I. N. MILLS, Supt.

Oct. 9, 1882.

Skipton Packet Line.

The Fast Sailing Schooner

ELIZA ANN,

CAPT. JOHN A. CATRUP, Master, Capacity 3,500 bushels, makes regular trips between Skipton and Baltimore to Baltimore. Grain and all other kinds of freight freighted on moderate terms. Ample store room for grain at Skipton Landing. Orders left with George E. Bowdoin & Co., Bowley's Wharf; Kinley & Tilghman, Bowley's Wharf and Emory & Neavitt, 88 South Street, Baltimore, promptly attended to. The patronage of the public solicited. All orders for goods must be accompanied with the CASH. Orders received at Skipton by the Captain or J. A. F. Neal.

N. B.—The Granary at Skipton landing has been thoroughly repaired, and made perfectly secure for the storage of grain. Having leased the granary for a number of years, and embarked permanently in the boating business, I have ample granary and loading facilities for accommodating the business of the neighborhood, and respectfully solicit the public patronage. JOHN A. CATRUP.

SKIPTON, June 27th, 1882.

nov29,81yr.

Farmers and Merchants Packet Line.

The Schooner Mary Vickers, Clara M. Leonard and Annie M. Leonard.

The above boats are making weekly trips between Easton and Baltimore, and will do all kinds of freighting as cheap as any other line. Every effort will be made to give satisfaction. Our boats are now and built out of the very best material. Orders left with Messrs. G. E. Bowdoin & Co., Commission Merchants, corner of Bowley's Wharf and Pratt St., Baltimore, will be brought or taken at the lowest freight rates. All freight stored in our Warehouses, in case of fire will be owners risk. Agricultural Lime delivered at the lowest prices. Feeling thankful for the past favors, we hope by strict attention to business, a continuance of the same.

G. E. LEONARD & BRO.

Office in same room with R. B. Dixon on Dover street, Easton.

Notice to Creditors.

The omnibuses of the subscriber run regularly to the depots to meet all trains. Parties may also call at Parsons' Hotel or private residences called for at any hour by leaving word at my office, on Railroad Avenue. Horses and carriages for hire at all times at my livery stable. Travellers conveyed to any part of country or points in Maryland. Handsome hearse attached.

LUTHER W. GOVER.

Easton March 25th, 1879.

Livery and Exchange.

FRANKLIN G. WRIGHT, next door to The Easton Gas office, informs the public that he has hired the TRIPE HOTEL STABLES, near his office, and continues to give strict attention to feeding and accommodating horses. He has several fine carriages, and facilities for accommodating parties to any section of this or adjoining counties. He hopes by strict attention to business, and good care of horses, to merit patronage of the public patronage.

March

A Large Stock of Cigars, manufactured, Key West and domestic cigars at HAYWARD & Bro.

Mercantile.

To Farmers

The attention of farmers is called to the

MCKORD & HUFFMAN DRILL.

I have sold between one and two hundred of these celebrated drills in the last two years, without a single complaint. They are admitted to be the best in the market. Last year I could not supply the demand for them, because they came late, giving their orders late. All who want them this season will please give me their orders early, so that they may be no disappointment.

The attention of farmers also called to the celebrated

Oliver Chilled Plow.

I have sold over five hundred of these plows within the last two years without complaint. They are acknowledged by farmers to be the best plow in use. As I have made arrangements to supply them hereafter at a

REDUCED PRICE,

Those who want will find the present a good time to order.

Milking Qualities.

A copious flow of milk, sustained through many months, is a quality which has been produced by art in domestication. Wild cattle rarely provide more than enough milk to rear their own calves, and the flow of it is of comparatively short duration. Small in volume, the milk is rich in quality, but the lactal drains soon dry off again. This, of course, is in harmony with the requirements of the young animals in a wild state, and is a correlation of the roving life and the haphazard feeding of the dams. More milk than the calf requires under such conditions would be a waste of material energy which nature does not encourage. It would, moreover, be an encumbrance to the mother. Wild cattle are neither good milkers nor good fatteners, and in parts of England where calves are allowed to run with their domesticated dams generation after generation, the breed of such animals are not famous for milk giving. Like that of the mare and ewe, the milk is smaller in quantity, rich in quality, and of short duration. The desultory and irregular sucking of a calf or foal or lamb is not conducive to the development of a large flow of milk, and it distinctly tends to shorten the flow. Hand milking of a similar character has the same effect. Young people are allowed to learn how to milk on cows which are going dry or calving, not on those which are still in full flow. New beginners soon dry up a cow's milk, and bad milkers do the same.

Heavy milking proprieties, then, are artificial, in the sense that they have been developed under domestication, and, by careful breeding, for a given end; yet, like many other qualities, which are little more than mere germs in nature, they become heredity by long usage. Few sorts of animals, if any, are more susceptible than cattle of being moulded into what we want, no physical quality is so easily trained and developed as that of giving milk. It is a function which, constantly varing of itself, can be dwarfed or extended at will. By means of intelligent training, kind treatment, and intelligent breeding, it can be developed and made hereditary; an opposite system keeps it in a state of nature. The nature of a cow and the food she receives have a great deal to do with her milking powers; quick and silent hand milking cows has all along tendered greatly to the development of the lacteal glands, and this development has become hereditary in our best milking breeds. The ewes of the Larzac breed of sheep, from which the famous Roquefort cheese is made in France, have been hand milked for generations, so that their milking proprieties are now considerable and inherited. By repeatedly exciting the teats it is even possible to cause an animal that has never borne offspring to yield a small quantity of milk, and a cow sometimes remains barren several years after having had a calf, giving a profitable quantity of milk all the while.—*London Live Stock Journal.*

Farm and Garden Notes.

Orchard grass is very early in growth and furnishes good hay. It starts out fresh immediately after each mowing.

In rotating vegetables the land should not be used for crops having a similarity to those preceeding them. Cabbages, for instance, should follow peas, and celery follow cabbages.

A spoonful of Paris green in a pail of water is recommended for killing cinker worms. It should not be sprinkled over plants of which the leaves are eaten, such as lettuce, etc.

A correspondent of the Blacksmith and Wheelwright says: "The best remedy I have ever found for horses clicking or striking their hind shoes against the forward ones is to put on high toe calks and low heels on the hind shoes. If my brother smiths are incredulous concerning this remedy, I advise them to try it and be convinced.

Be careful about permitting cattle to drink from ditches, or from pools in which they are accustomed to stand, or in which their droppings are deposited. Such impure water is not only liable to injure the health of the stock, but is also a fearful cause of malarial and typhoid fever among those who use milk product from cows thus watered.

Many dairymen practice milking their cows steadily without allowing the animal to go dry. They feed heavily on corn meal and oil cake until the milk fails, when the cow is replaced by a fresh one. A dairyman who keeps one hundred and fifty cows says such a practice is more profitable than to lose the time between their going dry and coming in.

The Germantown (Penn.) Telegraph says: "Judge Miller, of Missouri, being on a visit some time ago, mentioned to us a fact discovered by himself in which a full week can be gained in getting sweet corn for boiling. He said it was that as soon as the ear is formed break the top down or cut it off, but have the stalk erect, in order that the pollen of the tessel will be sure to dust the silk of the ears, as they may not be fully fertilized should the stalk be topped. He stated that he had experimented for years, and was entirely satisfied that it was uniformly practical and of value.

Household Hints.

Steel knives may be saved from rusting by being rubbed with mutton tallow, wrapped in paper, and put into a tinner lined chest.

A little celeratus rubbed on with the finger or a bit of linen, will remove stains from cups and other articles of tableware. It will also remove spots from marble and oilcloths, and many stains from tin ware.

To remove grease stains from wood, spread some corn-starch powder over the grease spots, and then go over it with a hot flat-iron till you have drawn the grease; then scrape with a knif or a proper scraper, and repeat the starch powder and hot iron. Ammonia liquor may be used as a finish, if the stain does not take all the grease out.

A man who detected a piece of bark in his sausage, visited the butchers shop to know what had become of the rest of the dog—The butcher was so affected that he could give him only part of the tale.

A Detroit sign reads, "Wanted, a young man to drive horses up stairs."

Malaria, Chills and Fever, and Bilious attacks promptly cured with Emory's Red Jacket Pills—an infallible remedy. Never fail to cure the most obstinate long standing cases where Quinine and all other remedies had failed. Are compounded expressly for American constitutions in feeble health. Two kinds of Pills, containing a strong cathartic and a child's teacher, sugar-coated; contains no Quinine or Mercury, causing no griping, sickening; they are mild and gentle in their action, yet thorough in all their effects, giving new life and tone to the whole household remedy they are invaluable. For Liver Complaint their equal is not known, and will have a wonderful effect on the worst cases. They are now prescribed by Physicians, and sold by Druggists everywhere, or sent by mail on receipt of price, 25 cents per box, five boxes for $1. Address, Dr. Emory & Co., Lowell, Mass. Sold by Druggists, Kennedy & Kidder, Druggists, New York.

CHARLES A. MILLER'S

[TRADE MARK.]

QUINTESSENCE OF

Phosphated Iron, Quinine & Strychnia.

Put up in Pill and in Liquid Form.

And is a cure for DEBILITY resulting from any CAUSE, THINNESS or SLUGGISHNESS of the BLOOD, DERANGEMENT of the DIGESTIVE ORGANS, Diseases of the NERVOUS SYSTEM, TYPHOID and INTERMITTANT FEVERS, AGUE and FEVER, and is the very best counteracter of MALARIAL INFLUENCES and cure for MALARIAL DISEASES, and as a NERVINE and SEDATIVE, quieting the NERVOUS SYSTEM, and inducing refreshing sleep it has no equal. It is indorsed by MEDICAL PHYSICIANS and is frequently prescribed by them in their practice, and is considered one of the very best remedial agents known, for the Disease for which we recommend it. We challenge the closest scrutiny into its composition and virtues.

Read the following:

EXPLANATION OF THE ABOVE MEDICINE.

PHOSPHORUS—Means light, and medically imparts strength and vigor to the system, as the rays of the sun do to animal and vegetable life. Iron—Is a principle author of the blood, the most important of the constituents of the human body.

QUININE—Is the Tonic of Tonics, and exercises a powerful and healthful influence upon the digestive organs, and finally.

STRYCHNIA—In a very small proportion (as in this combination) is a most excellent nervine, acting upon and regulating the entire nervous system.

Ask your physician about the above formula, and he will say it is good.

Price in LARGE BOTTLES ONE DOLLAR. " " TRIAL " 25 CENTS.

" " PILLS in BOXES, ONE DOLLAR per box, or SIX BOXES FOR FIVE DOLLARS. Sent by mail to any point, free of charge, upon receipt of price. Prepared and sold by

DAVIS & MILLER,

NO. 12 N. HOWARD ST., BALTIMORE.

A pamphlet of full explanation of the above Medicine and treating of Transportation and administration, and stating the Ailments it will effectually cure, will be cheerfully given to any one who may call on me, or will be sent free to any address furnished by postal card, and will also hereafter among my such bottle.
