesday afternoon and was largely attended.

PENINSULAR NEWS.

There were fifty tramps in Dover jail on Saturday week.

Wilmington just now is having a bad attack of sheriffs' all.

Several Dover lawyers are about to emigrate to "pastures new."

Capt. Smith, a well-known farmer of Cecil county, died on Thursday week, of cancer.

The mosquitoes killed several head of cattle on the marsh at Lewes recently. Harbeson lost eight head.

Since the visit of the Fifth Regiment to Ocean City, the young men of Salisbury are agitating the subject of organizing a military company.

The "Greenfield and Lusby Farm," in the first district of Cecil county, 288 acres, has been sold to Mrs. F. R. Pascault, of Talbot county, for $66 per acre.

The Cambridge News denies the statement which first appeared in the Salisbury Advertiser, that a boy had been killed in Dorchester county by mosquitoes.

The examiner of schools for Queen Anne's county was engaged on Thursday and Friday in examination of applicants for teachers certificates. There were twenty-five applicants, all being new except one.

We have heard of a family of six persons in this town that ate forty-two large potato dumplings at one meal recently. A half gallon of milk and cream and several pounds of sugar, perhaps, were consumed in giving taste to the dumplings.

The town of Salisbury voted by 95 majority to purchase the Silsby steam fire engine that has been on exhibition in that town for the past week or two. The engine is a rotary and is manufactured at Seneca Falls, N Y, and is one of the best manufactured.

ATTENTION FARMERS:

The undersigned, Pioneer in the manufacture of Fertilizers in this city, and engaged since 1858, first as a member of the firm of J. J. & F. Turner, by whom the formulas and processes of manufacture of

"Excelcior" And "Ammoniated Phosphate"

were *originated*, and since 1864 a member of the late firm of J. J. Turner & Co., (dissolved 15th March, 1878,) relying upon his experience and personal reputation, hitherto acquired in the uniform excellence of these Fertilizers *as manufactured by him*, offers them in *his own name* to the agricultural public.

Having secured the *works of the old firm*, 111 McElderry's Wharf, with the complete machinery, *specially constructed for their uniform manipulation*, he will continue the manufacture of

"Excelsior" And "Ammoniated Phosphate"

On his own account, with his office adjoining the works, where he will be pleased to see his friends and patrons, assuring them that the Fertilizers manufactured by him shall be of the *same uniform and high standard quality* as sold by the *old firms* since their introduction

J. Q. A. HOLLOWAY,

Originator and Manufacturer of

The above are the most concentrated *FERTILIZERS* ever offered to the Farmer combining all the stimulating qualities of Peruvian Guano, and the ever-durable fertilizing properties of Bones, in fine, dry powder, prepared expressly for drilling in with the Grain—and it is the universal opinion of the Farmers of Maryland and Virginia, after over twenty years experience in the use of the Excelsior manufactured by me, that an application of 100 pounds is equal in its effects to 200 pounds of any other Fertilizer or Guano, therefore fully 50 per cent. cheaper.

With my present advantages and superior facilities for Manufacturing, I challenge competition with any Fertilizer sold in the United States in Quality, Mechanical Condition and Price.

By strictly adhering to my *Original Formulas*, using only the most concentrated materials, and, *as superintending in person their manufacture—as for the past twenty years*,

UNIFORM QUALITY IS GUARANTEED.

☞ Farmers to secure the only Genuine Excelsior and Ammoniated Phosphate, prepared according to *my original Formulas established* in 1858, should see that every Bag is branded as above, with the *analysis* and *my name in red letters*.

Whitelock's VEGETATOR!

This article is modelled on the high grade manures of England. It is so highly concentrated that to produce the same yield, less should be applied than of any other fertilizer. When applied the wheat will stand the severest winter, and a grain crop afterward is always certain. From those who are unacquainted with its value, we ask a trial by the side of anything which may be purchased.
