—The attractive display of bonnets, hats, flowers, ribbons, lace, and millinery generally at the fashion bazaar of Mrs. M. S. Norris continues to draw the ladies who visit our town for spring purchases.

—A car load of the Champion Automatic Cord Binders received last week by Shannahan & Wrightson. Farmers are especially invited to call and see how the "Champion Binder" of the season works.

—The county commissioners have bought one of Pennock's patent road scrapers, and engaged Mr. Joseph Kinnamon to operate it. It is doing nice work, and not long hence most of our public roads will be worked by these machines.

—In Indiana a man has to pay a license of $10 for the privilege of drinking whiskey, and the seller has also to pay a high license for the privilege of selling "the article." The Indiana license system beats local option all hollow.

—Miss Chesser wishes her customers and the public generally to know that she will cut and fit full suits at from 25 cents to 50 cents, when the goods are bought of her. Making to compare with the above prices, and perfect satisfaction guaranteed.

—Mrs. Commodore Febiger died at the residence of her husband, near Easton, on Friday last. The funeral took place on Sunday evening, after which the Commodore started from Easton Point in the Highland Light, to take the body to Ohio for interment.

—The Champion Binder is the coming machine in this class of harvesting machinery, and it will be our effort in this, as it has been in all our previous machines, to produce the very best ever offered to the public, and second to none. For sale by Shannahan & Wrightson.

—Mr. Gilmor Meredith, of Baltimore, one of the directors of the Maryland Steamboat Company, was in Easton last Thursday. He said he expected the Company's new steamer —the Ida—to be finished in time to commence running on the Choptank by the last of this month or the first of June.

—The county commissions are having their architect alter and cut down the plans for the new jail, so as to bring the cost within the $12,000 appropriation. This is a pity. Labor and materials have both advanced since they received their bids, and it is not much of a jail that can be built for $12,000.

—A promising young horse has been named Dr. Tanner in hopes that it will make him fast.[—Exchange. That might do for some horses; but we had rather take our chances on a package of M. B. Robert's Horse Powders, asthey guarantee a healthy and vigorous constitution, which is essential for any horse's speed and endurance.

—J. M. Leroque's Anti-Bilious Bitters, a purely vegetable, faultless family medicine for all diseases of the Liver and Stomach, cures sick and nervous headache, regulates the bowels, aids digestion, and is a certain cure and preventive of chills and fevers. Price 25 cents a paper, or $1 a bottle. W. E. Thornton, cor. Baltimore and Harrison streets. 2

—The Champion Automatic Binder has advanced to the highest point of perfection yet attained in binding machinery, overcoming many of the difficulties which have been so serious in efforts heretofore made, and reducing to practical use a machine for binding grain for the farmer. On exhibition at Shandahan & Wrightson's large warerooms.

—Gentlemen coming to Court next week are invited to call at Boston's shop, under the Brick Hotel, and get a nice shave or their hair cut, or their heads shampooed. The general verdict is, that Boston is the best shaver on the Eastern Shore, and his shop is clean and nicely kept. He guarantees that all who give him a call will go away pleased, and will tell their friends to go and do likewise.

—We understand that all the farmers' horses in this section that are given M. B. Robert's Horse Powders are able to plough from one-third to one-half more acres per day than those that are given any other, owing to their laxative, tonic, and purifying qualities. We advise all those that have not used them to do so. They are not adulterated with bran or cake meal and sold by the pound, but are put up in neat packages from pure drugs and sold for 25 cents by all druggists.

—The Henkle-Bannon-Hamilton reform meeting lately held at Annapolis, demanded that the public schools of the State shall be kept open for ten months in the year. In some counties, as in Talbot, it is done; in others, as in Caroline, it is not done. There will be no difficulty in keeping the schools open ten months in the year, if the State will furnish the money to pay the teachers, but we opine that Messrs. Henkle, Bannon, Hamilton & Co. will have some trouble to enforce their decree in the counties unwilling to bear the necessary taxation to do it.

—Tilghman & Clark, real estate agents have sold John C. Meed's farm on Dover road, 178 acres, for $7,500, to James Porteous, of Canada.

—Wm. E. Bartlett, Esq., will please accept our thanks for a sketch of the "Deep Neck Trotter." Here is your mule, Mr. Pippin, if you want a mule sign on your stable.

—On Thursday night last some miscreant threw two brickbats through the second story window of the back building of Capt. Edward Robert's dwelling, the bats lodging in the room occupied by Mrs. Gannon, Mrs. Robert's mother. Such conduct is enough to arouse the indignation of the whole town, and we hope the town authorities may discover the culprit and have him properly punished.

—Mrs. Amelia M. Hough, of Pennsylvania, has sued J. W. Bryant, Esq., of Denton, for $10,000 damages, for making a publication in the American Union respecting the title of her farm in Caroline county, intended to depreciate its value and injure its sale. Mr. Bryant denies the allegation. The suit was brought in the United States Court in Baltimore. The trial has been postponed to November.

—Mrs. E. V. Higgins had her spring opening on Tuesday and Thursday last, which proved a magnificent success. Her store was crowded with ladies from all parts of the county, and the display of bonnets, hats, ribbons, artificial flowers, laces, and trimmings surpassed anything in the millinery line ever seen in Easton. The ladies who have not yet selected their spring bonnets or hats should not fail to give her an early call.

She went to the play of "Olivette,"
And near an open window she set,
And by so doing she there met
The fate of all who rashly get
So imprudent.
She saw a notice in the weekly STAR,
"To cure a cold—Use Sines' Syrup of Tar."
So she went to her druggist, and then and there
Invested with a single quarter
In the article.
Now if you only have occasion to see,
How earnest and vehement she be
When telling how quickly and entirely
She was cured of the cold, caught on said settee
'Twill surprise you.

—The Gazette attributes the great sickness and mortality in Easton in 1842 to the meadow north of the town. It may be right in that matter, but we think there must have been some other cause for the sickness of that year, as it was general throughout the county, in fact, throughout the Shore. In Bayside district almost every family was visited with severe sickness—from Royal Oak to Tilghman's Island—and every doctor in the district, except Dr. Jno. Miller, was ill at the same time. The billions at that time was almost as bad as yellow fever. A great many died in the country as well as in Easton. The sickness in other parts of the county could not have been caused by the Easton meadow.—We have no objection to reditching the meadow, it ought to be ditched and kept open, but to do so will require special legislation, as some of the lot holders refused to have a ditch cut through their meadow property when the matter was undertaken in 1874. If those parties will consent now for the ditch to be cut straight through their meadow lots, the meadow can very easily be drained. Without they do that it is vain to throw away money on it. To make a complete job, the county road at the Court House bridge, on Bayside road, should be raised high enough to prevent the highest tide from overflowing the road. Then put a sluice gate in at the bridge, to keep the tide from overflowing the meadow. Then cut a ditch through the centre of the meadow to the Centreville road, and it will be a complete job. But it is impossible to accomplish any good while the lot holders along the meadow refuse to have anything but side ditches through their property.

Public Business.

COUNTY COMMISSIONERS.

The Board of Commissioners were in session on Tuesday. John W. Cheezum, treasurer of Dover bridge, made his report for the year ending May 1st, 1881; amount expended $4,270, leaving a balance in hand of $5.17, with an outstanding indebtedness of $1,131.50, to meet which there is still due by Caroline and Talbot counties, $200 each. To pay this indebtedness, and to complete rebuilding the bridge, the directors ask for a levy of $1.500 from each county.

The following examiners were appointed to lay down the new road near Hardcastle's mill, in Chapel district, applied for by Sam'l T. Love and others: C. M. Jump, Henry P. Hopkins, and Edward Y. Davis.

The bonds of Geo. E. Haddaway, collector of State and county taxes for 1881, were filed and approved.

James Dixon, Dr. I. L Adkins and R. B. Dixon were before the Board respecting the re-ditching the meadow northwest of Easton. The Board decided it had no power to grant the relief prayed for.

Amount of bills passed and paid, $642.91.

ORPHAN'S COURT.

The Court met on Tuesday. J. B. Bennett was appointed guardian to Jerome A. Cox, a minor. An inventory of the real estate of Thomas R. Hollyday was filed by the executor. John B. Fairbank, guardian to Lillie R. Morling, passed his first account. Jonathan H. Leonard, guardian of George Lindley Jenkins, presented his third account.

COUNTY SCHOOL COMMISSIONERS.

The Board of School Commissioners were in session on Tuesday, and was engaged examining teachers reports and accounts. A petition was presented, asking for a public school to be established at Easton Point.

TEACHERS ASSOCIATION.

The Teachers Association met in Easton on Saturday, James M. Arringdale, President, and R. T. Savage, Secretary. The usual routine business was transacted. There was an interesting discussion on the defects of teaching reading in the primary schools, and also on the expediency of teaching drawing in the public schools. Monday, May, 30th was fixed upon as the time for holding the Teachers' Institute, and Oxford as the place.

Meeting of the Baltimore Annual Conference of the African M. E. Church.

For sometime past the members of the African Methodist Episcopal Church in Easton have been actively engaged, making arrangements for the entertainment of the members of the Baltimore Annual Conference, which was to meet at Bethel Church in Easton on the 7th of May. The church was put in nice order, a new pavement laid in front of It, and every other necessary arrangement made for the reception of the coming brethren. The pastor of Bethel church is the Rev. Daniel Draper, a minister devoted to the spiritual welfare of his flock; and we doubt if there is a more exemplary congregation of colored christians in the country, than the members of the Bethel charge.

The Conference is composed of between fifty and sixty ministers, who are as good looking and as intelligent body of colored men as can be found anywhere. The conference met at 9 o'clock on Saturday morning at Bethel Church, Bishop D. A. Payne presiding. Bishop Wayman, who is a native of Caroline country, and a great favorite among both white and colored people of Easton, was present, and made a handsome address, introducing to the Conference Bishop Payne, who has been West, and has not visited the Baltimore Conference during the past twelve years. Bishop Payne responded briefly, giving the brotherhood some excellent advice, well calculated to stimulate their zeal for the cause of the Saviour. Bishop Wayman then took leave of the Conference, official duties calling him to Wilmington, Delaware.

The conference then proceeded to organize by electing the following officers:

Secretary—Rev. John W. Beckett, of Baltimore.

Assistant Secretary—Rev. William H. Brown, of Cecilton.

Statistical Secretary—Rev. John H. Collett.

Bishop Payne then appointed the following

STANDING COMMITTEES.

On Admission to Third and Fourth Years Studies—Revs. J. H. A. Johnson; J. A. Handy.

Sunday Schools—Revs. Cato Ward, R. Miles, Jacob Nicholson.

Public Worship—Revs. Daniel Draper, Wm. M. Johnson.

Circuits, Stations & Missions—Revs. J. A. Handy, J. H. A. Johnson, J. J. Herbert.

On Missions—D. P. Seaton, J. P. Cox, Joseph Nichols, J. M. Cargill, R. Miles, J. H. Cobbett, D. Draper.

The following preachers were elected to Deacon's Orders: Rev. John H. Welch, Wylie G. Alexander, and George W. Nicholson.

Bishop Payne preached to a large audience at Music Hall on Sunday morning. The conference will be in session all of this week, and next Sunday the Bishop and a number of the preachers will go to Cambridge to dedicate a church.

Personal.

Among the celebrities in Easton on Wednesday was Hon. Murray Vandiver, member of the legislature from Harford county; Professor M. A. Newell of the State Normal School, and Dr. J. H. Billingslea, of Westminster.

A Singular Freak of Nature.

A day or two ago one of Dr. J. A. Johnson's hens layed a double egg, or rather, two eggs at a pop, connected together by a ligament about an inch long. The eggs were both soft shell when layed. They are quite a curiosity.

Butcher Wanted.

A thoroughly competent and reliable man wanted to act as Butcher, for the Easton market. None but such as can furnish the best references need apply. A good situation for the right man. Apply to

CALEB GRIFFIN,
10-3t Easton, Md.

Catholic Mission.

The mission given by Fathers William and Raphael, of the Passionist Order, from Pittsburg, opened at the Catholic Church on Sunday last. Services and preaching will be held daily—in the morning at 9 o'clock, and every evening during this week, at 7½ o'clock. The mission will last one week, and will probably close next Sunday evening.

Farm for Sale.

Attention is directed to the advertisement in to-day's STAR, of the sale of the Tull farm in Bambury, which will be made at auction, by Dr. Jas. S. Chaplain, assignee of mortgagee, at Trappe, on the 4th of June. The farm contains 85 acres, has a fine apple and peach orchard, and one of the best fisheries on it in the county.

Editors on the Wing.

The following members of the Maryland country press were in Easton on Wednesday, to attend the dedication ceremonies of the Masonic Temple: Wm. H. Ruby, Esq., of the Maryland Journal, Towsontown; Charles H. Vanderford, Esq., of the Democratic Advocate, Westminster; Joseph M Street, of the Harford Democrat, Bel Air; W. S. McCombs, of the Havre Republican, Havre de Grace, and George W. Melvin, of the Journal, Denton.

The Way the Young Poultry Goes.

On Sunday week Mr. Owen A. Boon witnessed a hen-hawk make a dash at a flock of young ducks, belonging to a colored woman living on Mr. H. K. Hayes's farm in Chapel district, and caught in his claws and carried off four of the ducks. The hawk stopped on the ground not far off and commenced to eat one of them, when he was frightened off by some boys, leaving three of the ducks behind, but he took care to carry away the one he was eating.

A New Temperance Organization.

A new temperance organization has been formed in town, called "The Easton Temperance Union," the object of which is to aid in enforcing the local option law. The officers are as follows: President, John Mason; Vice Presidents, Walter H. Thompson and Joseph S. Robson; Treasurer, C. H. Millard; Secretary, J. C. Mullikin. Those who have hitherto violated the local option law had better hereafter be on their p's and q's, or the "Union" will be after them with a sharp stick.

Cut This Out.

It is presumed that barely one-fourth of purchasers of clothing are fair judges of their purchases, and it is therefore important to know where you can buy with confidence, that you will get your money's worth. C. N. Oehm & Son, 230 W. Pratt st., through to 55 Hanover street, have been in the business in Baltimore for over a quarter of a century; they manufacture every garment sold by them.—Their experience enables them to give satisfaction in quality, prices, material and workmanship, and no one in want of clothing should fail to call upon them. It will pay you.

Result of the Town Election.

At the town election on Monday week, 477 votes were cast; 258 for Mr. A. A. Pascault, and 219 for Mr. Wm. T. H. Lee; Pascault's majority 39. Immediately after the result was announced, Mr. Pascault went to the Commissioners' office and swore in, when the new Board was at once organized, by electing Capt. C. R. Leonard, the oldest member, President of the Board, and re-electing Chas. H. Gibson, Esq., Clerk. Mr. Gibson has continuously held the position for about ten years, ever since the death of the late P. T. Kennard, and his re-election is a merited compliment to a faithful officer.

The Baltimore Gazette.

In the first issue in May, The Baltimore Gazette contained Mr. George Colton's official announcement that he had assumed control of the paper as Managing Editor, the Gazette at the same time appearing in a handsome dress of new type. All departments of the paper have since shown that a happy revival is going on in the Gazette office. The paper is greatly improved in appearance; it is edited with much more ability than heretofore; it is in all respects more readable; its local department has been enlarged and improved, and its advertising columns indicate that its business is also improving. It is Mr. Colton's ambition to make the Gazette the ablest Democratic paper in the South. He has the means to do it, and there is no reason why he should not succeed. Success to him.

License vs. Local Option.

We print this morning in the STAR a pretty full outline of the new license law for the State of Delaware, passed at Dover, at the late session of the legislature of that State.—It is what may be called a very stringent law. As we have the local option law in force on this side of the State line, and Delawarians have a stringent license law on the other side, we shall have a good opportunity to observe which system works the best for the community. We heard it jocularly remarked the other day, that before our local option law went into force, there was hardly business enough on our rivers to keep two steamboats running; now there are four, and all are doing a good business, especially in freighting jugs and demijohns for those who must have whiskey, the local option law to the contrary notwithstanding. Of course it is an exaggeration to say the demijohn business supports a steamboat line, but it must be admitted that it is a large and growing business, and is a result of our non-license system.

Distressing Accident—A Man's Arm Ground Off in The Paper Mill.

About 9 o'clock on Saturday morning a white man named John Elms, who works in the paper mill, got his right arm cut off above the elbow by the cutting machine. The machine makes 900 revolutions a minute, and his duties were to put the straw through it, to be ground before it went to the beaters. It is said that he fainted and fell forward into the mill; his hand was caught in the machine and his arm ground off, the hand and arm passing through the machine and were ground into powder with the straw pulp. After the accident was discovered, the other hands at the mill put him in a cart and had him taken to his home on South Street. Doctors Bateman, Trippe, Anderson, Willson and Johnson were all called in to treat the case. It was determined that amputation was necessay. Dr. Anderson, assisted by the other physicians, amputated the arm just below the shoulder. Yesterday evening Mr. Elms was doing as well as could be expected, but his case is considered very critical. He is an industrious and poor laboring man, with a house full of children, and we commend his family to the charity of our citizens.

To Farmers and Breeders of Talbot Co.
Being desirous to secure to the county the services of a horse of superior stock, I have induced a gentleman of Philadelphia to give me control for the season of the splendid stallion
HANNIBAL MEMBRINO.
He is a fine large horse, full sixteen hands, of great power and speed, and trotted a mile when 4 years old in 2:22, but has not been since trained.
He was foaled in 1873 on the stock farm of Mr. Richard Penistan, near Lexington, Kentucky, and is by the celebrated horse "Woodford Membrino" with a record of 2:21¼, who was the best son of "Membrino Chief," sire of "Lady Thorne" with a record of 2:18¾. Woodford Membrino has six colts with records of 2:30 and better, and also sired "Mallce" and "Manetta" each with a trial of 2:19¾.
HANNIBAL MEMBRINO is out of Lady McKinney, the dam of "Nil Desperandum", who has a record of 2:24½, and is entered in the great free for all stallion race—purse, $10,000—to be trotted at Beacon Park, Boston, Mass. Hannibal is half brother to "Princeps", sire of "Trinket" whose record is 2:19¾ as a four year old.—Also half brother to "Membrino Russell" (owned by Mr. Dana of the New York Sun), and stands at $100 the season though but three years old.
In order that the horse may be well introduced, and that all who desire may have an opportunity to raise a $1,000 colt, I have determined to put his rates for this season at very low figures, and will stand him at Easton, St. Michaels and Island Creek Neck.
TERMS.
For season, in advance, $15, or $20 at end of season. To insure, $30. Groom fee, 50 cents.—Owners parting with mares held responsible for insurance.
