THE EASTON STAR

TUESDAY, AUGUST 15, 1882.

L. JEFF. MILBOURNE & CO., Newspaper Advertising Agents, 115 West Baltimore Street, Baltimore, Md., are authorized to contract for advertisements at the lowest rates.

THE Forty-Eight Congress is to be elected next November.

Gov. HAMILTON has appointed George W. Wilson, Judge of the Orphan's Court, vice James H. Bell, deceased.

Mr. G. FREDERICK RUFF, a prominent citizen of Baltimore, was drowned while in the water bathing at Fort Monroe, last week.

GENERAL G. K. WARREN, of the United States Engineering Corps, is dead. He was in charge of the Newport station when he died. He was a gallant Union officer in the late war.

AT the State election held in Alabama last week, the Democrats had a walk over almost without opposition. Neither the republicans nor democrats down South will bite at the coalition bait.

THE first session of the forty-seventh Congress adjourned at 3 o'clock P. M. on Tuesday. No resolution was offered in the House before the adjournment, complimentary of Speaker Kiefer.

Gov. HAMILTON has appointed Professor William P. Tonry, of Baltimore, State Chemist, under the Act of 1882, whose duties are to make an analysis of commercial fertilizers and bone dust in Harford county.

Gov. HAMILTON has appointed the following gentlemen County Commissioners for Anne Arundel county: Charles C. Stewart, Oliver H. Williams, Thomas H. Phillips, Dr. C. B. Wintersen, and Judge William H. Tuck.

THE yellow fever is alarmingly on the increase at Brownsville, Texas. The President has been advised of the condition of things at Brownsville, and is expected to take the necessary measures to stamp out the disease.

Mr. CHARLES A. VOGLER, one of the most [illegible] of Baltimore's young business men is dead. He was a member of the firm of A. Vogler & Co., the proprietors of St. Jacobs Oil and other valuable medicines extensively advertised.

THE Democrats swept Kentucky at the State election held last week. The coalition against it has been utterly demolished. Jacobs, in attempting to play the role of Mahone, has blasted the hopes of the Republican party in Kentucky.

AN annual surplus revenue of $150,000,000, and yet a Republican Congress refuses to reduce the taxes and lighten the burdens of the people. Never, either case of needless oppression can not be found in history. Will the people endorse the outrage by re electing another Republican Congress? Kentucky and Alabama answers NO at the ballot vote.

WE publish this morning the telling speech made in the House on June 28th, by Hon. Potter S. Hobltizell, on the sham bill reported by the Republicans to reduce taxation. Mr. Hobltizell shows how the internal revenue system has operated oppressively upon the labor, industry and business interests of the country, and makes a strong and sensible appeal for the abrogation of the whole system.

THE arrears of rent bill as amended by the House of Commons after it had been amended by the House of Lords, has finally passed both Houses of Parliament, and is now the law for Ireland. Lord Salisbury tried on Thursday to defeat Mr. Gladstone's amendments, and force a collision between the two houses, but was most signally defeated. This bill will give needed relief to over 100,000 small farmers, and will [illegible]

It is to be hoped that the poisonous Ague medicines have had their day. Arsenic and quinine are not desirable commodities to carry about in one's system, even in the face of temporarily displacing the malarious poison which produces Fever and Ague. Ayer's Ague Cure is an antidote for the Ague, and is perfectly harmless. Purify the system, as good condition as before the Ague was contracted.

Gov. HAMILTON has appointed the following Commissioners under the Act of 1882, to examine into the condition of the oyster [illegible] the next General Assembly such legislation as is [illegible] Professor William K. Brooks, of Johns Hopkins University, Baltimore, James C. Walker, of Anne Arundel county, and William Henry Legg, of Queen Anne's county.

HEADACHE in most cases proceeds from a torpid liver and an attack of stomach. It can invariably be cured by taking Simmons Liver Regulator. Let all who suffer, remember that sick and nervous headaches can be prevented by taking a dose as soon as their symptoms indicate the coming of an attack.

"Simmons Liver Regulator is a very valuable remedy for dyspepsia, sick headache torpid liver, constipation, piles and such like diseases.

S. W. HOLT,
President S. W. R. Co. of Ga."

Col. HUGH S. THOMPSON is the Democratic candidate for Governor of South Carolina. He is at present, and has been for several years past, the State Superintendent of public instruction, and has done much to improve the educational system of the State. In this respect he has done much good for the colored people. The corrupt government of the State stole the school funds, and badly crippled the public schools, but Col. Thompson, has wrought great reforms since the schools have been in his hands. There is no doubt of his election as the carpet-baggers can not prevail on the negroes to vote against him.

THERE has broken out recently a bitter controversy between Messrs. A. P. Gorman and George Colton, two of the late so-called "Managers" of the Democratic party in this State. Mr. Colton makes certain charges against Mr. Gorman, which Mr. Gorman pronounces slanders. Mr. Colton reiterates them, and requested Mr. Gorman to repeat the slander, and declares he can prove ten times more than he has published. Now, it is to be hoped that the Gorman and Colton, or Colton and Gorman, quarrel will be settled in the courts. As it is purely a personal quarrel, the Democratic party has nothing to do with it, and Democrats should not take sides with either. Let them it fight out in the press, or in the courts, as they may prefer. But let Democrats manage the affairs of the party, without reference to these gentlemen. Thats the way to have peace.

MY WIFE SAID I WAS A FOOL—when I brought home a bottle of Parker's Ginger Tonic. But when it broke up my cough, drove away her chills and cured her of a lingering dysentery, she thought I had made an excellent investment.

THE forty-seventh Congress is Republican in both houses by large majorities. The first session has made its record. It has expended *Seventy Eight Millions* of dollars more than was expended the year previous by a Democratic Congress. When the Democrats came into power they at once cut down the appropriations *Thirty Millions of Dollars* per annum. The Republicans as soon as they regained power, raised the appropriations *Seventy-Eight Millions of Dollars*. It seems to strike us that the people ought to understand by this the difference between the two parties. Economy is the democratic watchword; prodigate extravagance is the republican rallying cry. The taxpayers can take their choice. The figures arose plain that all who run may read.

THE *Ledger* last Thursday literally daubed Mr. George Colton, but while it was prancing around the Little Giant, it unfortunately kicked Senator Gorman under the fifth rib very badly. It was done in this fashion: after laboring to discredit Mr. Colton, the *Ledger* said in substance, that if Mr. A. P. Gorman is only half as bad as Mr. Colton represents him, he ought to be politically spanked. This is rather sharp on the *Ledger's* idol of the week previous! Wonder where it will stand next week? It will probably hoist the Whyte flag by that time, and boom it with another extra double supplement, as the country papers are all floating around towards the Whyte camp, seeing that he is bound to win at the next Gubernatorial races. But for the last month the *Ledger* has had a hard time of it, worrying the dogdays, boxing the factional compass, looking for the point where the favorable breezes are most likely to blow from under the next state administration.

IT is with unaffected pride that Maryland Democrats have observed the high stand the Hon. Robert M. McLane, of Baltimore, has taken in Congress. Mr. McLane, by his consummate talents, vast stores of information, long parliamentary experience, readiness in debate and clever wit, has pushed to the front in the House, and is much more capable of leadership than either Mr. Blackburn or Mr. Springer, or any of that class of men. He is sound, cautious, and sagacious, and would not be likely to lead the Democrats into dangerous paths. Representing a wealthy commercial constituency, and understanding thoroughly their needs, he is capable of presenting them to the House and the country in their strongest light. A lifelong Democrat, hightoned and honest, knowing thoroughly the history of the party and the rocks upon which it has split in the past, and devoted to its constitutional principles, he is a man the party can implicitly confide in, and the masses may safely follow where he shall lead. Such a member of Congress is too useful to the party and the country to be permitted to retire to private life, and we sincerely trust Mr. McLane's intelligent constituency may return him to the forty-fifth Congress. His reputation is now national, his influence in Congress is enlarging, the country recognizes him as one of its ablest and soundest statesmen, and we are sure that no man in Baltimore can serve the city in the House more acceptably. He ought to be re-elected without opposition.

NEW and striking figures are now furnished regarding the immigration to this country. From July 1, 1881, to July 1, 1882, the immigration proper was 789,006, and the total of foreign arrivals 816,027. This was 119,572 more than the immigration of the previous year, till then the largest in our history. In this aggregate Germany stood first, sending us a quarter of a million of her people. No other country sent a hundred thousand, a fact which shows how German elements is pervading our population. The figures for the foremost half dozen nations are: Germany, 249,505; Canada, 98,308; England, 85,175; Ireland, 76,422; Sweden, 49,710; China, 39,579.

A resolution of sympathy for Senator Benjamin H. Hill adopted by the regular Georgia Republican convention last week was offered, advocated and finally carried by the unanimous votes of the colored delegates. The motion for adoption was at one time withdrawn, but afterwards renewed by the candidate for Secretary of State, a full-blooded negro. On the other hand the white men present, led by a carpet-bagger and a scalawag, protested bitterly against the resolution, and declared that they were unwilling to say that they sincerely regretted Mr. Hill's condition. To the fact that the negroes were in a majority in the convention was alone due the official expression of sympathy and condolence.

"Pro Bono Publico."

It is a remarkable fact, that while thousands of people refuse to read pitiful puffs of worthless nostrums, none skips over Dr. Swayne's little squib about his Ointment for Itching Piles that itch so much at night. The people well know that it is published for their benefit, in other words it is *Pro Bono Publico*. May its far reaching effects be prepetuated to the end of time.

The Cape May Wave says that Dr. W. W. Van Valzah, formerly demonstrator of anatomy in the Jefferson Medical College of Philadelphia, came to the seaside some months ago in an exhausted condition, and received no benefit from the attendance of the skilled physicians to whom he intrusted his case. He finally called in a homeopathic physician, and improved so rapidly under his treatment that he has determined himself to take up the study of that system of medicine.

TO FARMERS.

I have for sale a new variety of wheat which has been grown in the counties of Queen Anne's and Talbot for the past six years. The yield has never been less than 18 bushels for one seeding and has been as high as 44 for one. The grain in appearance is like "Fultz." The great virtue of this wheat lies in the strength of the straw, and the size of the head which is heavily bearded; some of the heads in my field this year contained as many as 86 grains. I have a limited quantity which I desire to sell for seed, and shall be glad to give further particulars to any desiring to try what I consider an unusally productive wheat. Price at my barn $3.00 per bushel. Samples may be seen at Dawson & Bros., and the office of this paper.
