—Fishing is very fine at Miles River Bridge.

—Dentristy, Dr. J. N. Baird, Easton, Md.

—The hotels at Oxford are full to overflowing.

—Oxford has been made a money-order office.

—Don't forget the Cape May excursion to-morrow.

—The cat-birds have come to gather the grape crop.

—A nice line of toilet sets just received at G. W. Beck's.

—THE STAR contains all the latest important local news.

—Read THE STAR to learn of the sales that come off shortly.

—10,000 peach boxes for sale by Shannahan & Wrightson.

—Fruit Cans made of the best material for sale at G. W. Beck's.

—Woven wire cloth, all widths, for sale cheap at G. W. Beck's.

—There is now a fair prospect for a good crop of corn in this county.

—The Cecil county agricultural fair commences on the 3rd of October.

—The late rains and warm suns have been most favorable to the growing corn crop.

—Most of our farmers are breaking fallow for wheat. Break fallow early or not at all.

—Genuine Havana filled cigars at P. G Hoffman's, cor. Railroad avenue & Hanson st

—At cost for cash—water-coolers, ice boxes and refrigerators, at Shannahan & Wrightson's.

—A better quality of peaches than the extra early varieties, is beginning to come to market.

—The Brick hotel in Easton is a good place for city people to come and spend a month at this season of the year.

—Make your homes cool by using the "Automatic Blind Awning Fixture." For sale by Shannahan & Wrightson.

—There were any quantity of water melons from Caroline in market on Saturday. The melons are very fine this season.

—The cows that pasture on Aurora street certainly don't know there is a town ordinance prohibiting their running in the streets.

—The Delaware State Cattle Show and Fair for 1882 will be held at Dover on the 26th, 27th, 28th and 29th of September.

—Many farmers are holding on to their wheat for a higher price. They may be right, but we can't see where it is to come from.

—A party of ladies from Oxford came up on the train on Thursday and visited the Easton jail. Hope they were not looking for their husbands.

—Leading plows in this market are the South Bend Chilled, Remington and Peacock New Ground Plows, for sale by Shannahan & Wrightson.

—Numsen & Sons' packing house, at Easton Point, is now in full blast, packing peaches, affording a profitable market for the fruit of our farmers.

—The making of peach boxes is getting to be a large business in this section. It is strange that there is no factory in Talbot that makes peach baskets.

—The Wye camp meeting is now in progress, and the people of the upper part of this county are taking much interest in it. There was an immense crowd there on Sunday.

—Shannahan & Wrightson are agents for G. Ober & Sons, Lorentz & Rittler and J. E. Tygert & Co.'s different grades of fertilizers. Call and see them before buying elsewhere.

—Tin roofing and spouting promptly done in the best manner. Prices guaranteed to be as cheap as the cheapest, material and workmanship considered. A full stock of Tinware always on hand. E. J. HULSE.

—Mr. Norris, mine host of "The Brick," receives a supply of fresh oysters every morning. No abatement on account of the dog days. If cooked fresh from the river, they are just as good and wholesome in August as in January.

—Antonio De Pasquale & Brother, the Fashionable Tailors, next door to the Bank, Easton, Md. All garments cut and made by them are guaranteed to fit, and made in the very best manner, and in the most fashionable style feb28-1y

—The Pennsylvania road has put an extra freight train on the Delaware and Chesapeake road, for the accommodation of fruit growers. It does not take any local freight, but only loaded cars, and leaves here for New York and Boston every day, Sundays excepted, at 12:30 P. M.

—A heavy crop of wheat this year, a good crop of peaches, a big crop of corn, and everything bringing fair prices, the farmers of Talbot ought to be happy. With the improved machinery and fertilizers of the present day, the farmers can better afford to raise wheat at $1 per bushel than they formerly could at $1.50.

—The next Sheriff comes from Chapel district. The Democrats of that district intend to present the name of Mr. Thomas Quimby for sheriff. Mr. Quimby is a working Democrat, and no man in the old Chapel is more worthy of the honor. THE STAR thinks the nomination of Mr. Thomas Quimby for sheriff would be an excellent and popular nomination.

—It will be readily seen by a look at Messrs. Thompson & Kersey's new advertisement this morning that they are offering unusual attractions in the way of Bargains at their Mammoth Bazaar. Go and see for yourselves, and we are sure you will not regret your purchases at this Old Established House, for their reputation for Fair Dealing and Low Prices is an established fact.

—Dr. A. C. Henry, veterinary surgeon, has established a hospital for sick horses at the old Hopkins shop, on Dover street. Dr. Henry is from New Orleans and appears to thoroughly understand what he is about in treating horses and other animals. A good veterinary surgeon has long been much needed in Easton. We wish him success.

—The British Quarterly Review for July, re-published by the Leonard Scott Publishing Company, New York, will be found very interesting. The article by H. S. Palmer, "On Recent Japanese Progress," giving a full account of the political, social, financial, military, and industrial revolution which has been developed in Japan during the past ten years should interest all intelligent Americans. Another article they should be specially interested in is entitled "The Puritan Element in Longfellow," by Alexander H. Japp.

—"Theatrical and Circus Life" is the name of a new book just issued by that enterprising firm the Sun Publishing Co., of St. Louis. This interesting work will be welcomed by the thousands who nightly visit our places of amusement, but who are unacquainted with the mysteries of the "Profession," and will be doubly welcomed by those who never visit such places, but whose curiosity has often been excited by the flaming posters placed in many conspicuous places. It is a grand book for agents. We call attention to the advertisement elsewhere.

—The registration of voters commenced yesterday, and will continue all this week. Those Democrats who have not registered, and desire to vote for Judges and Congressmen next November, should see that they register.

—Col. Thomas Hughlett, Fish Commissioner for the Eastern Shore, will accept our thanks for a copy of his last Annual Report to the legislature, giving a detailed account of his operations for the year 1881. The figures were published in THE STAR last year, but we will here repeat that, during the year, Col. Hughlett hatched and deposited in the waters of the Eastern Shore, 7,545,000 herring, 5,782,000 perch, 8,863,000 shad, and 39,000 carp and salmon from the hatching houses elsewhere.

Public Business.

COUNTY COMMISSIONERS,

EASTON, Aug. 8.—The commissioners met and adopted the report of the examiners appointed to lay down the Aurora street extension road, and ordered the road to be built.

Nicholas Willis, John Warner and Joseph Ewing were appointed examiners on the application for a new road and public landing at Windy Hill, in Bambury.

William Collins, Sr., Solomon S. Hopkins and William P. Wright were appointed examiners on the application of Sinclair Watts and others for a new road, connecting the Bambury and Wright's Mill road, through the lands of George Kugler and others.

The contract for building the Breeding-Jump road, near the Roman Catholic Church, in Chapel district, was awarded to Cornelius O'Daley for $600.

The bond of James Miller, Supervisor, vice William D. Rice, deceased, was received and approved.

ORPHANS' COURT.

EASTON, Aug. 8.—The orphans' court met and passed the final account of Edward Harrison, administrator of Eliza Gardner.

John W. Jump, executor of Charles H. Stewart, returned an inventory of the estate. An order of sale was granted, and the executor was ordered to publish notice to creditors to file their claims.

Letters testamentary on the estate of William Conlyn were granted to E. H. Roe and Frank W. Conlyn, executors named in the will.

The last will and testament of Margaret Hughlett was filed for probate.

The court passed an order permitting John C. Bartlett to withdraw a release from D. R. D. Cheezum, filed Aug. 1st, inst.

In the case of Cheezum vs. Cheezum, administrator of Cheezum, a motion was filed by the solicitor for the petitioner.

Fayette Gibson, solicitor for Margaret Bridges, filed a petition for the sale of the real estate of Joseph H. Bridges, deceased.

Here's your Rat Catcher.

Did you ever see "Snap" kill a rat? If you haven't, you oughts to. He does it scientifically, and so quickly the rat is not expected to enjoy the operation. Snap is Mr. Satterfield's black and tan. He is not much larger than a ginger cake, but he knows exactly how to touch the tender place in a rat's affections. One day last week the servants at Mr. Wm. J. Roberts' caught five rats in a trap. The boys took the trap out in front of Mr. Gealon's tobacco store and let the rats out. Snap bagged four, and one of Mr. Geo. W W. Haddaway's setters gobbled up the other. It was huge sport for the smokers who lounged about Mr. Gealon's steps. The next day they caught five more, and took them into the street to be snapped. Snap was on hand and soon had four cooked. But there was one missing; and where could it be, everybody asked? Snap couldn't find it. Mr. Satterfield looked in vain under the cellar doors for it. Gealon turned over his tobacco boxes, but Mr. Rat was nowhere to be found. At last, when they were about to give up the hunt, a boy said, "there he is, up Mr. Satterfield's pants;" and sure enough, there he was, perched on the little tailor's boot top; and the way Mr. Satterfield danced around, and began to unharness and call for Snap was a caution. He grabbed the rat by the back of its neck, and held it off from the skin. Some one rolled up his pants and got the rat by the tail, gave it a snatch as Mr. Satterfield let it go, and away went the rat high in the air. Snap, who had been thoroughly practiced in ball catching, eyed him afar off, and caught it "on the fly" as it came down, and that was the last of Mr. Rat. Last Saturday they caught another crop and had another killing, but THE STAR reporter was not on hand to see the fun.

The Registration.

EASTON, MD., August 4th, 1882.

The attention of all Democrats is called to the Act of the last Legislature requiring a new registration of voters. Under this act no one who fails to Register will be entitled to the right of suffrage. The Register will sit on the 14th, 15th, 16th, 17th, 18th and 19th of this month, and it is hoped that every Democrat will take advantage of this opportunity to Register. Attention is called to the matter because of the small number who registered last month.

PHILIP F. THOMAS,
Chairman State Central Committee for Talbot County.

Special Notice.

If you want a cheap and fashionable suit of clothes made, go to John Satterfield's; get him to choose the cloth for you from his samples; have him order the goods at wholesale price; or at the stores in town; if you prefer. He is a first-rate judge of goods, and if you buy through him, you won't be cheated. He has the latest fashions, and warrants everything he makes to fit and give satisfaction. He also does all kinds of cutting promptly to order. Feb21-tf.

Fire on the Chesapeake.

The steamer Georgiana came very near being destroyed by fire on Thursday night, near the Brown Foot Knoll lighthouse, on her way to Baltimore. Mr. Thomas Gibson, of this county, occupied stateroom No. 30, near the wheelhouse. About 3 o'clock A. M. he waked up and found the room full of smoke. He opened his door, and found the fire in the upper deck, immediately over his stateroom. The fire had burnt a hole in the deck nearly 2 feet in diameter. His action he Mr. Quimby discovered the fire, and found the sparks dropping on his stateroom door. He picked up his clothes, and without stopping to dress or make any alarm, he went immediately to the pilot house and told the mate, who was steering, the boat was on fire. The steamer was instantly stopped and the fire extinguished without creating any alarm or commotion among the passengers, most of whom knew nothing about it. Mr. Quimby certainly exhibited remarkable coolness and discretion in the moment of danger, and deserves the thanks of the company for saving the steamer. As soon as the boat stopped, Capt. Beckwith, who was in his stateroom, immediately waked and came on deck to ascertain the cause, and was prompt and efficient in giving orders to extinguish the flames without alarming the passengers. Mr. Quimby's and the adjoining stateroom were sluiced with water. The cause of the fire could not be definitely ascertained. It was probably caused by a spark from the smoke-stack setting the canvass on fire which covers the deck, as no one had been smoking on the upper deck that night.

Drowning of Mr. Fierce, of Greensborough.

Messrs. J. P. Fierce and Nathaniel Horsey, of Greensborough, left Baltimore Tuesday night in the Ida for Oxford. Mr. Horsey retired to his stateroom about 11 o'clock, Mr. Fierce a short time afterwards; both occupying the same stateroom. When the whistle blew for Easton Point, the first landing on the route, Mr. Horsey got up; that Mr. Fierce was not in his room, the door of which was unlocked, and all of Mr. Fierce's clothing and baggage was in it except his underclothes and pants. Mr. Horsey becoming uneasy, made inquiry on the boat for him, but no one had seen him. He did not appear when the boat reached Oxford. He did not go up the river in the boat. Mr. Horsey waited at Oxford until Wednesday night, to try and find out something about him, but in vain. The presumption is that he jumped overboard, or fell overboard, and was drowned, as nothing has since been heard of him. He was a sober and prudent man, and there is no known reason why he should have committed suicide.

A Tribute of Respect.

WHEREAS, The Board of Managers of the Home for Friendless Children desire to testify their appreciation of the services of the Matron, Miss Louisa D. Nabb, whom it has pleased God to take from her post of usefulness;

Resolved, That she was true and faithful at all times in discharge of the trust confided to her, and that her influence in forming the characters of the children has been such as we believe will be of lasting benefit to the Institution.

Resolved, That a copy of this Resolution be furnished to each of the papers of the town, and that it be inscribed upon the minutes of the Board.

Judge Men by Their Works.

A man is judged in this life by his works and in this connection it may not be inopportune to add, that Dr. Swayne has accomplished more good through the medium of his Ointment for skin diseases, than has the entire school of physicians combined. "Its an ill wind that blows nobody good." What the physicians have lost Dr. Swayne has gained.

Death of Dr. Dennis.

Dr. George R. Dennis, Ex-United States Senator, died at his residence, near Crisfield, Somerset county, last Sunday. Dr. Dennis was an exceedingly clever gentleman, and one of the most influential men on the Eastern Shore, and his death will be a great loss to the State, and especially to the community in which he lived.

Another Excursion to Cape May.

There will be another excursion to Cape May to-morrow, on the Delaware and Chesapeake road. The manager of these excursions proposes to give one every Wednesday for a month. Those who have never been to Cape May should avail themselves of these excursions to visit the great seaside resort.

It is a Use

N. Oehm & Son, 230 W. Pratt St., through to 50 Hanover St., Baltimore, Md.

A Valuable Cow.

Mr. Alex. T. Seth, formerly of Talbot, but now of Baltimore county, rejoices in the possession of a cow with a record of over twenty-four pounds of butter a week, and six hundred and seventy-one pounds a year. The cow is valued at $2,000.

Fire from Lightning.

The storehouse and residence of Mr. Daniel C. Barnett, at Lewistown, was struck by lightning and destroyed by fire on Monday night week, together with all of Mr. Barnett's furniture and store goods.

PENINSULA.

The Smyrna Times says this year's crop of peach plucks is the most disreputable looking ever seen in that section.

Work has begun on the repairs to the Centreville M. E. Church. The building will be put through a complete course of repairs and improvements inside and out.

We have received the annual premium list of the Peninsular Agricultural and Pomological Association. The annual Fair of this association will be held on September 19, 20 and 21.

Wm. Tyson, living near Elkton, aged 80 years, worked in the harvest field this season doing the work of a full hand. He swung a cradle for four days and a half from morning until night.

A shooting match at clay pigeons for $100 a side, between Jerry Goldsborough and Wm. B. Grant, of Smyrna, and R. D. Clow and R. Holmes, of Dover, was tested at Kenton on Tuesday of last week. The match resulted in a victory for Dover by three pigeons. Following is the score: Holmes 21, Clow 19—40. Goldsborough 20, Grant 17—37.

It Seems to Satisfy a family want, and I wonder how we ever got along without Parker's Ginger Tonic. It cured me of nervous prostration, and I have used it since for all sorts of complaints in our family.—Mrs. Jines, Albany.

DEATHS.

HADDAWAY.—In Broad Creek Neck, August 7th, 1882, Mr. William Haddaway, in the 80th year of his age.

McDANIEL.—On August 12th, 1882, at the residence of his parents, Seth Hopkins McDaniel, oldest son of James E. and Mary C. McDaniel, aged 5 years.

HUBBARD'S

STANDARD PHOSPHATE

Acknowledged the Wheat Fertilizer of the Country.

The gratifying results that have been obtained from the use of our Standard for the last 10 years, as well as the present crop, seem to be crowned with larger yields than ever. All goes to prove to us beyond a doubt that we have not failed in the great object we had in view, and that to make our goods a profit to our customers. The value of a Super-Phosphate depends upon the way and manner the combination of material are applied together, which by our scientific process we are enabled to guarantee quality, uniformity and condition, as will be seen by analysis below.

PROF. P. B. WILSON.

The question has been asked us, how can we afford to sell our goods showing by analysis a Cash value of $40 and over for $35 per ton. To which we answer, By producing the largest amount of Soluble matter from the materials that is capable of being produced. If from the same materials we only produced half the amount of soluble matter, we would only get half the value. This being the only correct guide for the farmer in selecting his fertilizer, we would suggest that other manufacturers who are selling in our county to publish their analysis, and show to the buyer the value of their goods. We hold all the original copies of our analysis which can be seen at our office. Our stock is heavy, several hundred ton, and in the best of order for drilling. We hope our patrons will send in their orders early, as we have but one time of settlement and that at the close of the season, and besides give them goods in better order and avoid disappointment.

When retrograding o'er the past,
We must confess this age is fast,—
The great desideratum's attained at last
By Goldsborough's 5 cent Music.

Where'er you wander on the street,
The air seems filled with music sweet,
And in almost every house a sheet
Of Goldsborough's 5 cent Music.

The stranger, as he passes by,
With careful, scrutinizing eye,
Is amazed when invited in to buy
Goldsborough's 5 cent Music

He buys, and to his home repairs,
Laden with all the latest airs;
Astonishes the family when he declares
'Tis Goldsborough's 5 cent Music.

To those who would their parlors grace,
Must this great offer now embrace;
And straightway note the only place
To buy Goldsborough's 5 cent Music.

TO WHEAT GROWERS.

The undersigned, PIONEER in the manufacture of FERTILIZERS in this city, and ORIGINATOR in 1868 of the formulas and processes of manufacture of

"EXCELSIOR" AMMONIATED PHOSPHATE,

So well and favorably known by the agricultural public, relying upon his experience and personal reputation hitherto acquired in the uniform excellence of these FERTILIZERS as manufactured by him, continues to offer them to the Farmers and Planters of Maryland and Virginia, with the assurance that the HIGH STANDARD of each will be maintained as heretofore.

The above are the most concentrated FERTILIZERS ever offered to the farmer, combining all the stimulating qualities of Peruvian Guano and the ever durable fertilizing properties of Bones in fine, dry powder prepared expressly for drilling.

For growing wheat, it is the universal opinion of the farmers of Maryland and Virginia, after over twenty years experience in the use of these Fertilizers manufactured by me, that an application of 100 pounds is equal in its effects to 200 pounds of an other Fertilizer or Guano, therefore fully 50 per cent. cheaper.

With my present advantages and superior facilities for manufacturing, I challenge competition with any Fertilizer sold in the United States, in quality, mechanical condition and price.

By strictly adhering to my original formulas, using only the most concentrated materials and superintending in person the manufacture, as for the past twenty-four years,

UNIFORM QUALITY IS GUARANTEED.

☞ Farmers, to secure the ONLY GENUINE EXCELSIOR and PHOSPHATE prepared according to my original formulas established in 1868, should see that every bag is branded as above, with the ANALYSIS and my name in RED LETTERS.
