THE EASTON STAR

TUESDAY, APRIL 11, 1882.

Gov. HAMILTON has gone to Hagerstown.

During the year which ended with May, last, the five mines of the United States, produced gold and silver of the total assay value of $74,780,000. The gold was worth $33,300,000, the silver $41,170,957.

An attempt was made in the Senate on Wednesday to pass the anti-Chinese bill over the President's veto, but it failed. The vote was 29 to 21, not two thirds, as required by the constitution. Another bill pretty much to the same effect has been introduced in the Senate.

Ayer's Sarsaparilla is the proper remedy to take in the spring of the year to purify the blood, invigorate the system, excite the liver to action, and restore the health, tone and vigor of the whole physical mechanism, which often becomes impaired during the winter, by lack of open air exercise, and the want of sufficient care in the matter of diet.

All parties in the Pacific States are denouncing the President for vetoing the Chinese bill. Doubtless he expected this, as he was appealed to on party grounds to sign the bill; but he preferred to do right and stand by his record, and wait for public opinion to come right in the end. It would be a national disgrace for the Federal administration to pander to the selfishness of the San Francisco sandlotters.

Miss SALOME A. HOOVER, aged 22 years, daughter of Mr. Daniel Hoover, near Middletown, Delaware, was thrown from a buggy and instantly killed, by a runaway horse, last Wednesday. Her niece, Maude Delanger, aged 8 years, was also thrown out of the buggy at the same time and nearly killed. The buggy upset, and the girls were dragged some distance by the frightened horse. The carriage was smashed to atoms.

The country on the lower Mississippi is still overflowed, the water being higher last week at some points than ever known before. In some places, the country for thirty miles from the river is overflowed, the water being five and six feet deep in places. The destruction of property has been immense. Where the houses have not floated away, people are living in the second stories, going to them in boats, and tying the boats to the banisters of the stairs. We should not like to live in such a country.

We publish to-day the majority report of the Committee on Ways and Means of the House of Delegates respecting the State sinking fund. It will be seen that after a thorough examination of the questions raised by Gov. Hamilton, the committee completely exonerates our treasury officers from all blame in the premises. The legislature destroyed the old sinking fund, and failed to authorize the necessary tax to create another. What the Treasury failed to get, the people have saved in not being taxed. We intended also to publish the minority report, but it has been crowded out for want of room. It is in substance pretty much the same, except that it is stronger in its criticisms of past legislatures, for their lavish expenditures and their failure to order a levy for the creation of a sinking fund. But as Maryland has never been in default for interest due on her debt since the sinking fund was cancelled, and is not likely to be, we cannot see that any harm to anybody can result from the legislature making the State taxes as light as possible.

THE JUDICIARY.

Judges Robinson, Wickes and Stump.

So far as we are advised, Mr. Cruikshank of Cecil, is the only gentleman in this judicial circuit who aspires to supersede either Judge Robinson, Judge Wickes, or Judge Stump, at the election to take place this fall. He is announced as a candidate for the bench in Judge Stump's place.

To aspire to judicial honors is very natural in those members of the bar who have attained the necessary age and acquirements for the position. But the selection of a court is a very important matter to the public, and the more especially, as the judicial term runs for the long period of fifteen years. If our court was an indifferent one, the present would be a good time to try and get a good one; but as it is universally conceded to be one of the very best in the State, we cannot see, and we are sure the public does not see, any need of changing our judges for untried ones; and if we cannot better the court by a change, where is the use or sense in turning down the present judges and electing others in their stead? Our judges are all well known to be first-class lawyers, and thoroughly posted in the decisions of the courts; they have proved themselves to be industrious and punctual in the discharge of their duties; and in every respect fair and impartial in their decisions. What more can be asked or expected of a judge? And as we have in the present court these very important qualities, why should we run the risk of losing them, by turning it down and electing another? The judicial office is not one to be tossed about for the contention of partisan or factional favorites; it is not one that every lawyer can properly fill. It not only requires extra legal knowledge, but special personal characteristics, not found in every member of the bar. This district was most fortunate in 1867 in chosing a court, and our people will act wisely in 1882, in reelecting the judges for another term of fifteen years. All three of them are now in the prime of manhood; they are in robust health; and they now possess an experience in judicial affairs that can only be acquired by long practice on the bench. In the election of a court individual ambition must be subordinated to the public interests, and these require the re-election of Judges Robinson, Wickes and Stump.

In giving expression to these sentiments, we believe we express the opinions and desires of a very large majority of the party, if not of the entire democracy of Talbot county. We have not yet met with a single Democrat in this county who is opposed to the re-election of our judges, or either of them. Neither do we know of any Republicans who desire a change on personal grounds, and not a few of them are known to be in favor of the re-election of the present judges. In Queen Anne's, Kent and in Caroline, we understand the Democrats, and many of the Republicans, are all for their re-election. There is not the least doubt that Cecil will go for the nomination of the whole bench, notwithstanding Mr. Cruikshank's candidacy against Judge Stump. But whatever may be the result in Cecil, all three of the judges will be nominated and re-elected. All five of the counties now composing the circuit have an interest in Judge Stump, and they will not fail to take care of him. This is the way the people think and talk in Talbot.

Diphtheria

attacks all classes and all ages and at all seasons of the year. As the seed of this terrible disease is in the throat it is directly reached by Darby's Prophylactic Fluid used as a gargle or by swabbing out the mouth with a cloth saturated with the Fluid. Articles used about the sick should be rinsed in water containing a small quantity of the Fluid. It will absolutely destroy the germs of contagious.

President Arthur sent to the Senate on Tuesday his anti-hoodlum message, vetoing the Chinese bill lately passed by Congress. He vetoed it because it proposed to violate our treaty engagements with the Emperor of China, and promised to be damaging to our commerce with the Celestial Empire. The message may not suit the sand-lot politicians of San Francisco, but the veto is as sensible a thing as the President ever did.

Jesse James, the notorious train and bank robber, highwayman and murderer was deliberately murdered at St. Joseph, Missouri, by the Ford brothers, one day last week. It is said the murder was committed by the connivance of Governor Crittenden. This is bad, if true. There is no doubt that James deserved hanging; but his desperate and wicked deeds did not justify the Governor of Missouri and his accomplices to murder him in cold blood. It is feared that Frank James, the brother of the dead outlaw, may avenge his brother's death by murdering those who participated in the slaying of Jesse.

The Easton dog law, published on the first page of the *Ledger* to-day does not seem to be much of a dog law. The objection to it is that the tax provided for seems to be not an annual tax, but a tax which once paid will run for the lifetime of the owner or keeper of the dog.—*Easton Ledger.*

If the *Ledger* man has a dog we hope he will try on his theory in the courts, by refusing to pay the second years' dog tax. So far as respects the right of the commissioners to tax dogs, the law has not been changed. The amount of the tax has been changed, and the powers of the commissioners have been enlarged, so as to authorize the killing of the dog where the owner refuses to pay the tax. That is all. As for the *Ledger's* "annual tax," there is no such thing known to the corporation laws of Easton. The law provides for the levying of a tax, not to exceed 37 cents on the $100, whenever the commissioners, in their judgment, may deem it necessary. It may be levied annually, or once in two years, or twice a year, just as the financial needs of the town may require; and the specific dog tax can be levied and collected as often as any other tax. This is our understanding of the law.

Would it not be advisable for the Democratic State committee to meet at an early date, and call the congressional and judicial conventions? As soon as the hot summer weather sets in, many people now start for the north, the mountains, or the seashore, and thus may find it inconvenient to attend the primary meetings, if they are put off till late in summer. And yet it is important that they should participate in the primaries, as most of them are both wealthy and influential. Another reason why these conventions should be called early this year, the new registration takes place before the election, and it is important that the candidates be placed early in the field, so that they and their friends may see that the full democratic vote is registered. If the nominations are put off till late in the season, there may be apathy in the registration, which may prove fatal to the democratic party at the election. None are likely to take as much interest in getting the vote registered as those personally interested in the election. We hope the conventions will be called early in the season, so that the democratic party may be organized at once for the coming campaign.

A Knife in a Preacher's Quarrel.

St. Louis, April 4.—The Conference of this district of the Methodist Episcopal Church adjourned last night, after a session of nearly a week, Bishop Warren presiding. The last business before the adjournment was the reading of the assignments of ministers for the coming year. The church was thronged, and the announcements for the city pulpits were awaited with especial interest. Not a little surprise was manifested when it became known that the Rev Dr. W. Hughey who has hitherto had charge of Trinity, one of the largest Methodist churches in the city, had been transferred to the Carondelet church, a charge not nearly so important and yielding only half the salary of Trinity. As soon as the Conference was declared adjourned, Dr. Hughey accompanied by his sons, met Presiding Elder Hagerty and the Rev B. St. James Fry in the aisle. In an excited manner, Dr. Hughey charged the other two preachers with undermining his character and improperly influencing the Bishop to have him assigned to Carondelet. "This is a nice way," he exclaimed, "to serve a minister with a ministerial record of thirty-three years as good as any in the conference." Dr. Hughey's three sons were present, and one of them, George, 14 years of age, denounced Dr. Fry in vehement and profane language. Dr. Fry replied to the boy: "I suppose you are a son of Hughey, as you act and talk like that breed." The boy immediately drew a clasp knife, and was in the act of opening it, when his sister detected the movement; other members of the family seized him and pulled him away from Dr. Fry. Dr. Hughey realizing how his son's rashness had done his own cause harm said to him, "You villain, what did you do that for?" The lad replied, "Why, father, I want to cut Fry's liver out, and I'll do it yet." All of this took place in the presence of the congregation, causing great confusion. Some of the ladies screamed and fainted.

The action of Carter's Little Liver Pills is pleasant, mild and natural. They gently stimulate the liver, and regulate the bowels, but do not purge. They are sure to please.

The Mississippi Floods.

Morgan City, La., April 6.—The bakers have been compelled to stop baking, the water having reached the last oven. The Market House has also been closed. One stall has been opened in the railway depot.

Big Results From Little Causes.

"Do you know?" remarked a man to his friends on Chestnut Street, a day or two since, "I believe both Conkling and Platt had a bad case of skin disease when they resigned!" "What makes you think so?" inquired the listener in astonishment. "Well, you see they acted in such an *eruptive* manner—so *rash*—ly as it were. Save? "Oh! yes, I save. "they were *boiling* over and merely resigned to *humor* themselves, I suppose." If such be the case, the National difficulty might have been averted by applying Swayne's Ointment for skin diseases.

Bismarck's Health.

Berlin, April 6.—Reports concerning the state of Prince Bismarck's health are unfavorable His physicians recommend a long rest.

Many Miserable People drag themselves about with failing strength, feeling that they are sinking into their graves when Parker's Ginger Tonic would begin with the first dose to bring vitality and strength back to them.—gus.
