[From [illegible] CHAT FROM GOTHAM.

NEW YORK, Dec. 4, 1880.

Having [illegible] the great [illegible] find myself [illegible] York. The active, bustling, filthy, villainous New York—and proceed to bore the readers of THE STAR, as heretofore, with some facts and fancies concerning the metropolis. I thought [illegible] in a very [illegible] condition when I left here early in the fall, but I return to find them in a most horrible state. They look as though they hadn't been cleaned [illegible] by science. Mud, mud everywhere—the streets a mass of filth churned by the wagons into a perfect sea of black mud of about the consistency of cream, and the sidewalks so slippery [illegible] some points dangerous. And yet thousands of dollars are yearly appropriated to keep the city clean, which must be a nice little "plum" for somebody.

Politics appear to be at a discount just now. The people generally seem to think that Garfield scooped in the majority of votes, and the talk about counting New York for Hancock died a sudden but natural death long before the day appointed for the meeting of the electoral college. "Boss" Kelly, who did beyond all doubt sacrifice the national ticket in this city in order to retain his power, is just now between two fires. He is being abused with tremendous energy by both parties—by Democrats for his rascality in the elections, and by Republicans for his "crookedness" in the matter of fees when he was sheriff. There is a very strong feeling, particularly among the better classes, against his being again nominated for the Comptrollership of New York, but it is somewhat doubtful whether Mayor-elect Grace can very handily rid himself of this "Old Man of the Sea." There will, however, be a powerful pressure brought to bear on Mr. Grace to leave the "Boss" where he will not again have the opportunity to trade off a national election for a municipal one.

There seems to be an earnest and determined effort on the part of the better class of the Democracy of New York to thoroughly reorganize the party. They express themselves as heartily disgusted with the evil man power which has so long ruled—or rather misruled—them, and intend to take a new departure entirely. A meeting has been held under the auspices of the Irving Hall wing of the party, at which notes were compared and principles outlined on which to rebuild the Democracy of the city. The call for the meeting, endorsed as it was by the respectable element of the party, is generally conceded to be the death knell of "Boss" Kelly and his gang.

A petition—endorsed by a number of the most prominent Episcopal clergymen, to their shame be it said—is about to be presented to Governor Cornell for the pardon of the notorious Rev. (heaven save the mark!) Cowley, who about a year ago was sent to prison for *starving* and maltreating *children* who were committed to his care. He had been in charge of an institution, operated by the Episcopal Church, known as the "Shepherd's Fold," for the care of young children who had no one to protect them. Every effort was made to shield Cowley at his trial, but the evidence of his worse than inhuman treatment of the poor little unfortunates who were under his charge was proven beyond a doubt. What sacrilege to write "Rev." before the name of a black-hearted villain who maliciously ill treats those of whom the Great Master's sister "Suffer little children to come unto Me!" I cannot wonder that there are so many *heathen* in New York, with the examples of such "Christian gentlemen" before them.

We are going to have a World's Fair here in 1883, and from the interest manifested in the preliminary movements by our solid business men, there is every reason to believe it will excell anything of the kind ever known. Central Park appears to be the spot most favored for the location of the buildings, but the Park Commissioners will make a big fight to prevent the beauty of this magnificent garden being destroyed for such purpose.

After years of littigation in the New Jersey court, the Baltimore and Ohio Railroad has at length secured a direct line into this city. The Pennsylvania Railroad, deeming the B. & O. too formidable a competitor for its New York traffic, has, through its manipulations of the Jersey courts kept that road on the outside until now. It is a great victory for the B. & O., and railroad travelers are confidently expecting a lively railroad war between the two companies, which is about the only chance the traveling public have of getting ahead of the railroads.

Diphtheria has become epidemic to a considerable degree in parts of this city and in Brooklyn, and cases of small-pox are becoming more general than pleasing.

The church-goers on Thanksgiving Day wended their way to their turkey through a heavy snow-storm—about the first of the season. WOODLAWN.

Gen. Miles and the Chief Signal Office.

Gen. Miles, to whom the position of chief signal officer has been offered, has, it is learned to-day, requested that his name be withdrawn from all connection with the position. He is now a candidate for inspector general, in place of Gen. Marcy, to be retired. It is the desire of the President to appoint him to that place, and it looks as if he would get it. There is only one obstacle in the way. The act of December 12, 1878, provides that the senior inspector-general shall have the rank of a brigadier-general. Col. Sackett is the senior colonel in the department of the department, and will be the next inspector-general as soon as Gen. Marcy vacates the position. In accordance with this promotion it would seem that Col. Sackett should have the promotion. Gen. Sherman, it is known, has been his position. The difficulty, however, is to be settled by the President, and he is known to favor Gen. Miles. Gen. Hazen, who was the other prominent candidate for chief signal officer, would, on Gen. Miles's refusal of the office, seem to have a clear field. He probably has, but it is stated that he does not want the place so much now as he did, preferring his chances to be Quarter-Master-General Meig's successor when that officer shall be retired. If this is the case, Gen. Abbott, now on duty at Willet's Point (N. Y.) harbor, and who is the choice of the American Association for the Advancement of Science, takes the leading place looking towards the chieftship of the signal corps.—*Washington Star, Dec. 1.*

Green—[illegible]

Jonathan H. Green, once the most notorious and successful gambler in America, and afterward known as an exposer of gamblers' tricks, is now aged and poverty stricken in Philadelphia. From 1831 to 1842, he won money right and left, not only from amateurs, but heavily from professional players. On one occasion he took $36,000 from a party of card sharpers in three day. He was wonderfully skilful in handling cards, and invented several of the swindling devices still used by faro dealers. At length he renounced his evil ways, restored a great deal of money to men whom he had robbed, and spent the rest of his fortune in the advocacy of laws against gambling. The statutes on the subject in Pennsylvania, Maryland, and Ohio were largely passed through his exertions. In lectures and books he described the means by which he had won, but this after a while failed to yield him a living. His family are now supported by charity.

THE WHEAT CROP OF 1880.—The Department of Agriculture has completed its estimates for the wheat crop of 1880, the total number of bushels returned being 480,849,722 bushels against 448,755,118 bushels in 1879, an increase of 32,094,605 bushels. It is the experience of careful observers that the department, in order not to exceed actual amounts, casts it estimates, on the average, about five per cent. lower than the results generally obtained. Allowing for this differedd, the crop of 1880 will aggregate a little over 500,000,000 bushels, which is the figure at which the New York Commercial Bulletin puts it. The crop of Maryland is given at 7,485,800 bushels, an increase of 485,104 bushels, or nearly seven per cent. over that of 1879.

A Providence expressman failed to deliver a woman's trunk at the railroad station within the stipulated time. The delay caused her to miss a train, and she was very angry. When the [illegible] peared she [illegible] and struck straight out from the shoulder, knocking him down.

The Turkish position—cross legged.

Well drilled—the oil region.

THE N. Y. SUN FOR 1881.

Everybody reads The Sun. [illegible] of this newspaper [illegible] year to come everybody will [illegible]

I. All the world's news, so presented that the reader will get the greatest amount of information with the least unprofitable expenditure of time and eyesight. The SUN long ago discovered the golden mean between redundant fullness and unsatisfactory brevity.

II. Much of that sort of news which depends less upon its recognized importance than upon its interest to mankind. From morning to morning the SUN prints a continued story of the lives of men and women, and of their loves, hates, and troubles. This story is more varied and more interesting than any romance that was ever devised.

III. Good writing in every column, and freshness, originality, accuracy, and decorum in the treatment of every subject.

IV. Honest comment. The SUN's habit is to speak out fearlessly about men and things.

V. Equal candor in dealing with each political party, and equal readiness to commend what is praiseworthy or to rebuke what is blamable in Democrat or Republican.

VI. Absolute independence of partisan organizations, but unwavering loyalty to true democratic principles. The SUN believes that the Government which the Constitution gives us is a good one to keep. Its notion of duty is to resist to utmost the efforts of men in the Republican party to set up another form of government in place of that which exists. The year 1881 and the years immediately following will probably decide this supremely important contest. The SUN believes that the victory will be with the people as against the Kings for monopoly, the Kings for plunder, and the Kings for imperial power.

Our terms are as follows:

For the Daily SUN, a four-page sheet of twenty-eight columns, the price by mail, post paid, is 55 cents a month, or $6.50 a year; or, including the Sunday paper, the eight-page sheet of fifty-six columns, the price is 65 cents a month, or $7.70 a year, postage paid.

The Sunday edition of the SUN is also furnished separately at $1.20 a year, postage paid.

The price of the Weekly SUN, 8 pages, 56 columns, is $1 a year, postage paid. For clubs of ten sending $10 we will send an extra copy free. Address

The Taxes for 1880.

TAX-PAYERS are notified that the tax accounts for 1880 will be ready on

Tuesday, August 17th,

and on and after that date the collector will be prepared to receive the taxes, and will allow the following discounts on his State and county taxes, WHEN PAID IN CASH.

On August Payments .....5 per cent
On September Payments.....4 "
On October Payments.....3 "

Special Notice.

The attention of taxpayers is especially called to the provision of the new Code of Public General Laws, which says emphatically, that the collector shall collect and pay over the taxes within six months after receiving the books, and in the event of his failure to do so, he shall be liable to prosecution and severe punishment.

This means that the collector, having received the tax books on the 3d of August, 1880, is obliged by law, by his oath of office and by the bond he has given for the faithful performance of his duty according to law, "to collect and pay over the taxes within six months," that is by the third day of February, 1881.

The collector has no discretion in the matter. Having accepted the office, he is bound to execute its duties in accordance with law, and he will therefore be obliged to collect by the summary process of distress or execution of all taxes that are unpaid on the third day of February, 1881, and notice is hereby given that all tax bills for 1880 in arrears on the third day of February, 1881, will be collected at once by legal process.

Tax-payers should therefore make provision to comply with the requirements of law so as to pay their taxes for 1880 before February 3d, 1881, and thereby save costs, trouble, and much unpleasantness. GEO. E. HADDAWAY,
aug17tf Collector.

I have been using John Lucas & Co.'s Celebrated Enameled Ready-Mixed Paint, very extensively for the last two years and have tested it very thoroughly, and after using from eight hundred to one thousand gallons in 1879 alone, I have no hesitation in pronouncing it the best paint in the market. The following qualities make it superior to any I have ever used:

1st. It has no water in it, and can therefore be used in the *coldest* as well as the warmest weather.

2d. *Two* coats of this paint will give as much satisfaction as most other paints with three coats.

3d. One of its most desirable qualities is its *uniform thickness;* it is not so thin in warm weather as to be fit only for priming, nor so thick in cold weather as to not spread easily and evenly.

I have the exclusive sale of it in this county.

I have obtained the signatures of the following persons upon whose houses I have used this paint during the years 1877-78-79 (all of these houses were new and most of them finished with only two coats) and they recommend it as entirely satisfactory in *solidity, brightness and durability.*

Teeth Extracted Without Pain

The Gas Question is settled.

NOT DANGEROUS

The "New Process" (?) known to Dentist (who has been in practice over six months), as Dental Applicator, was introduced in this county by T. J. Smithers in 1878.

Articles invented by Traveling Dentists are not generally as good by other dentists, nor by themselves except on paper, the only place where some dentists operate skilfully.

Skilful dentists never have to travel, beg, steal, lie or resort to catch-penny advertising for practice.

T. J. Smithers is the only dentist in this or adjoining counties who has a license to use or make Rubber Plates, which is not only the best plate, but the only plate that ought to be used. Cost T. J. Smithers $300 for License.
