THE EASTON STAR

TUESDAY, AUGUST 1, 1882.

EDWARD LOWNES, Editor.

L. DEFF, MILBOURNE & CO., Newspaper Advertising Agents, No. 711 Baltimore street, Baltimore, Md., are authorized to contract for advertisements for THE STAR at our best rates.

FRANCIS A. PREVOST, clerk of the Superior Court of Baltimore city, is dead.

EGYPT is passing through into Egypt, and pushing Abdel Bey back towards Cairo. There has been some light skirmishing but no serious fighting.

THE Senate has passed the revenue reduction bill, so there will be no abatement in the taxes this session. The people will now have to pass upon those who have failed of their duty on this most important bill.

WHEN persons in Baltimore die of small-pox, their bodies are taken to the churches, and a regular funeral is held before burying. Is there any wonder that the disease is spreading in the city? It seems there is no law in Baltimore to prevent such outrages.

No hair preparation in the world has attained such a world wide reputation as Ayer's Hair Vigor. This is due to its healthy action on the hair and scalp, and its remarkable power of restoring gray hair to its original color and imparting a glossy and freshness which makes it so desirable to all classes and conditions of people.

A WRITER in the New York *World*, who professes to be posted in the affairs of Guatemala, represents President Barrios, now on a visit to this country, as a most brutal and petty tyrant. From the account given of him in the *World* he is above on a par with the miserable hounds that ruled in Washington and Baltimore during our late war. He ought to find plenty of congenial spirits in Washington.

THE Republican State Convention of Delaware met at Dover last Thursday, and nominated Albert Curry, of Sussex, for Governor, and Washington Hastings of Wilmington, for Congress. Mr. Curry is 68 years old, and a wealthy farmer. Mr. Hastings is 45 years old and an iron manufacturer, and is a member of the firm of Lidell, Hastings & Co.

THE [illegible] Republicans in Virginia have decided not to take any stock in the [illegible] and have nominated a candidate for Congress at large against Mr. John S. Wise. So there is to be a triangular fight in the Old Dominion. The Washington administration is expected to cast its influence for the repudiator against the regular republican. So we go.

DEMOCRATS, look out for squalls. The Easton *Gazette* is about to preach a Jehad against all Democrats that don't fall down and worship Gov. Hamilton. But when the elections come it takes good care to vote against Gov. Hamilton and his other men that can't swallow the republican party whole, with all of its unscrupulous frauds and its flagrant jobberies.

THE Railroad Commission has decided that differential rates are right and just to the delight of Philadelphia and Baltimore and to the great disgust of New York. Mr. Vanderbilt will abide by the decision and says the roads will look out for themselves. The cheaper freight from Chicago to Baltimore must attract a large increase of business to the latter city at the expense of New York and Boston.

NEVER was there assembled in Washington a more pretent Congress as that now in session. It has been perfectly reckless of the people's money, and has done nothing to lighten the burdens of taxation. How the Republican members, who sort of did legislation, can go home and face their constituents, is hard to be on the wall and scores of these faithless members will be elected to stay at home by their indignant constituents.

DELAWARE elects a legislature next [illegible] which will have the election of a United States Senator. Very soon there will open a lively campaign in the "Diamond State." The Republicans talk big of carrying the Legislature next fall; but they are doubtless counting their chickens before they are hatched. Sussex county is the democratic mark, but nothing that will give that old democratic stronghold to the Republicans.

THE Circuit Court for Anne Arundel county has decided that property commissioners were elected in that county last fall for two elected terms, but the Democrats who have been in office since last November, emboldened by Gov. Hamilton an opportunity to appoint a new board from among those who voted against the regular Democratic ticket last Nov. Of course Hamilton will never selects a straight out Democrat for appointment if there is any crookedness to be rewarded.

THE Judges of the Court of Appeals of Baltimore city met on Thursday and appointed Maj. Z. Ty Allison clerk of the Superior Court, vice Mr. Prevost deceased. Major Allison immediately took the oath of office, and reappointed Mr. Gaither deputy clerk, and also reappointed all the old clerks in the office. Major Allison is a nephew of the late President Zachary Taylor. Before the war he was a paymaster in the U. S. Navy, and during the war a paymaster in the Confederate navy. He has had a clerkship in one of the clerk's offices in Baltimore since the war.

Is Your Liver out of Order?

If not your whole system deranged—the blood is impure, the breath offensive, you have headache, feel languid, dispirited and nervous, have no appetite, your sleep is trubled and unrefreshing. To prevent a more serious condition, take at once a half table spoonful of Simmons Liver Regulator, three times aday. It will speedily relieve the healthy action of the liver, bowls and kidneys.

"I recommend Simmons Liver Regulator to all my friends, as I have personally found it to cure all liver disorders and sick headache.

A. MERRITT,
Beverly, N. J.

THE STAR predicted last week that the democratic party of this State has no further use for "Managers," it being absolutely important to run State affairs, and especially as it would be impossible for the party to manage its affairs worse than they have been managed by the late "managers." Not a few Democrats in this country have since told us that they endorsed sentiments of the STAR's suggestion. We are quite satisfied that we uttered the sentiments of our most intelligent Democrats. To succeed, the Democrats must take a new departure, and now is the time to come to an amicable understanding as to the policy of the future. Let all agree to wipe out old scores and begin again, and the so-called late "managers" must stand aside and let the masses of the party decide in all matters appertaining to its managements hereafter. If this is done, it will relieve the party from the necessity of criticising the party in a manner that might not be pleasing to some people. The best way is for all the Democrats to unite and settle down to the business of its present unfortunate condition as easily as possible, and without causing violent antagonisms.

We ask the *Gazette's* pardon for interfering in the free perfumery business. We forgot that perfumery is a most indispensable article to render republican meetings tolerable if not positively pleasant in close and unventilated school houses. We did not see the point the republicans were driving at, or we should certainly not have objected to their free perfumery bill. Indeed, now that we have thought more on the subject, we think the Government ought to furnish it to them by the barrel free.

THE *Gazette* is informed confidentially that the "Ring" which gives it so much concern is fortunately dead. It bursted up and went to pieces last winter, and is no more known among the living. Now that it is dead and gone, and will give the Republicans no more trouble, the STAR wants no more democratic "Rings" to trouble anybody, neither democrats nor republicans. As for Gov. Hamilton, let him stand or fall as he can. We have nothing to do with airing the bed of roses he made for himself last year by firing bombshell at his political friends, and we have no kind of objection to the *Gazette* playing chambermaid to the Governor, to empty his jars and bucket off his slops.

THE writer who did the comments on the Anne Arundel case for the *Gazette* certainly has'nt any more sense than the law allows. In referring to the decision of our court in the Tarbutton-Woodall case, he says it was a most *extraordinary* one, while he indorses in toto the decision of the Anne Arundel court. Now, the decisions of *the two courts were in principle identically the same.* Here the counsel for the Republicans made the point that, as the ballots had been examined, and an opportunity for fraud existed, whether there was any fraud committed or not, the fact that there might have been, was a sufficient reason why the recounts should be denied. The court over ruled the objection and ordered a recount. And the evidence justified the court in so doing. In the Anne Arundel case, the Democrats made the same point, and insisted that the original count must stand, but the court over ruled the objection, went behinded the returns and on the evidence decided the election fraudulent and void. If the decision of our court was "extraordinary," so was the decision of the Anne Arundel court. The only difference in them was, here it resulted in favor of the Democrats, there in favor of the Republicans. *It is* most "extraordinary" that any one should see anything "extraordinary" in one case and not in the other.

In noticing the Anne Arundel election case, the *Gazette* of Saturday takes advantage of the opportunity to indulge in another most malignant and slanderous tirade against Democrats of this county, surpassing in vituperation anything it has previously published on the Tarbutton-Woodal case, virtually accusing all those who participated in overlooking the ballots after the last November election, of being guilty of perjury, for they all made oath at the trial that they altered no ballots, nor had they any knowledge of any having been changed by anybody else. We think it the coolest kind of impudence for the *Gazette* to make such charges in the face of the facts, and the fair and impartial recount of the ballots by the Court. If there are any "monte players" connected with the business, it is the *Gazette* and its republican backers who have persistantly falsified the facts with a view to make political capital out of the case for the republican party. The *Gazette* knows what it publishes is not true, and it underestimates the intelligence of the people, if it supposes they can be won over to its side by its indecent diatribes. Why has it nothing to say about its own party in Congress, which has been unseating by wholesale Democrats legally elected, and putting in their places negroes and carpet baggers no more entitled to seats than the man in the moon, simply to subserve the purposes of their robber leader that stole the Navy. About these monstrous outrages committed by its own party, it is as dumb as a lamb, but oh! how virtuous it is in dealing with the Woodal case, where by falsehood and misrepresentation and slander, it hopes to excite prejudice against the democratic party! But Democrats know how to estimate such virtue. They have seen too much of the same sort professed by the Republican party, while its pliant conscience stops at nothing to accomplish party ends.

IN alluding last week to the unfortunate troubles in the democratic party of this State brought about mainly by the personal quarrels of the late so-called "Managers," and the would be Dictators, the STAR suggested that if Gov. Whyte or "any other man" could assume direction of the party, unite the discordant factions, and pilot it over the breakers, he is the man the people are looking for. The Baltimore *Day* expresses a doubt of Gov. Whyte's ability to perform this valuable service, and intimates pretty strongly that it is the "other man" who must be looked to to do it. Well, if the *Day* can fill the bill of fare, it is the man the STAR wants. It seems the *Day* and STAR are in entire accord as to the object desired, but it is possible they may disagree as to the means of attaining it. Yet when the *Day* assumes command and proclaims its plans, the STAR may perforce feel in duty bound to back it up. However, there are some plans we might as well say in advance the STAR will not support. Sometimes a few men combine and form a syndicate and get control of the majority, and machinery of the party; nominations are made to suit them; elections are carried in their interest; appointments are made at their suggestion; and none, however, meritorious, need seek office, nor hope to obtain it, unless they have the recommendation of the syndicate; and they only recommend such as they can depend upon to subserve their personal interests; and when it suits them to do it, they sacrifice their friends as unceremoniously as a camp meeting cook would sacrifice a harvest chicken. This is what is known as the "Manager's" plan.

Another plan is for the man in supreme authority for the time being, to attract around him a small coterie of broken down politicians, who could not be elected to anything, these sycophants fawn upon and flatter the great man around whom they revolve, and he rewards their sycophancy by bestowing upon them all the patronage of the party, to the exclusion of better men who vote the ticket, while they do not. This is the Governor's plan. These plans will not do any longer, and we are quite sure that Mayor Whyte would be as much opposed to them as the STAR is, for he has seen them tried and witnessed their failure. And he is too sagacious a politician, and has had too much experience in managing party affairs, to practice that which only can disgust the intelligent masses upon whose cordial support and approval a leader must depend for the strength of his party. Knowing Mayor Whyte's capacity as a leader, and feeling the social rank this party is in, we suggested him as a proper leader of the democratic forces. We are sorry we ran against the sharp corners of the *Day* in doing so. Yet the Democrats in the counties have great faith and confidence in Governor Whyte, and about ninety-nine out every hundred of them confidingly and implicitly swear by him, and we do not feel that we are [illegible] in saying so. Company.

But if the Mayor is not the coming man, and the *Day* is, why we submisively bow to the inevitable. We desire above all things the success of the party, and are prepared to follow any one who is capable of commanding to win.

"Pro Bono Publico."

It is a remarkable fact, that while thousands of people refuse to read puffs of worthless nostrums, some skips over Dr. Swayne's little squib, about his Ointment for Itching Piles that itch so much at night. The people well know that it is published for their benefit, in other words it is *Pro Bono Publico*. May its far reaching effects be perpetuated to the end of time.

Mysterious and Unique—A Circular Which Puzzles the Faithful.

WASHINGTON, July 20.—The Republican congressional campaign committee has just gotten up a circular of more than unusual novel design and importance, and some of the "faithful" to whom it has been sent are in a quandary as to the committee's real purpose in this instance. The dullest stipendiary of this great and glorious free government did not fail to comprehend the previous circular demanding "voluntary contributions" to assist in keeping the "Bourbon Democracy" from getting control of the government; but this search for "reliable information" is not understood, and is characterized as "mysterious" and "unique" by some of the very gentlemen "whose well known standing in the party" commends them to the committee. Here is the full text of the document, as issued from the Republican headquarters in Washington:

WASHINGTON, D. C., 1882.

DEAR SIR:—The committee is desirous of obtaining at an early day reliable information on the points hereafter indicated. Your well-known interest in the party commends you to us. Will you kindly inform this committee—

1. What congressional districts in your State are, in your opinion, *safely and surely* Republican, so much so that this committee need not be apprehensive on their account?

2. What districts are doubtful, and why?

3. What districts are hopelessly Democratic, so much so that this committee need not give them any special attention?

4. What doubtful districts can be carried by an independent movement?

5. Give the names of the most prominent Republican workers in each congressional district, with postoffice address.

6. Who are the active and uncompromising Democratic workers in your state, with location.

7. Give names and postoffice of any prominent Democrats who are discontented and ready to join an independent move against the "Bourbon Democracy."

8. What local or State issue is dividing the Democracy?

9. Give names and postoffice of the chairman of State, congressional and county Republican committees; and where changes are made during the summer please notify this committee.

The committee will greatly appreciate your kindness if you will give the foregoing information, together with such additional points and suggestions as occur to your mind.

JAS. A. HUBBELL, Chairman,
D. B. HENDERSON, Secretary.

Carter's Little Liver Pills are free from all crude and irritating matter. Concentrated medicine only; very small; very easy to take, no pain, no griping no purging.

The grading along the Baltimore and Potomac Railroad for the double track has been completed within a few miles of Washington and will be completed by the first of September. The engineers in charge of the work state that the double track itself will be laid only as far as Bowie this year, but after January first the work will be pushed forward with renewed vigor, and the entire road, including the widening of the bridges, will be completed early in the spring of next year.

MY WIFE SAID I WAS A FOOL—when I brought home a bottle of Parker's Ginger Tonic. But when it broke up my cough, drove away her neuralgia and cured baby's dysentery, she thought I had made an excellent investment.

The death of the sister of Charles Parnell, the Irish agitator, takes an active and intelgent promoter of the Irish cause away. She wielded a large influence in this country.

Best ever made, Emory's Little Cathartic Pills, pleasant to take, sugar-coated; no griping; only 15 cents a box, of Druggists or by mail. Standard Cure Co., 114 Nassau Street, New York.

TO WHEAT GROWERS.

The undersigned, PIONEER in the manufacture of FERTILIZERS in this city, and ORIGINATOR in 1860 of the formulas and processes of manufacture of

"EXCELSIOR" AND AMMONIATED PHOSPHATE,

So well and favorably known by the agricultural public, relying upon his experience and personal reputation hitherto acquired in the uniform excellence of these FERTILIZERS as manufactured by him, continues to offer them to the Farmers and Planters of Maryland and Virginia, with the assurance that the HIGH STANDARD of each will be maintained as heretofore.

The above are the most concentrated FERTILIZERS ever offered to the farmer, combining all the stimulating qualities of Peruvian Guano and the ever durable fertilizing properties of Bones in fine, dry powder, prepared expressly for drilling.

For growing wheat, it is the universal opinion of the farmers of Maryland and Virginia, after over twenty years experience in the use of these Fertilizers manufactured by me, that an application of 100 pounds is equal in its effects to 200 pounds of an other Fertilizer or Guano, therefore fully 50 per cent. cheaper.

With my present advantages and superior facilities for manufacturing, I challenge competition with any Fertilizer sold in the United Statestes, in quality, mechanical condition and price.

By strictly adhering to my original formulas, using only the most concentrated materials and superintending in person their manufacture, as for the past twenty-four years.

UNIFORM QUALITY IS GUARANTEED.

☞ Farmers, to secure the ONLY GENUINE EXCELSIOR and PHOSPHATE prepared according to my original formulas established in 1858, should see that every bag is branded as above, with the ANALYSIS and my name in RED LETTERS.

J. Q. A. HOLLOWAY,

TO FARMERS.

I have for sale a new variety of wheat which has been grown in the counties of Queen Anne's and Talbot for the past six years. The yield has never been less than 18 bushels for one seeding and has been as high as 42 for one. The grain in appearance is like "Fultz." The great virtue of this wheat lies in the strength of the straw, and the size of the head which is heavily bearded; some of the heads in my field this year contained as many as 88 grains. I have a limited quantity which I desire to sell for seed, and shall be glad to give further particulars to any desiring to try what I consider an unusually productive wheat. Price of my barn $3.00 per bushel. Samples may be seen at Dawson & Bros., and the office of this paper.

Easton, May 16, 1882-6m

Soap, Soap.

Large lot Toilet and Shaving Soap just received and very cheap, reduced from 10 to 5 cents by

J. C. HENRY, Druggist.

MRS. A. SOULSBY,

next door to the Southern M. E. Church, on Railroad Avenue, invites attention to her nice stock of

Fruits and Confectionery;

and she keeps at all times a full line of Salt Meats, Dried Beef, Sausage, &c. Give her a call. apr11,82yr

Meat Market.

This is to inform the public that I have purchased the stand in the Easton Market lately occupied by Mr. Caleb Griffin, and will be in the market every Tuesday, Thursday and Saturday, with a well-stocked stall of the best of meat—veal, lamb, mutton, beef, pork, &c. I solicit a share of the public patronage. The highest market price paid for beeves, sheep, lambs, muttons and porkers. Shall be glad to hear from those having well fatted stock for sale.

L. G. DAWSON.
