—Peterson's Magazine for October is unusually brilliant. It has two colored patterns, a very fine steel engraving, "The Woodland Bath," a beautifully colored steel fashion-plate, with the latest styles, among others, of wedding-dresses. There are, besides, some fifty wood-engravings of fashions, patterns in embroidery, etc., etc. The stories, as always in "Peterson," are all original and all first-rate. We note particularly "Nan's Masquerade," by the author of "The Second Life." But the article of the number, because so appropriate just now, when everybody is talking of Egypt is one on "Cairo and the Khedive's Harem," illustrated with numerous spirited engravings. We know no magazine that so completely fulfils all the qualifications for a lady's book; and that is the reason, doubtless, why "Peterson" has had such a long and enduring popularity.

OXFORD, MD., Sept. 15, 1882.

MR. EDITOR: Over a year ago the thought entered to my mind that I might render the people of Talbot and adjoining counties a good service by introducing some of my favorite remedies for the purpose of driving out of the market some of the many worthless nostrums now flooding the country; and accordingly the thought was put into action, which I found both difficult and expensive work; for no sooner than it was done slander and prejudice arose mountain high, which so worked upon my sensitive feelings as to grieve me for having attempted such a thing. However, I kept on with the work, hoping and praying to over come popular prejudice by proving these medicines were all that was claimed for them, and that my efforts and intentions were honest; and to-day I am proud to say the victory has been gained after a hard fought battle, and that the robes of prejudice are falling off, for Ague Bitters are now sought by the rich as well as the poor, as a necessity. I thank the press of this county for the interest they have manifested in my behalf, and the people of Talbot for their patronage. I am sensible of the fact that the people of this county are not easily duped or humbugged, which is all the better for me, since they now have the best of proof that I am not, nor have been, trying to humbug them. Instead of tampering with these medicines for mercenary motives as many unscrupulous scoundrels would do after they have become a necessity, I shall endeavor to improve and make them better, as time will prove. With these remarks I will close.

Truly, &c., DR. J. ZACK TAYLOR.

The Rose.

A Treatise on the Cultivation, History, Family Characteristics, &c., of the various groups of Roses, with accurate Descriptions of the Varieties now generally grown. By H. B. Ellwanger, Mount Hope Nurseries, Rochester, New York. Dodd, Mead & Co., publishers, New York. Price $1.25. For sale by Minnick & Son, Easton.

It was by mere accident that we picked up this little volume at Minnick's book store, and we do not know when we have read a book with so much pleasure. Having had considerable experience as an amateur in the out-door cultivation of the rose, we have had to rely chiefly for our knowledge on the catalogues sent out by the various rose propagators of the country; and these give very little information beyond the names, varieties, and colors of the various kinds. But in Mr. Ellwanger's book we have everything on the subject desirable to know, together with his admirable criticisms on some 956 different named varieties, discriminating between the valuable and the worthless, and between those that should be raised under glass from those adapted to out-door cultivation. To any one intending to plant from 50 to 100 roses, this book is worth ten times its cost, as it will prevent the inexperienced from working in the dark, and gives all necessary directions for selecting the most desirable varieties and the most approved methods of cultivation. We cannot too strongly commend the book to our readers, especially to the ladies who delight in the cultivation of the rose.

An Important Moment.

It is puzzling to decide between the rival clothiers, where a man should buy his clothing. If he seeks enlightenment by reading the advertisements, for he will find each to claim to sell cheaper than the other, &c., we say to you, buy from a house of known reputation for square dealing, where goods are sold by the manufacturers themselves upon precise statements as to kind and quality, and at a strictly uniform low price, and where you can go back for your money, if after reaching home you should think you had purchased unwisely. Such a house is C. N. Oehm & Son, 230 W. Pratt St., through to 55 Hanover St., Baltimore, Md.

Postponement of Mr. Sherwood's Sale.

In consequence of another sale having been advertised to take place on Wednesday, Sept. 27th —the day fixed on for Mr. John W. Sherwood's sale, near Cordova, in Chapel district, to accommodate Mr. Roe, the auctioneer, who is engaged for both sales, Mr. Sherwood's sale has been postponed one day, and therefore, instead of Wednesday, 27th, it will take place on Thursday, September 28th inst. The handbills give Thursday, 28th, the right day for the sale. People will therefore please remember Thursday as the day, and not Wednesday.

Reduced Rates to Delaware State Fair.

In accordance with the usual custom the P., W. & B. R. R. Co. will sell excursion tickets at half rate to Dover during the continuance of the Delaware State Fair, to be held at that place Sept. 25th to 29th inclusive. Those tickets include an admission to the grounds and will be good to return until Sept. 30th. In addition to the regular trains, which will all stop at the Fair Ground, special trains will leave Delmar at 7.30 a. m and Oxford at 7.50 a. m. during the exhibition, and stop at all intermediate stations.

The "Practical" Difference between Poetry and Philosophy.

It sounds very poetic to say "man's inhumanity to man makes countless thousands mourn," but why not apply the principle to the more practical side of the subject, and render the quotation thus—"Swayne's Ointment on account of stopping the itching caused by the Piles has made countless thousands well and happy." There would be sound logic in this but poets are never cheerful, are they?

All Ladies Know their faces are more attractive when free from pimples. Parker's Ginger Tonic is popular among them, because it banishes impurities from blood and skin and makes the face glow and the eye sparkle with health.

HUBBARD'S

STANDARD PHOSPHATE

Acknowledged the Wheat Fertilizer of the Country.

The gratifying results that have been obtained from the use of our Standard for the last 10 years, as well as the present crop, seem to be crowned with larger yields than ever. All goes to prove to us beyond a doubt that we have not failed in the great object we had in view, and that to make our goods a profit to our customers. The value of a Super-Phosphate depends upon the way and manner the combination of material are applied together, which by our scientific process we are enabled to guarantee quality, uniformity and condition, as will be seen by analysis below.

PROF. P. B. WILSON.

The question has been asked us, how can we afford to sell our goods showing by analysis a Cash value of $40 and over for $35 per ton. To which we answer, By producing the largest amount of Soluble matter from the materials that is capable of being produced. If from the same materials we only produced half the amount of soluble matter, we would only get half the value. This being the only correct guide for the farmer in selecting his fertilizer, we would suggest that other manufacturers who are selling in our county to publish their analysis, and show to the buyer the value of their goods. We hold all the original copies of our analysis which can be seen at our office. Our stock is heavy, several hundred tons, and all the best grades for drilling. We hope our patrons will send in their orders early, as we have but one time of settlement and that at the close of the season, and besides give them goods in better order and avoid disappointment.

New and Fashionable

MUSIC

FOR

Five Cents

Big Lot Just Received.

This music is NOT the cheaply gotten-up five cent TRASH of late so largely disseminated in the cities. Neither is it stale, accumulated, shopworn stock. It is Genuine, Legitimate, Copyright and non-Copyright Popular Music of the Day, executed in the highest style of the Music Electrotype Plates, on Best Plate Paper, which all formerly sold for 30, 50, 75 and $1.00 per copy, we now sell by us for FIVE CENTS. This departure from long established rules is really a Great Revolution in the Divine Art.

The above big lot, together with the large stock previously on hand makes our collection Larger than Combined Stock of all Dealers on the Eastern Shore of Maryland.

We will freely give sensible and practical hints in the art of playing any Music bought of us.
