THE EASTON STAR

TUESDAY, SEPTEMBER 12, 1882.

W. H. ROBSON, Editor.

L. JEFF. MILBOURNE & CO., Newspaper Advertising Agents, 136 West Baltimore street, Baltimore, Md., are authorized to contract for advertisements for THE STAR, at our best rates.

MR. LEWIS CASS SMITH has formally accepted the presidency of the Chesapeake & Ohio Canal, and entered upon the duties of the office. Now we suppose the mouths of those worthies will be closed who insisted that Mr. A. P. Gorman's resignation was all a sham.

An article so favorably known as Hall's Hair Renewer needs no words of praise from us. It has won its way to the highest favor in the public mind, and multitudes who have vainly used other preparations have, on trying this, been made glad by the speedy restoration of abundant locks as in the days of youth.

THE *Ledger* says the naming of any one by the STAR as a candidate for office is sure the run the party named out of the county. The STAR will try it once more, and names the editor of the *Ledger* as the next county collector, and we will bet a big apple that the *Ledger* man don't leave on that account. If he does, it will be the first time he ever run from an office.

IF the Democratic party in Baltimore is not defeated at the next election, it will not be the fault of John T. Mr. McGlone, the President of the Board of Registers. It seems that he refuses to work with the Democratic committee in providing certified lists of the registered voters for the democratic primaries. Gov. Hamilton knew his man when he appointed McGlone a register.

THE Baltimore *Sun* which has heretofore been generally right upon all matters it takes a stand on, has lately been overdoing its reform boom, by insisting on impracticable measures touching the election of a city Democratic Convention. It likewise broke down last week in an attempt to invalidate and discredit the new registration of voters in the city of Baltimore. The *Sun* ought to be more cautious, or place its work in more careful hands.

LADIES will find relief from their headache, costiveness, swimming in the head, colic, sour stomach, restlessness, indigestion, constant or periodical sick headaches weakness in the back or kidneys, pain in the shoulders, and different parts of the body, a feeling of lassitude and despondency by all persons, old and young. It is not unpleasant, is purely vegetable, and is not injurious to the most delicate constitution. None genuine except that prepared by J. H. Zeilin & Co.

Democratic Primaries.

We publish this morning the call of the State Central Committee for Democratic primary elections, to be held in this county on Wednesday, September 27th, inst. It will be observed that Wednesday, instead of Saturday, as heretofore, has been fixed by the State Committee, and of course our county committee had to abide by the order for holding the primaries on that day. It is important that all Democrats in the county should register, and attend the primary meetings, and vote for delegates to the county convention which elects delegates to the Congressional and Judicial convention.

A Word to Democrats About Registering.

Democrats of Talbot; have you all registered? If you have not, this is your last chance. The registers will continue to sit the balance of this week, and will then close the September sitting. All who have not registered should do so at once, so that they may be in a position to vote at the November election, when Judges for *fifteen years*, and a member of the 48th Congress are to be elected.

It must be remembered that the Judges appoint the County School Commissioners, and if the schools are to be continued under Democratic control, so as to assure that in no case there will be mixed schools in the county, Democrats must register and thus be in a position to aid in the electing a Democrat court. This is a matter of vital importance that should not be neglected by any Democrat.

The Democrats throughout the country are making a strong effort to carry the House of Representatives of the 48th Congress, so as to assure a modification of the tariff, the abolition of the internal revenue system, and other financial reforms. The Democrats cannot elect a Democratic Congress unless Democrats register and vote. And Democrats cannot vote unless they first register.

Remember there is an entire new registration going on. The fact that your name is on the old registration list will avail nothing. Unless you are on the new registration list you cannot vote.

Next year there will be elected a Governor, Comptroller, Attorney General, legislature and county officers. If you do not care about voting this year you may want to vote next year, and if you are not registered this year, sickness might prevent you from registering next year. So it is safest to be registered at once, so as to be in a position to vote when you want to.

When Democrats were disfranchised by the Republicans, the wrong was denounced throughout the State. Every Democrat wanted to register and wanted to vote. Now there is no impediment to registration and voting, and many Democrats are disposed voluntarily to disfranchise themselves! This should not be so. The exercise of the suffrage is the most important and sacred right of the freeman, and every Democrat should register and vote; then his sentiments may be expressed at the polls, and his individual preferences at the primary elections.

Remember that, under the Democratic call you will have no right to vote at the primary elections unless you are registered. This is a matter that should not be overlooked.

The presidential election takes place in 1884. If by failing to register this fall and next, Democrats allow the State to go Republican, the Republican party will gain such strength and confidence, that it will be sure to carry the State of Maryland for the Republican presidential ticket, and without the vote of Maryland it will be impossible to elect a Democratic president in 1884.

Surely these considerations should impel every true Democrat to do his duty as respects registration.

Maryland is a Democratic State, but she cannot be kept Democratic, unless all Democrats register and vote.

Democrats should make inquiry this week concerning all who have not registered, and persuade the indifferent to go and register. Much can be done in a few days if all will go to work.

The Democrats of every neighborhood should get together and try and find out who have not registered, and make arrangements to have them register before

"Let Him Who wins It Bear The Palm."

"He who cures the ills of flesh" quoth the sage, "is even greater than he who conquers in war." Certain it is then, that Dr. Swayne has erned the laurel of greatness. His Ointment for skin diseases has been the means of releasing thousands from the indescribable horrors of that complaint. The best evidence of an article is obtained by a practical test, and the unsolicited indorsement of those who profit by its use.

The War in Egypt.

Turkey has knocked under to England, and entered into an agreement to furnish a contingent for Egypt, to aid in suppressing the irrepressible Arabi Bey. The Turkish troops are to land at Port Said. Turkey, at the instance of England, has issued a proclamation denouncing Arabi as a rebel and commanding him to lay down his arms and submit to the Khedive.

Arabi Pasha made a fierce attack with 13,000 men on the camp of Sir Garnet Wolseley's army at Kassassin on Saturday morning, but were repulsed with great loss of men and Krupp guns. The Egyptians were driven back into their fortifications at Tel-el-Kebir. The English are preparing for an early advance on the enemy's fortified position at Tel el-Kebir.

Artesian Wells.

An artesian well has been sunk at Chesterwood, the free summer excursion resort, 111 feet deep. It was commenced a couple of weeks ago and finished yesterday. It is reported to yield an abundant supply of pure water in a steadily flow. The boring in the last part was through earth which yielded water so salt that very little evaporation caused the deposit of crystals. Heretofore water had to be carried from Baltimore to Chesterwood. An artesian well was sunk a short time ago at Hawkins' Point, nearly opposite Chesterwood, for the City Hospital, and there was no indication of salt deposit. The first 50 feet was through sand, clay and gravel; the next 13 feet through white clay, the next 37 feet through mud, salt water, lime, large gravel and boulders. Then came four feet of white clay, with pure water underneath.—*Balto. Sun.*

has left unanswered its opinion of the re-election of Mr. Jesse K. Hines as Insurance Commissioner. THE STAR uttered its opinion on that subject some time before the appointment was made; and subsequent to THE STAR'S expression of approval of Mr. Hines' re election, we understand nearly all of the leading insurance men of Baltimore solicited his re-election. THE STAR cannot be wrong in such company. Now, we should like to have the opinion of the *Mail* as to the justice and policy of appointing to office those who vote against the regularly nominated ticket over those who vote the ticket and work for the success of the party? The *Mail* has dodged that issue, and we should like to have its inmost thoughts on the subject. Does it think that kind of prescription calculated to strengthen and build up the democratic party? Would it think it right that, while it was fighting for the success of the democratic party in Washington county, after the party was successful, for it to give the county printing to another paper that opposed the ticket? A true answer will reach the true inwardness of Gov. Hamilton's policy.

THE Republican party organ of this county has repeatedly charged that a fraud was committed by Democrats at the last election, whereby Mr. Woodall was deprived of a seat in the Board of Commissioners.

Though the same vehicle it has even been stated that the men were "known" who committed the fraud, and that they could be pointed out.

Now, however, after the passion of the hour has passed away, the Republican party in convention assembled, solemnly declares that it not only does not "know" who committed the alleged fraud about which its organ has lashed itself into fury, but is not willing now to say that a *fraud was even committed.*

Now, does not manliness and fair dealing and common honesty between man and man require that some apology, some reparation, should be made by that organ for the false and slanderous and malicious charges it has published against the judges of our court, and against our county officials, and against honorable Democrats in this community, who by its party's acknowledgement and confession are innocent.

It was useless to say to our Republican friends last November, while they were smarting with rage at the loss of a commissioner, that they were mistaken, for they would not listen to reason. It was useless then to tell them that our court was incorruptible, and could not be swerved a hairs breath from the right, for they would not listen, but now, notwithstanding the action of the court in deciding the case, the Republican organ frankly admits it to be "learned and incorruptible."

An Old Friend with a New Face.

"My dear Rose," said Miss Maclever, "where did you acquire that brilliant complexion? It seems to me that you are still the beautiful girl of eighteen whom I knew twenty years ago." "My friend," replied the lady addressed, "it is not me you are complimenting, but 'GLENN'S SULPHUR SOAP.' Have you never before witnessed its effect? *There is nothing impossible to its powers as a beautifier.*" Beware of counterfeits. See that "C. N. CRITTENTON, Proprietor," is printed on each packet, without which none is genuine. Sold by druggists and fancy goods dealers.

If there ever was a specific for any one complaint, then Carter's Little Liver Pills are a specific for sick headache, and every woman should know this. Only one pill a dose.

HILL'S HAIR AND WHISKER DYE, black or brown, fifty cents.

There is scarcely a Republican in the county, white or black, who has not already registered. They hope by all registering to elect their member of Congress and Judges, and they can only be disappointed in their calculations by all Democrats registering and voting in November.

The following is the notice of the Registers, showing where they will sit this week and warning all entitled to register to call on them and get registered. Those Democrats who have not registered should read the notice, and lose no time in having their names properly placed on the books of registration.

TO THE FARMERS OF TALBOT COUNTY, MARYLAND.

We Desire to Call your Attention to the Superior Merits of

ORCHILLA GUANO

AS A FERTILIZER FOR

WHEAT AND GRASS.

The advantages resulting from its use are not only an increased yield, but the permanent improvement of the soil from the abundant growth of grass which is sure to follow.

ORCHILLA GUANO has been used extensively in Maryland, Pennsylvania and Virginia for several years, and from its abundant success everywhere, especially among the farmers of your section, we are justified in confidently recommending it to you as being well adapted to your soils. No fertilizer offered for your use has had such amazing success and continued popularity. Some of the largest and best farmers in these three States use it almost exclusively.

It is successively used, because it is Nature's own provision for her exhausted fields.

It is low priced, because we have none of the expense of manufacture, and disregarding its high grades of Phosphates, we have based our price upon its actual cost to import.

We refer you below to some of your people who have used it, and ask you to enquire of them as to its merits.

WOOLDRIDGE, TRAVERS & CO., IMPORTERS, BALTIMORE, MD.

READ THE FOLLOWING LETTERS:

JOSEPH E. MCKNETT, of Middletown, Dorchester County, Md., says: I purchased in 1871 the first ton of Orchilla Guano ever used in this county. I then tried it in competition with a Standard Phosphate, that it did so much better than the Phosphate that I again used it by the side of another Fertilizer with the same result. I have continued to use it every year in competition with one or more standard brands, and in every case it has done better for me than any of them. For the future I don't think I shall use any other, unless in some quantities for test, or because I cannot procure Orchilla.

JESSE HUFFINGTON, of Eden Station, Somerset Co., Md., says: I have been using Orchilla Guano for a number of years. I have tried it carefully on my own land, and I have seen its results on my neighbors' lands also, and I assure you I cannot say enough in its praise. From the condition my land is in now, I am free to say that I consider it the best crop I raised from Orchilla, I would have been well repaid by the improvement of my land, even if the crops had not been good. I could get any fertilizer in the market at the same price as Orchilla, I would far rather take Orchilla, because I have proved to my satisfaction that it is not only good for one crop; but it is a permanent improver of the soil, and will insure fine grass for years to come. I don't care how poor the land is, I believe Orchilla will bring it up. I have seen it do it. My neighbors think so, too, and there will be twice as much sold in this neighborhood this fall as was last. I am sure I will have nothing else.

JOHN S. VINCENT, of Linkwood, Md., has been selling Orchilla for years, and he writes us that it has given great satisfaction to his purchasers, and that the sales will be larger this fall than ever before. He writes that he has some fine testimonials, only two of which have yet come to hand.

WM. C. SATTERFIELD, Greensboro, Caroline Co., Md., August 1, 1882, says: I have been using Orchilla Guano for fifteen years largely. I have frequently tried other fertilizers, but fell back on Orchilla. I believe it a good permanent improver of poor land.

JOHN M. SMITH, Sandy Spring, Montgomery Co., Md., Aug. 1, 1882, says: I used Orchilla Guano on a barren hill-side, the soil having been so washed off, as to leave the ground pretty much clear of signs of vegetation. It brought pretty fair wheat, and where there was any soil, I find the timothy and clover well set, satisfying me there is virtue in it. I purpose using it again.

WASHINGTON D. WATERS, Goshen, Montgomery Co., Md., July 3, 1882, says: Orchilla seems to have given general satisfaction in this neighborhood. My wheat is better than I have had for a long time.

JESSE W. BOWNS, Dayton, Howard Co., Md., July 19, 1882, says: I sowed Orchilla last fall on wheat, by the side of two high priced fertilizers, about 450 pounds of each per acre. I could see no difference in the wheat. I also sowed it on rye, and made a fine crop. All used in this neighborhood have given satisfaction. The farmers all speak well of it. I shall use it again this fall.

THEO. T. SPICER, Taylor's Island, Dorchester Co., Md., Aug. 7, 1882, says: I applied Orchilla Guano to my wheat last fall at the rate of 250 pounds per acre. The result was very satisfactory, the yield being much largerthan the yield of any former year. The land was thin and I consider the Guano paid me well. I believe it to be an excellent fertilizer, and shall use it again this fall.

SOLOMON F. KIRWIN, Taylor's Island, Dorchester Co., Md., Aug. 6 1881, says: I used Orchilla Guano last fall on fallow, and made about twenty-five bushel of wheat for every bushel seeded. It had a most striking effect on the young clover. I am much pleased with the Orchilla, and expect to use it this fall.

E. L. GRIFFITH, Taylor's Island, Dorchester Co., Md., Aug. 8, 1882, says: I used Orchilla Guano last fall on loamy, sandy soil, from which I never before reaped more than 8 or 9 bushels to one seeded. This crop yielded eighteen for one. Part of the field was treated with gas-house compost, and the straw there was a little heavier, but the grain from the Orchilla was heavier and plumper. I am satisfied it paid me 100 per cent. I shall want considerable this fall for wheat seeding.

JEREMIAH SPICER, Taylor's Island, Dorchester Co., Md., Aug. 2, 1882, says: I used Orchilla Guano last fall on my wheat, on corn land at the rate of 170 pounds to the acre, and the result was entirely satisfactory. The land yielded more bushels per acre than it ever did before, and I expect to use it again this fall.
