For President in 1880,

Hon. Thomas F. Bayard,

OF DELAWARE.

GOV. BROWN has taken his seat as the successor of General Gorden in the United States Senate.

JOHN MURPHY, the well-known Baltimore publisher, died on Thursday, of paralysis of the heart.

M. B. Roberts' Horse Powders have been used with astounding results in the stables of Mr. Pierre Lorrillard, so much so, that the Englishmen have been ordering it in large quantities; since Parole, Wallenstein and other american horses, have won thousands of dollars for their owners.

GENERAL JOHN B. GORDON, U. S. Senator from Georgia, has resigned his seat in the Senate, to the regret of every body, of all parties. Gov. Colquitt has appointed Ex-Gov. Joseph E. Brown, to fill Senator Gordon's unexpired term. The appointment gives great dissatisfaction in Georgia.

SENATOR BAYARD'S bill, to divest United States deputy marshals of their partisan appointment, has passed the Senate. Also the bill to regulate the appointment of United States inspectors of elections; and also Senator Morgan's joint rule, regulating the presidential count by Congress. These are all important measures that should become laws.

Hanlan Again Victorious.

Hanlan and Riley rowed their match race on the Potomac on Wednesday, in the presence of a large crowd of spectators. Hanlan beat Riley about as easy as he did Courtney, and pocketed the $2,000 stakes. The heat on the river was intense, but it did not appear to affect Hanlan, although it was too much for Riley.

THE Republican national convention meets at Chicago on Wednesday, to nominate Republican candidates for President and Vice-President of the United States. There is every probability that Gen'l Grant will be nominated, although the friends of Senator Blaine will contest every inch of ground with him. The fight between them will be bitter in the extreme.

THE Court of inquiry has concluded the evidence in the case of the negro cadet, Whittaker, at West Point. The evidence shows that Whittaker committed the assault upon himself, wrote the note of warning himself, and slit his own ears, all, doubtless, for the purpose of injuring the Military Academy, because the white cadets would not associate with him and recognize him as an equal. Were he a white cadet he would be most summarily punished and disgraced; as he is a negro he will probably be let off lightly by the Republicans.

[illegible] determined fight to defeat the nomination of Grant, and in order to get control of the temporary organization of the Chicago convention, an effort will be made to depose Senator Cameron as Chairman of the Republican National Committee. John A. J. Cresswell is the man fixed upon by the Grant Senatorial triumvirate, as the temporary chairman. Everything depends on the unit rule; if that can be enforced in all the voting, Grant will win; if it is overthrown, under the decision of the National Convention of 1876, then Grant's goose will be cooked, but Blaine will not be nominated.

The primary elections in the third congressional district, lately held in Baltimore, indicate that Hon. F. S. Hoblitzell, Speaker of the Maryland House of Delegates in 1878, will be nominated for Congress, to succeed Hon. William Kimmell. Mr. Hoblitzell is an astute lawyer, a gentleman of large experience in legislation, of very superior abilities and acquirements, possesses great force or character, and will make Baltimore city and the State a most useful member of Congress. There is no man in the third congressional district superior to him in all the qualities that go to make up a first-rate member of Congress. It is extremely gratifying to the country press to see the Democracy of the city expressing their preference for such an estimable gentleman as F. S. Hoblitzell. We truly hope he may be nominated and elected.

The Democratic Primaries and the Convention to-day.

The Democratic primary elections in Talbot took place on Saturday afternoon. In Easton, St. Michaels, Trappe and Chapel districts only one ticket was put into the field; in Bay Hundred there was a contest. The vote indicates great unanimity of sentiment in the county in favor of Senator Thomas F. Bayard, for President; Charles H. Gibson, Esq., for Congress; and Ex-Gov. P. F. Thomas as a delegate to Cincinnati for the State at large. If there is any opposition to these gentlemen, it did not show itself on Saturday. The county convention meets to-day, to elect delegates to the state convention which meets in Baltimore on the 9th inst. The delegates will probably be J. F. Turner, John C. Harper and William S. Merrick, Esqs. The following are the delegates elected on Saturday:—

EASTON—Robert Hough, J. Thomas Kirby, Caleb Griffin, James H. Covington, A. W. P. Robinson.

ST. MICHAELS—John C. Adams, James Cox, Thomas F. Bridges, Denny Williams, E. P. Sparks.

TRAPPE—M. Merrick, Edward S. Harrison, J. P. McKnett, William Collins, Jr., A. H. Barnett.

CHAPEL—Lewis C. Smith, Charles R. Wooters, John Seemer, W. W. Rose, G. H. Tarbutton.

BAY HUNDRED—James M. Lowe, Owen R. Porter, Frank E. Caulk, E. N. Lomax, Oakley A. Cummings.

FROM all parts of the country comes the gratifying news, that Senator Bayard is the man for the Democrats to nominate to beat Grant. Hundreds of thousands of the anti-third-term Republicans will vote for Bayard against Grant. It is confidently believed that he can carry New Hampshire and Massachussetts against him, and New York, New Jersey and Connecticut will go for him like a whirlwind. The German Republicans of the West, opposed to Grant, all want Bayard nominated. When the people want a man, that's the time to nominate him.

Tilden being out of the question, why should not the Cincinnati Convention nominate Bayard. It will do it if it is wise. The nomination of Thos. F. Bayard for President, with a strong Western man for Vice President would assure a Democratic victory in November.

WE have received BLACKWOOD'S MAGAZINE for May, 1880, from the Leonard Scott Publishing Company, 41 Barclay Street, N. Y. In this number "Resta" is finished, and a new story, "Dr. Wortle's School" is begun. "Bush Life" describes some new arrivals from England, and sundry adventures while prospecting for new land, and encounters with tarantulas having legs two inches long, and millions of flies and small insects of all kinds. A companion picture to this is given in "Morocco and the Moors," where, in travelling towards Fez, snakes, lizards, and "centipedes half a foot long" abounded. Apart from these drawbacks Morocco cannot be a pleasant country to visit, as strangers, especially Christians, are not liked there. The article was suggested by the accounts of two travellers, Gerhard Rohlf, who was alone and got along as best he could, and Signor de Amicis, who went as attache to a mission from the King of Italy. What "Peter the Great did and proposed to do for Russia and in Syria" resolves itself into a consideration of Russian advances towards India and English opposition to them.

Of all the modern inventions the Patent Incubator takes the lead, but experience teaches all that whether poultry is hatched by the patent process with artificial heat, or by the old original way patented by nature. They are subject to cholera, gapes, &c., and experience, also teaches those that have tried Roberts' Poultry Powder, in such cases, that it is a sure cure every time. Ask your druggist for it.

No Nonsense About a Republican Platform.

After having completely falsified their resolutions of unalterable opposition to a third term, adopted very generally only four years ago, it is hardly worth while for them to set up any pretension to principle in their platform at Chicago.

The weather is becoming hot, and all resolutions should be brief. Moreover, having been untrue in the past, let them be truthful now. The following might answer:

Resolved, That we are in favor of a third term and imperialism.

Resolved, That we are in favor of Gen. Grant, first for President and then for Emperor.

Resolved, That we are opposed to principles in politics, and only after the loaves and fishes.

Cameron and Conkling may frame a long and high-sounding series of resolutions that will not contain half so much truth as these.—*N. Y. Sun.*

"COUNTING THE VOTE."

Provisions of Senator Morgan's Rule for the Counting of the Electoral Vote for President and Vice-President.

WASHINGTON, May 21.—Senator Morgan's resolution or joint rule for counting the vote for President and Vice-President, provides that the President of the Senate, presiding over the joint assembly of both houses, prescribed by law, shall open all certified list of votes of electors (or papers purporting to be such lists) and hand them in the alphabetical order of the States to the tellers previously appointed by the two houses, by whom they shall be read. If no objection is made to any lists as read, it shall be received and the votes counted, and no other package purporting to contain a list of votes of electors of that State shall be opened. If objection be made to receiving any such list the objections shall be noted, and if there be other lists from that State they shall be read in the same way, and if any one of them is unobjected to, it shall be received, but if none of them is unobjected to, the Senate shall withdraw to its chamber, and each house shall determine separately, debate not to exceed one hour, which list shall be received. If but one list has been submitted to the two houses, and if, upon reassembling, it appears that they have not concurred in relation to such list, it shall be received and counted; but if both houses shall have concurred in rejecting any vote contained in such list, such vote shall not be counted. Otherwise all the votes therein shall be counted.

If more than one list has been submitted and the two houses have not concurred in receiving either of them, they shall all be rejected and not counted. The joint meeting shall not be dissolved until the votes are all counted and the result declared, and no recess shall be taken unless when a question has been submitted to each house as above provided, in which case each house may take a recess, to extend not bejond 10 o'clock on the following morning.

Maryland Census Appointments.

SALISBURY, MD., May 25, 1880.

Mr. Joseph A. Graham, census supervisor for the second census district of Maryland, has made his appointments of enumerators as given below. Of those selected (104 in number) 18 are democrats. From most of the counties no applications were received from democrats. These of that party on the list are in Cecil, Wicomico, Worcester and Dorchester counties, with one in Talbot. There may be others, since in some cases the supervisor is not acquainted with the political preferences of the appointees, the important consideration having been their competency.

Roberts' Embrocation.

Rheumatics or sufferers with sprains, cuts, bruises, old or fresh wounds, swellings, burns, &c., will find it to their advantage to use M. B. Roberts' celebrated embrocation, it has been in use over 40 years, and is the most reliable and efficacious remedy known. It does not blister the skin and can therefore be used with much better results than any liniment in the market. It is also good for horses where an outward application is desired, and should be found in every household, and well regulated stable. Price 25 cents per bottle—sold by your druggist.
