THE EASTON STAR

TUESDAY, SEPTEMBER 5, 1882.

A FLASH AHEAD.

L. JEFF MILBOURNE & CO., Newspaper Advertising Agents, 10 Spruce Street, New York, are authorized to contract for advertisements in this and other first class newspapers.

THE strike at the coal mines in Western Maryland has ended, by the men having resumed their old jobs and gone to work at the old rate. They lost five months and gained nothing.

TWO English celebrities arrived in New York last week from Liverpool. George J. Holyoake, the great political economist, and Mr. John Pender, the great cable magnate. They come to make a tour of this country.

THE Republicans of Cape May are bitterly opposed to the re-election of George M. Robeson to Congress, and his nomination is now considered very doubtful. He has to fight Senator Sewell's influence at every green roads and bar-room in his district.

An article so favorably known as Hall's Hair Renewer needs no words of praise from us. It has won its way to the highest favor in the public mind, and multitudes who have vainly used other preparations have, on trying this, been made glad by the speedy restoration of abundant locks as in the days of youth.

SECRETARY of the Treasury Folger is now fairly in the field as a candidate for the Republican nomination for Governor of New York. He is backed by Arthur, Conkling and their Stalwart followers. The contest may narrow down between Folger and Wardsworth, with chances in favor of the former. Cornell is considered dead of the "blind pool."

THE Baltimore *Sun* having intimated "that the shadow of the City Hall envelopes the machinery of city politics," Mayor Whyte construed the allusion as reflecting upon him, and promptly responded to it in Wednesday's *Sun*, in which he pronounces the "insinuation" as unworthy of that reform paper, and without "a single fact to justify it."

Allen Monroe C. Hamilton is having a precious time with his Republican friends, who want to nominate him for the Republican candidate for Judge, but he don't want to be a judge, but he wants to be a member of Congress, while Mr. R. D. Mitchell, the Democratic Attorney for Frederick, to go to Congress in Mr. Urner's place. It's a curious fight.

THE *Ledger* has suggested a programme for the Republicans, which if they accept, may possible give them the control of the court to be elected in this circuit next November. The programme suggests a ticket to be made up of Jones of Cecil, and Westcott of Kent, Republicans, and Russum of Queen Anne's, Democrat. If they elect these gentlemen Judges, they will have the appointment of all the school commissioners in the five counties composing the circuit, and will doubtless provide the *Ledger* man with an Examinership for his smart suggestion.

Five Legal Decisions.

Sustain and established J. H. Zeilin & Co.'s prior and exclusive right to "Dr. A. G. Simmons Liver Regulator or Medicine" and to the sole use of the name "Simmons Liver Regulator." Medicine popularly known as the same of to others. Relying on said decrees, J. H. Zeilin & Co. caution dealers, consumers and the public generally that any one infringing their Trade-Mark or dealing in counterfeits thereof make themselves liable to an injunction and damages.

AMONG the names very frequently mentioned for the nomination to Congress from the Second District of this State at the approaching Congressional Convention, is that of the Hon. Charles B. Roberts of Cecil county. Thousands of Democrats in Baltimore county say that if Baltimore county should not again be honored with the nomination, there is no man in the District who would be more heartily supported than Mr. Roberts. There are a large number of people in Baltimore who say they will very gladly, at any time, support the Hon. Charles B. Roberts for any position for which their votes are asked. Mr. Roberts' reputation as an able representative is not confined to the limits of the Congressional District of the State of Maryland, but it is as extensive as the limits of our country. He is an honor to his State.

GOV. CORNELL of New York, has since his nomination spared no pains and earth to compass a renomination and re-election. To curry favor with the Half Breeds, he went for Senator Conkling and Jay Gould, accusing them of attempting to bribe him. This was a move to show his immaculate virtue. But unfortunately Gould held the cards in the Governor. The "blind pool," under Cornell's management, wherein the Governor had swindled his friends out of untold thousands, and made no returns to his partners. Gould has exposed the swindle, and the friends of Cornell are turning up all over the State of New York, acknowledging that they had been swindled, but did not understand how it had been done, nor by whom. The result is, that Conrell is now as dead as a mackerel politically. The man who undertakes to beat Jay Gould is very apt to come out the little end of the horn.

Virginia Politics.

John E. Massey, Independent, is making a vigorous canvass for Congressman at large in Virginia.

Congressman Fulkerson, Readjuster, who was defeated for nomination in the Abingdon district by General Mahone, has come out in favor of Massey as a candidate, and is giving Boss Mahone and his crowd "Hall Columbia." Fulkerson supports Massey against Mahone's man Wise.

Mahone has defeated the nomination of Congressman Jorgensen in the Petersburg district, and that gentleman will probably be an independent candidate for Congress.

Capt. H. H. Dodson, of Wise county, has announced himself as a straightout Republican candidate for Congress in the ninth district of Virginia.

The Republicans of York county have held a county meeting, and resolved to support Dezendorf, a straightout Republican, for Congress, against the Mahone re-actionary.

IT looks now as if the Mahone combination was about played out in Virginia.

"Let Him Who wins It Bear The Palm."

"He who cures the ills of flesh" quoth the sage, "is even greater than he who conquers in war." Certain it is then, that Dr. Swayne has earned the laurel of greatness. His Universal Pain Cure has been the means of releasing thousands from the indescribable horrors of that complaint. The best evidence of an article is obtained by a practical test, and the unsolicited testimonials of those who prove it.

If there ever was a specific for any one complaint, then Carter's Little Liver Pills are a boon to sick headache. Let every woman should know this. Only one pill a dose.

THE *Gazette* is as virulent about its liquor legislation for Chapel district, as if it had been accused of doing something wrong. The law is all right, of course. The Chapel having voted against prohibition under the local option law, the penalty is, that prohibition is imposed on it by indirection; and the friends of the *Gazette* and his colleague in the legislature must be congratulated on exercising the necessary amount of courage to do justice in the premises. We cannot see any necessity for pleading ignorance as an excuse for doing the fair thing; especially as the thing was done in a very sensible way. Two bills just alike save one word; Talbot was excepted in one and put into the other, upon the principle that if one was wrong the other was right, and so there was no risk. But unfortunately the thing will not work as was expected. The vote that excepted Talbot from the operation of the law, put the Chapel district just where the local option law left it, and to the gentlemen who restored the status quo in that district is due all the glory. We are for giving the Devil his due. Now that Chapel is taken out of the prohibited territory, it will doubtless be found that the Cider law is also rendered inoperative in that district. Was that also done ignorantly or intentionally? The *Gazette* will doubtless make satisfactory explanations, without getting hurty, and flying off at a tangent. A good Republican temperance man might do this equitable piece of legislation, when it would be inexpedient for a anti-local option Democrat to do it. Temperance men will regard it all right, if done by the first, but they might misconstrue the motive, if attempted by the latter. All is well that ends well, and the editor of the *Gazette* must not get scared and run off and say he won't be a candidate again because of such a trifle.

THE Governor voted for the Hon. Daniel M. Henry as against Jesse K. Hines, Esq., for Insurance Commissioner, and for Chas. Webb, Esq., as against Col. Woolford, for Tax Commissioner, and for Robert Bridges, Esq., as against Lewis Clem Smith, Esq., for President of the Canal. We would most respectfully inquire of our contemporary whether the Governor's vote for Mr. Henry is to be lauded or condemned; as against Mr. Hines, or whether his vote for one of the hundreds of good men on the Shore as against Messrs. Hines and Woolford, should be condemned? These are in the bailiwick of our contemporary, and he can well speak.

The above is from the Hagerstown *Mail* and its interrogatories are directed to us. The *Mail* says "the Governor had no programme." Of course he had'nt; because he was in the minority in the Board of Public Works, and was powerless to do any mischief. His voting for Mr. Henry was simply a piece of strategy, because he knew he could not elect him. Had he possessed the power to elect, he would not have touched him with a forty fool pole, because Mr. Henry is a sound Democrat, and voted the Democratic ticket last fall. In making his important appointments last winter Gov. Hamilton ignored and proscribed all Democrats who voted the straight party ticket, and bestowed his patronage on the bolters, who sailed under the "O. L. D." flag, or failed to vote where there was no O. L. D. ticket running. The only exceptions were, when the appointee happened to be related to and supported by O. L. D.'s. Look to the tobacco inspectors and the election officers in Baltimore in illustration of this. If the Governor had had the power to appoint a tax commissioner, or the president of the canal, instead of the Board of Public Works electing them, the *Mail* knows very well he would have had a "programme" of his own, a full "O. L. D." programme, and neither Mr. Henry nor any other Democrat that voted the regularly nominated ticket last fall would have had a ghost of a chance to win, unless the Governor has stepped down from his O. L. D. stilts, where he figured so ridiculously last winter. The "good of the party and of the service" vaunted by the *Mail* as the Governor's programme, simply means the good of Governor Hamilton, and personal service to him. The assumption set up by him, and defended by the *Mail*, that there is no one in the Democratic party to be trusted with "the good of the party and of the service," except the "O. L. D.;" that they alone are honest and must fill all the offices, is too monstrously absurd for Eastern Shoremen to swallow. Here they are not credited with possessing more honesty than other Democrats.

DON'T CONDEMN A GOOD THING because you have been deceived by worthless nostrums. Parker's Ginger Tonic has cured many in this section, of kidney and nervous disorders, and we commend it heartily to such sufferers.—*Pr'y't News*

MUSIC

FOR

Five Cents

Big Lot Just Received.

This music is NOT the cheaply gotten-up five cent TRASH of late so largely disseminated in the cities. Neither is it stale, accumulated, shopworn stock. It is

Genuine, Legitimate, Copyright and non-Copyright Popular Music of the Day,

executed in the highest style of the art from Electotype Plates, on Best Plate Paper, such as formerly sold for 30, 50, 75 and 100 cents, and now sold by us for FIVE CENTS. This departure from long established rates is really a Great Revolution in the Divine Art.

The above big lot, together with the large stock previously on hand makes our collection

Larger than Combined Stock of all Dealers on the Eastern Shore of Maryland.

We will freely give sensible and practical hints in the art of playing any Music bought of us.

TO THE FARMERS OF TALBOT COUNTY, MARYLAND.

We Desire to Call your Attention to the Superior Merits of

ORCHILLA GUANO

AS A FERTILIZER FOR

WHEAT AND GRASS.

The results obtained from its use are not only an increased yield, but the permanent improvement resulting from the abundant growth of grass which is sure to follow.

ORCHILLA GUANO has been used extensively in Maryland, Pennsylvania and Virginia for several years, and from its abundant success everywhere, especially among the farmers of your section, we are justified in confidently recommending it to you as being well adapted to your soils. No fertilizer offered for your use has had such unvarying success and continued popularity. Some of the largest and best farmers in these three States use it almost exclusively.

It is economively used, because it is in Nature's own provision for her exhausted fields.

It is low priced, because we have none of the expense of manufacture, and disregarding its high grades of Phosphates, we have but one price upon its actual cost to import.

We refer you below to some of your people who have used it, and ask you to enquire of them as to its merits.

WOOLDRIDGE, TRAVERS & CO., IMPORTERS, BALTIMORE, MD.

READ THE FOLLOWING LETTERS:

JOSEPH E. MCKNETT, of Middletown, Dorchester County, Md., says: I purchased in 1871 the first ton of Orchilla Guano ever used in this county. I then tried it in competition with a Standard Phosphate, that it did so much better than the Phosphate that I again used it by the side of another fertilizer with the same result. I have continued to use it every year in competition with some of most standard brands, and in every case it has done better for me than any of them. For the future, I don't think I shall use any other, unless in some quantities for test, or because I cannot secure Orchilla.

GEORGE RUFFINGNER, of Eden Station, Somerset Co., Md., says: I have been using Orchilla Guano for a number of years. I have tried it carefully on my own land, and I have seen its results on my neighbor's farms also, and I assure you I cannot say enough in its praise. From the condition my land is in now, I am free to say that I consider it I had given away the first crop I raised from Orchilla, I would have been well repaid by the improvement of my land, and the crops I get now. I could not get any fertiliser in the market at the same price as Orchilla, I would be ready to pay more for Orchilla, because I have proved to my satisfaction that it is not only good for the crop, but it is a permanent improver of the soil, and will insure fine grass for years to come. I don't care how poor the land is, I believe Orchilla will bring it up. I have seen it do it. My neighbors have seen it, and there will be twice as much sold in this neighborhood this fall as was sold last year. I will have nothing else.

AARON WIMBERLY, of Linkwood, Md., has been selling Orchilla for years, and he writes us that it has given good satisfaction to his purchasers, and that the sales will be larger this fall than ever before. He writes that he has some fine testimonials, only two of which have yet come to hand.

W. C. LEAF, of Greensboro, Caroline Co., Md., August 1, 1882, says: I have been using Orchilla Guano for fifteen years lately. I have frequently tried other fertilizers, but fall back on Orchilla. I believe it is a good, permanent improver of poor land.

COMEGYS SMITH, of Ridgely, Montgomery Co., Md., Aug. 1, 1882, says: I used Orchilla Guano on a wheat stubble last fall, having been so washed off, as to leave the ground pretty much of a level with the surrounding land. It produced pretty fair wheat, and where there was any soil, I find the wheat, rye and clover well set, showing as there is virtue in it. I purpose using it again.

WASHINGTON D. BAYNES, Goldsboro, Montgomery Co., Md., July 5, 1882, says: Orchilla seems to have given general satisfaction in this neighborhood. My wheat is better than I have had for a long time.

THOMAS W. BOYNS, Denton, Howard Co., Md., July 19, 1882, says: I sowed Orchilla last fall on wheat, at the rate of 250 pounds per acre. The result was very satisfactory. The yield was more than double that of any former year. The land was thin, and I consider the Guano paying well. I believe it to be an excellent fertilizer, and shall use it again this fall.

WM. TAYLOR F. KIRWIN, Taylor's Island, Dorchester Co., Md., Aug. 6, 1882, says: I used Orchilla last fall on fallow land, and made about twenty-five bushel of wheat for every bushel seed. The land was in good condition for the young clover. I am much pleased with the Orchilla, and shall use it this fall.

[illegible], Dorchester Co., Md., Aug. 8, 1882, says: I used Orchilla Guano last fall on my wheat, on some land that was worn so much that it never before yielded more than five bushels to the acre, and the result was satisfactory. The land produced more bushels per acre than it ever did before, and I expect to use it again.

[illegible], Taylor's Island, Dorchester Co., Md., Aug. 8, 1882, says: I sold Orchilla Guano last fall on my wheat, on some land that was worn so far as to yield but little, and the result was satisfactory. The land produced more bushels per acre than it ever did before, and I expect to use it again.
