THE EASTON STAR

TUESDAY, JTNE 6, 1882.

T. Harrison Smith.

L. JEFF. MILBOURNE & CO., Newspaper Advertising Agents, 131 West Baltimore street, Baltimore, Md., are authorized to contract for advertisements for THE STAR, at our best rates.

HON. JOHN E. MASSEY is announced to address the people of Rockingham county, Va., at Harrisonburg, Monday, June 19. As this is one of the readjuster strongholds, one of the leading speakers from that party will doubtless be present to engage in the discussion.

We can vouch for it that Hall's Hair Renewer restores gray hair to its youthful color, prevents baldness, makes the hair soft and is altogether the best known remedy for all hair and scalp diseases. We therefore take great pleasure in recommending Hall's Hair Renewer to our readers.

UNITED STATES SENATOR MORGAN, of Alabama, has been unanimously endorsed for re-election by the democrats of Dallas county, in which he resides. They claim that his unanimous re-election would redound to the glory of Alabama and be a proper indorsement of a tried, true and able public servant.

MAYOR WHYTE of Baltimore, says there is more unity in the democratic ranks in that city now than for five years past, and that by the time for holding primaries arrives there will be no divisions. The dissatisfaction for several years past, he says, was shown in the small majorities received by democratic nominees, whereas he honestly believes Baltimore is a democratic city by a majority of ten thousand.—*Md. Republican.*

Death of General Garribaldi.

General Guiseppe Garribaldi, the Italian patriot and liberator of Sicily and Naples, is dead. He was a natural born fighter, and his life was full of heroic adventure. He died on the 2nd of June, at his home at Caprera, aged 75 years. He was one of the earliest advocates of Italian unity, and ceased not his warfare on despotism until Italy was free and united under the rule of the King of Sardinia.

Distress After Eating,

the result of indigestion, will no longer be experienced if a half tablespoonful of Simmons Liver Regulator is taken after each meal. It is such a good digester, and so mild and pleasant in its effects, that it is used by many after a hearty meal to ensure good digestion. The Regulator does not nauseate or irritate the stomach, is purely vegetable, and, can be taken in any condition of the system, and unlike any other known medicine, when its use is discontinued, the system is not left constipated.

The Western Labor Strikes.

There are extensive labor strikes in the iron works at Cumberland, Pittsburg, Cleveland, Chicago, Milwaukee, Detroit and other manufacturing towns West. There is a heavy immigration at this time, and the owners of the mills are replacing their old hands with imported, non-union workmen. If this revolution goes much further, it will be fatal to thousands of American workmen, and in the end, European immigration will be found worse for American laborers in the East than Chinese immigration has proved in the West. These labor strikes are very demoralizing to the business of the country.

The Canal Presidency.

It seems to be conceded that the resignation of Senator Gorman, as President of the Chesapeake and Ohio Canal Company, will be accepted at the next meeting of the directors, which will be held in this city sometimes next month. Who is to be his successor is, however, a mooted question. Mr. Gambrill, of Frederick county, who has been looked upon for some time as a candidate, denies the same, and says in a card, published in the Frederick *Union* of a recent date, that he would not accept the position were it tendered him. The names of Messrs. C. B. Roberts, of Carroll county; Daniel Ffields, of Caroline county; W. H. Bians, of Baltimore city, and James Henderson, of Montgomery county, are also mentioned in connection with the position.—*Md. Republican.*

THERE appears to be hope for the poor of Ireland in the passage of the new relief bill introduced into the English Parliament by Premier Gladstone. There are 200,000 farmers in Ireland, whose annual rent each is not over $150, who are in arrears for several years' rent, by reason of which default they cannot claim the benefits of the Land act of 1881. The new bill is for the relief of these men; and it proposes to wipe out all arrears of rent except two years; the farmers to pay one year, and the English treasury to pay the other, to the landlords, and for all then to begin afresh. If the bill passes, it will be an invaluable boon to the poor, small Irish farmers. It will benefit both landlord and tenants, and at once stop eviction for arrears of rent. There is a prospect that the new coercion bill will be materially modified, as the excitement that followed the assassination of Lord Cavendish is abating, and the more advanced section of the Liberal party is opposed to the extreme features of the bill. Mr. Parnell has lately made a very moderate and sensible speech in Parliament, which has in a great measure counteracted the bad effects of the ill advised and inflammatory speech of Mr. Dillon. If Mr. Gladstone and Mr. Parnell can come to a full understanding, so as to operate together for the relief and pacification of Ireland, that unfortunate country may yet be saved without bloodshed. The Land act of 1881 will relieve a great number of the larger farmers of excessive rents; it will assure to landlords the prompt payment of the rent due under the new valuation; and the new bill will completely emancipate the small farmers from their present embarrassment When both landlords and tenants are relieved, there will be little of the old trouble left to disturb the public peace, and other measures of amelioration can be inaugurated. The outlook for Ireland has never been so hopeful as at present, if the Irish party in Parliament does not spoil all by aiding in overthrowing the Gladstone administration.

Malaria, Chills and Fever, and Bilious attacks positively cured with Emory's Standard Cure Pills—an infallible remedy: never fail to cure the most obstinate, long-standing cases where Quinine and all other remedies had failed. They are prepared expressly for malarious sections, in double boxes, two kinds of Pills, containing a strong cathartic and a chill breaker, respectively; contain no Quinine or Mercury, causing no griping or purging; they are mild and efficient, certain in their action and harmless in all cases; they effectually cleanse the system, and give new life and tone to the body. As a household remedy they are unequaled. For Liver Complaint their equal is not known; one box will have a wonderful effect on the worst case. They are used and prescribed by Physicians, and sold by Druggists everywhere, or sent by mail, 25 and 50 cent boxes. Emory's Little Cathartic Pills, best ever made, only 15 Cents. Standard Cure Co., 114 Nassau Street, New York. 4:18,2m

THE Republicans in the House of Representatives have broken the dead lock, by overthrowing the rules and the constitution, trampling in the dust the rights of the minority, and seating the carpet-bagger Mackey, and several other Southern claimants to seats. The proceedings are denounced by the press, and by the Democrats in Congress, as a high-handed outrage. The truth is, Robeson could not rely on enough Republicans in the House to carry through his schemes for plundering the Treasury, but by unseating half a dozen Democrats and putting in their place that number of his willing tools, he expects to consummate his robberies. So look out now for some heavy jobs and fearful expenditures.

St. Joseph Volksblatt, Aug. 22, 1881.
What a German Newspaper Says

We Germans are in general not inclined to believe at once in great announcements and puffs; we are rather suspicious, and often with perfect right, of exaggerations and humbugs. Our motto is, "What the eye sees the heart believes," and we therefore desire to see and examine ourselves before we speak about things and praise them. This was our idea when we heard and read so much about Dr. S. A. Richmond's justly celebrated World's Epileptic Institute, and we therefore sent a reporter to the building. We are now able to give the best information on the subject, based on a personal review and examination of the premises.

Our reporter found Dr. Richmond in his office. The doctor kindly received him, and not only answered all his questions, but showed and explained everything about the place to him. His office is on the first floor of the building, and its walls are covered with thousands of photographs of gentlemen and ladies restored to health by the use of Samaritan Nervine, among whom our reporter recognized many of his own countrymen, and its glass cases contain innumerable certificate of cures and letters in praise of this world-famous remedy.

About ten years ago Dr. Richmond came to St. Joseph. He was then a poor young man, with but little money, and no friends to assist him. He rented a small office on Francis street, and commenced the struggle for success single-handed and alone. He has achieved a grand triumph in the face of stubborn opposition on every hand, and is to day one of the wealthiest men in our midst. This fact alone is amply sufficient to show the merits of his invaluable preparation, even though there were no other sources from which to procure valid and reliable testimony.

But besides the money which this great medicine has been the means of bringing to the inventor, the doctor receives daily the blessings of thousands of patients restored to health and happiness through his instrumentality. These letters are open for inspection at his office, and it requires two clerks to attend to this branch of the business.

Dr. Richmond is a living example to be imitated by all young men who have a disposition to reach eminence in the world by diligence in the use of their own exertions, and besides the enjoyment of the prosperity which surrounds him, he has the satisfaction to be regarded a human benefactor.

Labor Troubles.

YOUNGSTOWN, O., May 31.—The millowners of the Mahoning Valley to day refused to sign a scale of wages presented to them, so that work in the mills stopped. This strike throws 10,000 men out of employment in the mills and mines of the valley.

WHEELING, W. Va., May 31.—With the exception of the Whittaker Mills all the iron and nail mills of this city were closed this evening for an indefinite time in consequence of the proprietors' refusal to sign a new scale of wages. As 5,000 men are thrown out of employment and both sides are obstinate the outlook is gloomy.

PITTSBURG, May 31.—To-morrow being the day set by the Amalgamated Association of Iron and Steel Workers for the great strikes, thirty-six mills in this vicinity will put out their fires and 18,500 men will be idle. The fact that five firms signed the scale this afternoon is heralded by the strikers as an indication that the backbone of the employers' combination is broken, but this is denied by the manufacturers, who say that the signing firms are dealers in specialties or exclusively in steel, and their action will not interfere with the plans of the combination.

Maine Greenback Convention.

BANGOR, June 1.—The Fusion Greenback State Convention to-day nominated Gov. Plaisted for re-election. The committee appointed for that purpose reported a plan for re-districting the State, which was adopted. The platform favors the unrestricted coinage of gold and silver, and declares that the national bank currency should give place to greenback currency. The principles of the party are: Equal rights, no monopolies, no banks of issue, a safe currency, preservation of the public debt, reform in the civil service and in the tariff system, no imprisonment for debt, free education. It was also resolved "That we unite against the Republican party." Gov. Plaisted accepted the nomination in a brief address.

15,000 Marching Children.

About 15,000 Sunday School children paraded in the Eastern District of Brooklyn Tuesday afternoon. The schools were marshaled in Bedford avenue. The children were dressed in every color known to fashion. There were all kinds of standards and banners. The parade was reviewed by Mayor Low. The line of march was along Bedford to Flushing avenue, and return. The houses and churches on the route were covered with flags and streamers. An interesting feature of the walk were the colored children of Zion Church. Each boy carried a small flag, and the girls carried bouquets. As they passed the Mayor the boys doffed their hats, waved their flags, and hurrahed, and the girls saluted.

An Interesting Fact.

In France, all patent medicines must be endorsed by an official board of physicians before they can be sold. In lieu of such a law in America, the people have resolved themselves into a National committee which has endorsed Swayne's Ointment for allaying the itching accompanying the Piles, as the only reliable remeny in the market. Its a poor rule that won't work both ways.

Choptank Lodge No. 12, A. O. U. W. of Cambridge will make an excursion to Annapolis, June 9th.

NOBODY ENJOYS the nicest surroundings if in bad health. There are miserable people about to day to whom a bottle of Parker's Ginger Tonic would bring more solid comfort than all the medicine they have ever tried.—*News.*

Rev Mr. McClintock, of New Jersey, has accepted the call to the P. E. church at Lewes, Del.

Do not suffer from Sick Headache a moment longer. It is not necessary. Carter's Little Liver Pills will cure you. Dose, one little pill. All druggists sell them.

The Peninsula railroad of Virginia and of Maryland have been consolidated.

Wingate Morris, an old and wellknown citizen of Georgetown, died last week.

PROCLAMATION.

STATE OF MARYLAND,
EXECUTIVE DEPARTMENT,
ANNAPOLIS, April 28, 1882.

Whereas by the General Assembly at the session of 1880, Chapter 417, an Act was passed entitled "An Act to amend section five of article four of the Constitution of the State of Maryland, relating to the election of the Judges of the several Courts of the State, as therein provided.

And whereas by article 14, section 1, of the Constitution, the Governor is required by publication to make known to the people of the State the proposed amendment to be voted on, which publication was duly made as required.

And whereas at the election held on the eighth day of November, 1881, the people of this State did adopt the proposed amendment of the Constitution, as appears by the election returns on file in the State Department, 84,790 having been cast for the adoption of the proposed amendment to the Constitution, and 2,239 votes cast against the said amendment.

And whereas the said article 14, section 1, of the Constitution requires that the said amendment or amendments having received said majority of votes to have been adopted by the people as a part of said Constitution of Maryland.

Now, therefore I, WILLIAM T. HAMILTON, Governor of the State of Maryland, do by this my proclamation make known and declare that the amendment of the Constitution proposed by the Act of the General Assembly at the session of 1880, chapter 417, has been adopted by the people of Maryland as a part of the Constitution of the State.

In testimony whereof I have hereunto set my hand and affixed the Great Seal of the State of Maryland, at the City of Annapolis, on this 28th day of April, in the year of our Lord one thousand eight hundred and eighty-two.

WILLIAM T. HAMILTON.
