—Havana, Keywest, and domestic cigars.—Agents for Village Belle, Helen's Babies and Electric Light cigars, Stevens & Hayward druggists and apothecaries. The skilfull compounding prescriptions a specialty. 30-4

—The equinoxial storm passed over this section last Wednesday—the wind at north west—bringing a cold wave that made people shiver.—Wednesday was about the most wintry day we have had this winter, and just such a day as we had on the 25th of March 1855, at the time of the big fire.

—Don't forget the entertainment of Miss Nella F. Brown, this evening, at the Hall. It is expected to be the finest thus far of Mr. Dodson's Star Course. Next Tuesday evening, April 6th, the Young Apollo Club, of New York, will appear, when our citizens will, for the first time, have an opportunity to enjoy an opera.

—The M. E. Church has secured a valuable accession to its musical corps in the person of Mr. —— Heywood, cornetist, late of Connecticut. The sweet tones of the cornet blending harmoniously with those of the grand organ under the skillful touch of Professor Dodson is now one of the attractive features of Easton Methodism.

—There was a gramatical blunder committed in last week's STAR, in putting in type the advertisement of a gold ring found by Mr. M. Hale, which was wholly the fault of this office in reading and correcting the proof. It is a matter hardly worth mentioning, except for the fact that Mr. Hale is very particular about such things.

—Farmers say the wet, cloudy weather week before last checked the growth of wheat somewhat, and in places made it look sick, giving it a reddish tinge, that is not healthy. Bright weather for a few days will doubtless bring it all right again. The averaged wheat crop never look better at this season of the year than it does at present.

—The Maryland Historical Society has very handsomely published in pamphlet form, the paper printed in the STAR sometime ago, by Dr. Samuel A. Harrison, entitled "A Memoir of the Hon. William Hindman." This is the second of Dr. Harrison's contributions to the annals of Talbot county which has been reprinted by the Maryland Historical Society.

—The Choptank District Grange No. 3, Patrons of Husbandry, will meet in Easton Wednesday week, the 7th of April. All of the District officers and delegates will attend, and a large number of visitors from our local Grangers may be expected to be present. The interest in Granges is by no means abating; on the contrary it is constantly increasing among farmers.

—Mr. William Culverhouse, from Ligonier, Noble county, Indiana, has opened a gun and locksmith snop, at the stand on Dover st, lately occupied by Mr. Thomas R. Smith as a green grocer. We should think a lock and gun smith ought to do well here. Mr. Culverhouse comes highly recommended as a good workman in his specialties. He also repairs sewing machines, parasols and umbrellas.

—Sine's Syrup of Tar, Wild Cherry and Horehound is very pleasant to the taste, and the oldest and best remedy in the market for coughs and colds. A splendid medicine for the baby, try it. Your druggist has it.

—Don't fool any longer with that cough. You don't know but it will turn to consumption.—Cure it right away by using one bottle of Sine's Syrup of Tar, Wild Cherry and Horehound.—Price 25c and 50c per bottle.

—The splendid Hambletonian horse "Oakland Chief" from Govanstown, Baltimore county, was exhibited here last Tuesday by his owner, Mr. L. Monger. He is 16¼ hands high, a mahogany bay, black mane and a flowing black tail, and was pronounced by all who saw him as the handsomest horse that has been seen in these parts for a long time. He is a thoroughbred Hambletonian.

—Samuel T. Dickinson, Esq., of New York, has presented to St. Paul's Protestant Episcopal Church, Trappe, Rev. A. R. Walker, Rector, a handsome bell, 28 inches in diameter, and weighing 400 pounds, as an Easter offering and memorial of his father and mother, who were members of White Marsh Parish. The bell was placed in the belfry of the church on Saturday, and called the congregation to worship on Easter morning.

—There is a general complaint of a scarcity of money in this county. Farmers say it takes all their surplus money to pay their fertilizer bills. We find it very hard indeed to collect even small bills. Nine out of ten persons we call on say they have no money. Yet we want and must have the bills due this office. How are we to collect them when people have no money, is the conundrum that is harder to solve than the 13-15-14 puzzle.

—If persons were as careful of their health as they are of their wealth the death rate would be much smaller from that dreadful scourge—consumption. It carries off in the United States in one year ten times more persons than succumbed to the yellow fever in the South—this is a fact and the statistics prove it. Thousands of valuable lives would have been saved from consumption had they but used Sine's Syrup of Tar, Wild Cherry and Horehound in time. In all cases of whooping cough, croup, asthma and lung affections it has proved to be a certain cure when taken in time. Sold in every drug store. Price 25c per bottle; extra large bottle 50c.

—The new process of sun printing has been employed, (probably for the first time in book illustration) in giving a handsome portrait of the late General J B Hood as a frontispiece to his great book on the war, which was the result of some four years preparation. The book is beautifully prepared with clear new type, best of paper, fine illustrations, and not unworthy of the studio of the historical studedt or the boudoir of the fashionable lady. The entire proceeds of the book are devoted to the Hood Orphan Memorial Fund for the education and support of the ten little orphan babes of General Hood, and the dublisher is General G T Beauregard, P. O. address, New Orleans, La.

End of the Gold Ring Case.

The grand jury in the U. S. District court, Baltimore, has dismissed the case of the United States vs. Jacob H. Gibson, there being no evidence against him. Mr. Gibson has thus been entirely vindicated of the charge of having robbed the Tilghman's Island post office of a gold ring.

Furniture.

Benjamin Waskey, 208 West Pratt street, Baltimore, agent for manufacturers of furniture, mattresses, bedding, and house furnishing goods, invite a call from the citizens of the Eastern Shore when they come to the city. He is selling sets of walnut and cottage furniture made in the very best manner, as cheap as the cheapest. nov4-6m

Slate Mantles.

For the handsomest and cheapest slate and marble mantles made in Baltimore, go to J. Coyle & Brother, 359 West Pratt street. They have a secret in the manufacture of slate mantles not known to other workers in slate, which enables them to sell a handsomer article for less money than any other house. Their designs cannot fail to please. nov4-ly

Public Sale.

Rev. P. T. Warren, the Baptist minister at Long Woods, has accepted a call to Loudoun county, Virginia, and will remove to his new charge about the 15th of April. By reference to his advertisement in to-day's STAR, it will be seen that he will sell his furniture, horse and carriage, etc, on Wednesday week, the 7th of April. By the way, his mare is a very fine and gentle young animal, and any one wanting a fine carriage horse, will be fortunate in securing her.

The Leaders of Fashionable Dress and Low Prices.

C. N. Obem & Son, proprietors of the largest one-price double clothing house, Baltimore, now occupy two entire three-story buildings with their splendid stock of mens', youths', boys and children's spring clothing. Having bought and manufactured their entire stock before the great advance of woolens, they are selling great bargains in every department for spring and summer wear, which none can afford to overlook.—We feel it our duty to call the attention of our readers to this truly famous and reliable establishment, cor. Pratt and Hanover sts. No one in need of clothing, ready made or made to order, should fail to call on Oehm & Son and see the low prices at which the most choice and perfect fitting garments are selling. mh16

Kent Narrows Brige.

It having been reported that the bridge at Kent Narrows was in a dangerous condition, the County Commissioners of Queen Anne's County, employed Major N J Hudson, of Baltimore, to inspect it and make a written report. This was done, and below we publish the Major's report to the commissioners, taken from the Centreville *Observer*.

BALTIMORE, March 17th 1880.

MR. W. KENT SPARKS—Commissioner Queen Anne's County, Md., Centreville, Md:—Dear Sir: In accordance with your request, I have had the bridges at "Kent Narrows" and "Price's Island" examined, and would report as follows:

BRIDGE AT KENT NARROWS.

From the report of soundings made for Col. Craighill, in the fall of 1878, as compared with those made under my direction on the 13th inst. I would say that the water on either side of the centre has not increased in depth for eighteen months and we may therefore hope that the washing out has ceased.

The loose stones (or rip-rap) thrown in from time to time, was still found in place, (not washed away.)

The centre pier was found to be entirely uninjured; no washing away about it that could injure it at all.

The embankment at the mainland (or Eastern) end has washed way above water (by caving in) for about ten (10) feet, and while it is not dangerous, I would recommend that some loose stone be thrown in about it, to stop further caving or washing.

I would also recommend that some stone be put in against centre pier, on the Kent Island side, as is shown in *red* on the drawing sent with this. I would also say that the main iron suspension rods, should be screwed up to an even bearing, and to keep them tight, they should be examined at least once a month. If the bridge jams or drops at either end, it is because these rods need tightening up; moreover, if they are tight up the bridge will swing much more easily than if they allow the floor to droop or bend downwards.

The depth of water for 20 feet on each side of the pier, should be *carefully* measured monthly, and if any great increase of depth is found, we should be notified at once.

About 100 perches of stone, costing about $1.25 per perch delivered in the water, ought to be a liberal allowance for the repairs I have mentioned.

One of the oak timbers on which the traverse wheels run, is rotten, and should be replaced by a sound piece.

The National Citizen-Soldier,

published at Washington, D. C., is an ably edited monthly, devoted to the interest of the soldier, and every soldier in the country should have the reading of it. It defends the men who shouldered their guns in time of danger; it keep them posted on all matters pertaining to pensions, back pay, bounties, land warrants, etc. It also pleads for them with the people, and does not forget to call the attention of Congress to their claims. It boldly advocates every measure sure whereby the soldier will be benefitted, and denounces every action that is detrimental to his interest. Twenty-five cents pays a year's subscription. Sample copies can be had by addressing the Citizen-Soldier Publishing Co., Box 588, Washington, D. C.

Death of Ex-Judge Roberts.

Captain Wm. D. Roberts, the senior member of the firm of Roberts & Sons, Architects and Builders, died in Easton, of pneumonia, on Friday last, aged 68 years. Judge Roberts was born in this county, but learned his business in Baltimore, where his high character raised him in early life to considerable prominence; at one time commanding a military company, whence he obtained the title of "Captain." He was a member of the Baltimore city council, a member of the School Board of Baltimore, and an Inspector of Lumber. About 30 years ago he returned to his native county, engaged in farming in St Michaels district, and subsequently resumed his trade as a builder. In 1867 he was elected one of the Judges of the Orphan's Court for Talbot county, and re-elected to the same office in 1871. About ten years ago he made his home in Easton, where he resided up to the time of his death. He was a member of the Methodist Protestant Church, a most estimable gentleman in all the relations of life, and highly esteemed by all his acquaintances. He has been in failing health for over a year past, and his death at no distant day was anticipated by his family, although the immediate attack which ended his earthly career was sudden and unexpected. He was buried on Sunday with the service of the Methodist Protestant Church, Rev Mr. Tagg officiating.

The Proposed Paper Mill.

We noticed sometime ago, that a movement was on hand to establish a paper mill at Tunis' Mill. Within the last two weeks the plan of establishing the mill at that place has been abandoned, and Easton fixed on as the place for it; not on account of an insufficient supply of water, as stated by the *Comet*, for a party offered to supple the necessary amount of water there to run the mill for a specific sum, giving a guarantee; but because it was ascertained that a larger mill than it was proposed to build there would be more profitable, and it was necessary to change the location to secure the necessary amount of stock. Dr. I. L. Adkins has on his place near town, an excellent site for the mill, where an abundance of water at all seasons can be assured at small expense, and he offers to donate it to the company; besides he will subscribe a liberal amount of stock. We understand that sufficient stock has been already pledged to assure the success of the enterprise. The mill will manufacture straw board, and will consume over 2,000 tons of straw per annum. Besides making handsome dividends for the stock holders, the mill will afford a market for the wheat and oat straw raised by our farmers, and they may sell their straw for enough money to pay their fertilizer bills. This will be a very important thing to them, and should cause them to take a lively interest in the success of the mill.

The Dilleham-Robinson Entertainment.

It is to be regretted that Prof. Robinson selected so unfavorable an occasion as the most solemn portion of the Lenten season for his literary and musical entertainment; owing to this, primarily, was the small number that greeted him at Music Hall on the evening of the 26th inst. Notwithstanding, however, the disadvantages under which the several participants labored, there was no appreciable diminution of the interest on their part;—the same spirit that a crowded house would inspire was manifested throughout the entire programme. The selections, both musical and literary, were of a nature well calculated to entertain, and there was an absence of all stiffness, affectation or backwardness on the part of performers, in fact, they "trod the boards" with the freedom and ease of those "to the manor born". The reputation of Mrs. Dillehunt as an elocutionist had preceded her, consequently expectation was high; but if ever a person fulfilled expectations, Mrs. D. did on Friday evening. A tall, graceful blonde, at once attracting the attention and winning the admiration, with a voice as sweet and clear as the "bells" she so perfectly imitated, it is not to be wondered at that she made a favorable and lasting impression in Easton. No matter what the nature of the selection she displayed the true elocutionist, while in the rendition of "The Bells" she made that masterpiece of poetic composition reach as near the poet's ideal as it is possible for human voice to produce. We have read over the poem and reread it dozens of times and heard many professionals attempt its production, but not till Mrs. Dillehunt rendered it did we see the full force, the beauty and depth of the poet's imagination. In the *role* of humor she was perfectly at home, as was shown in her rendering of "Aunt Jemima's Courtship," while in the "Rock of Ages," she displayed a depth of feeling that few actresses could produce. We feel warranted in saying that should *Mrs.* Dillehunt favor Easton with her presence again, she will meet with a full house and a warm reception. The musical portion of the programme was rendered by the Robinson Family, assisted by the youthful but talented organist of the Church of the Holy Innocents of Baltimore—Mr Jarvis Butler. The voices of the two elder Misses Robinson were very sweet and blended together with perfect harmony; their singing was much admired. Master John and little Miss Jessie Robinson astonished every one. They are really prodigies upon the stage—mere, children, yet acting with as much ease, vim and correctness as though they had followed the stage for years. Miss Jessie displayed ability that promises fair to rank her among the coming stars. The performance of Mr. Butler showed him at once to be master of the situation; there is not the least affectation about him—a fault of many young performers,—but his performance is characterized by ease, and music of a rare and elevated order. Mr Butler is undoubtedly one of the best organists who has ever entertained an Easton audience. The entertainment throughout was, to say the least, excellent, while it seems to be the unanimous verdict that it ranks among the best that have been given at Music Hall.

"GOLDEN DAYS."

A New Paper for Boys and Girls.

Pure, Interesting and Instructive.

The vicious literature of the day is ruining the children of our country. As there is no legal means of checking the flow of this poisonous fountain, every parent, educator and guardian is compelled to ask himself the question, "What is the best means of checking the evil?"

The best antidote for bad reading is good reading. Children will read and the duty of those having them in charge is to furnish them with wholesome, entertaining and instructive reading, such as will be given in every number of "Golden Days." "Golden Days" understands childhood. It will delight its young friends with sketches of adventure, incidents of travel, wonders of knowledge, humorous articles, puzzles and everything that boys and girls like. It will not teach children to become runaways, thieves, highwaymen, burglars and outlaws. The first number of "Golden Days" contains the opening of two splendid stories. The first is by Harry Castlemon, and is called, "Two Ways of Becoming a Hunter;" and the other is by Edward S. Ellis, and is entitled, "Fire, Snow and Water; or, Life in the Lone Land."

"Golden Days" will be carefully edited, and will do its utmost to assist all who have the interests of our youth at heart. We invite all to examine each number with unsparing criticism. Number One is furnished gratuitously to all. Number Two is now ready and for sale by all News Agents. Price Six Cents.
