TO FARMERS.

I have for sale a new variety of wheat which has been grown in the counties of Queen Anne's and Talbot for the past six years. The yield has never been less than 18 bushels for one seeding and has been as high as 44 for one. The grain in appearances like "Fulte." The great virtue of this wheat lies in the strength of the straw, and the size of the head which is heavily bearded; some of the heads in my field this year contained as many as 85 grains. I have a limited quantity which I desire to sell for seed, and shall be glad to give further particulars to any desiring to try what I consider an unusually productive wheat. Price at my barn $3 00 per bushel. Samples may be seen at Dawson & Bros., and the office of this paper.

Miscellaneous.

The Hindoo thief's manner of scaling walls is very ingenious. It is by means of a huge lizard, which he carries with him in his nocturnal rambles. The process is as follows: The lizard, which is perhaps a yard in length, with great claws and flattened feet and suction powers like those of the fly, is made fast to dacoit by a tough coard tied to his tail. When the dacoit is pursued and comes in his hasty flight to a wall, he quickly throws his lizard over it, holding fast to the other end of the cord. By means of its suction powers the lizard fastens himself to the wall on the opposite side, and the thief draws himself to the top, and jumps lightly down. By choking the lizard it is made to release its hold.

An old game keeper, named John, kept a starling which could talk a little. When, for instance, when the game-keeper said, "Where are you, bob?" the starling answered, "hear I am." Charles, the neighbor's son, took great delight in the bird, and often came to see it.—Once, Charles came when the keeper was out. He quickly seized the bird and put it in his pocket to carry it away But just as he was running out, the keeper came in, and thinking to give the boy pleasure, he called out—"Bob, where are you?" and the bird replied from the boy's pocket, "Here I am!"

A census enumerator in Alabama found an old colored woman 114 years of age. She was very proud of it, and to try her age, he said: "Old lady, you must have heard the Roman empire when it fell." "I don't 'zactly 'member de dircumstance you spoke of now, but I heard a mighty rumbling noise de year the stars fell, and I spec' it must a been dat. Thinks was constant fallin' dat year, and if it fell in old North Carolina you bet your bottom rag, honey, I was dar."

A teacher in a Galveston Sunday school wishing to impress his class with the necessity of faith, asked the class why did Moses lift up the serpent in the wilderness. None of the class knew except one. He said Moses lifted it because he knew it couldn't bite. It was the same youth who said the Jews made a golden calf because they didn't have enough gold to make a whole cow.

A gentleman who happens to own a paddock, and who had tried every effort and tried in vain to pevent tramps from making a short cut through it, was eventually persuaded to stick up the following notice; "Beggars. Beware! Scolopendriums and Polypondiums planted hear." The effect was marvellous, and the annoyance ceased.

Mr. Smith is bound to have his joke. His wife walked nearly in front of a rail way train the other day, and he said that if she had gone a "step farther" his children would have had a "stepmother."

"Now, George, you must divide the cake honorably with your brother Charlie." "What is honorable, mother?" "It means that you must give him the largest piece." Then mother, I'd rather Charlie would divide it."

"Your pulse is still very high my friend. Did you get those leeches all right I sent the day before yesterday?" "Yes, sir, I got 'em all right enough, but mighty'd I have 'em biled the next time?"

A little girl read a composition before a minister. The subject was "a cow" She wove in the compliment ary sentence "A cow is the most useful animal in the world except religion."

There are very few sermons preached which better sum up the whole matter than the speech of the little boy who said: "I want to grow good and gooder every day of my life. Amen."

A western editor, in response to a subscriber who grumbles that his morning paper was intolerably damp, says "That is because there is so much due on it."

THE BEST REMEDY

FOR

Diseases of the Throat and Lungs.

In diseases of the pulmonary organs a safe and reliable remedy is invaluable. AYER'S CHERRY PECTORAL is such a remedy, and no other so eminently merits the confidence of the public. It is a scientific combination of the medicinal principles and curative virtues of the finest drugs, chemically united, of such power as to insure the greatest possible efficiency and uniformity of results. It strikes at the foundation of all pulmonary diseases, affording prompt relief and rapid cures, and is adapted to patients of any age or either sex. Being very palatable, the youngest children take it readily. In ordinary Coughs, Colds, Sore Throat, Bronchitis, Influenza, Clergyman's Sore Throat, Asthma, Croup, and Catarrh, the effects of AYER'S CHERRY PECTORAL are magical, and multitudes are annually preserved from serious illness by its timely and faithful use. It should be kept at hand in every household for the protection it affords in sudden attacks. In Whooping-cough and Consumption there is no other remedy so efficacious, soothing, and helpful.

Low prices are inducements to try some of the many mixtures, or syrups, made of cheap and ineffective ingredients, now offered, which, as they contain no curative qualities, can afford only temporary relief, and are sure to deceive and disappoint the patient. Diseases of the throat and lungs demand active and effective treatment; and it is dangerous experimenting with unknown and cheap medicines, from the great liability that these diseases may, while so trifled with, become deeply seated or incurable. Use AYER'S CHERRY PECTORAL, and you may confidently expect the best results. It is a standard medical preparation, of known and acknowledged curative power, and is as cheap as its careful preparation and fine ingredients will allow. Eminent physicians, knowing its composition, prescribe it in their practice. The test of half a century has proven its absolute certainty to cure all pulmonary complaints not already beyond the reach of human aid.

Sold at a very small profit on cost of production and clear of Agents' commissions.

THE COMPOSITION NO SECRET.

Made Without Sand or Dirt.

FOR SALE BY

THE OXFORD GUANO CO., Oxford, Md.

W. H. SETH, Secretary.

The attention of Farmers who desire to secure a good fertilizer at a reasonable price, is respectfully called to the above named brand.

The object of the manufacturers has been to originate a compound of plant foods directly adapted to the soil of the Eastern Shore of Maryland, and to fix the price therefor at the lowest possible figures, selling off all agents fees of $5 and $6 per ton and adding to the actual cost only a very small profit. We think this fertilizer has as much intrinsic value as most of the high price manures, and feel confident that farmers who may think proper to use it will say, that in its effects upon the soil, it will equal them.

The analysis, as made by Prof G. A. Liebig, shows it to contain:—

Ammonia, from	75 to 1.25	per cent.
Phosphoric Lime, from	5.00 to 7.00	"
Lime	33.10	"
Carbonic Acid	26.97	"

The lime and carbon, which are essential to plant growth, are obtained from oyster shells ground to powder, instead of being burnt. This combination not only dispenses with the necessity for dirt or sand to hold the chemicals, but is a most valuable assistant to their action.

We are also manufacturing ground lime, which we propose to put upon the market at a low price. aug30-6m

My ware-house contains 3500 square feet of flooring, which is at all times covered with stock pertaining to my business, and which will be sold as cheap or cheaper than can be bought here or elsewhere.

Having no other trade or profession, I am in the business for life, health permitting, and do not intend to be undersold or excelled in any particular pertaining to my business.

Myself and son Harry will give our personal attention to the business, and I recommend him as capable to attend to all business in my absence.

To the Farmers.

THE TALBOT COUNTY PAPER MILLS COMPANY will now contract for WHEAT STRAW, to be delivered at a convenient time hereafter. A little more care in stacking and ricking, will insure so much better keeping as to enable farmers to spare at least half of their straw, the cash for which would nearly pay for their phosphates.
