THE EASTON STAR

TUESDAY, MARCH 13, 1883.

T. E. ROBINSON, Editor.

L. HEPP MILWAUKEE RD. Newspaper Advertising Bureau (10 Spruce street), Baltimore, Md., is authorized to contract for advertisements in THE STAR at our best rates.

PRESIDENT Grevy is 74 years old.

KEIFER's reign in the House is ended

THE crop reports from California are favorable.

A MEMPHODIST Meeting was recently broken up by rowdies, at Biel, Switzerland.

JOHN Robinson's baby elephant, Sam, valued at $4,000, died at Cincinnati last Wednesday.

SAMUEL G. Wyman, of the dry goods firm of Wyman, Bird & Co. of Baltimore, died last week.

THE waters in the lower Mississippi river are very high, and there is great danger of such another overflow as occurred last spring.

Alexander H. Stephens' Motto.

"Honor and shame from no condition rise;
Act well your part, there all the honor lies."

FROM present prospects, the wheat crop in Europe this year will be very light, and England will require an increased importation from the United States to meet her demands. This is good news for our farmers.

IN speaking of the 47th Congress, the New York *Herald* says, "there is very little in the record to which the Republican majority can point with pride; but there is much in it deserving of popular condemnation."

Now the *Gazette* has given its opinion of Democrats, we respectfully ask if it does not believe there are also Republicans "Young in years and old in corruption?" If there are, both parties stand on the same level in this respect. And if the Republican party is not discredited on this account, why should the Democratic party be? If a comparison of individuals in both parties in this respect is instituted, we do not think the Democratic party had anything to fear.

THE aggregate amount of money held by the U. S. Sub-Treasury last Friday was $367,682,094—an amount almost equal to two years expenses of the government economically administered. To keep such a large sum of money locked up in the government treasury must be exceedingly detrimental to the business interests of the country. But it is the natural result of Republican policy, of keeping the taxes largely in excess of the Federal expenses, against the protests of the Democratic party and the people.

THE *Gazette*'s Democratic "Machine" appears to us to cover a good deal of territory, and if removed altogether, people would not be left much room for thinking or choosing. But the *Gazette* does not explain the Republican "Machine." It will please give us the *secret of one fourth* of its party excluding *three fourths* from all the honors and emoluments of office? *How* it is done? and *why* it is done? And who invented the "machine" for keeping the colored brethren in the back ground? The colored people want to know the whys and wherefores of the thing.

THE special attention of our lady readers is directed to the article we publish to day from the Philadelphia *Inquirer*, giving a report of the award of the Strawbridge & Clothier prizes for 1882, for the best American raised silk, under the auspices of The Woman's Silk Culture Association of Philadelphia. This new industry is specially worthy the attention of our people. The Silk Mulberry flourishes in this section, and silk worms can be raised with very little expense, and if our people would give the subject their attention they would doubtless find great profit in growing silk, as there is now a market for all the cocoons they could possibly raise.

FROM the feelers recently put out in the Easton *Gazette*, it is apparent, should the Republicans secure the next legislature, that Col. R. Clayland Mullikin, of this county, will enter a contest with Hon. J. A. J. Creswell for the United States Senatorship. Col. Mullikin will no doubt be glad enough of an opportunity to pay off the stalwarts for refusing to come to the scratch last fall with the custom house "tariff" in his behalf, and if he could wring the United States Senatorship from their great leader, in retaliation, it would afford him a malicious satisfaction worth $30,000 net. But why not make brother Joe Gray the Republican Eastern Shore candidate for Senator? He wields more influence with the *majority* of Republican voters than either of the aspirants, and is therefore fairly entitled to the first money, according to the rules of the turf.

IT was called "machine" politics when the editor of THE STAR was kept as clerk to the county commissioners for years and years and by which means the office was provided with blanks and other printing, but it is doubtful whether they are all used up yet, although there has been a lapse of more than twenty years.—*Gazette.*

Now we pronounce the insinuation contained in the above a malicious fabrication. The "commissioners' office" was never "flooded with blanks" when "the editor of THE STAR had anything to do with it. The number of blanks used in the office is very small, and in the course of thirty odd years experience in printing, we have never known more than two or three hundred blanks of any one kind printed at one time, and only two or three kinds more than fifty or a hundred at a time. More of the supervisor's commissions and bonds are used than any others, between 50 and 100 of each annually, and we have never known more than 200 of either printed at any one time. The charge is a lie manufactured out of whole cloth, and doubtless intended to keep the colored man's rights out of this discussion. It won't do. The *Gazette* cannot be permitted any longer to ignore his colored brother Republicans, except at the election, when white folks are expected to be elected by darkies. It must toe the mark on negro rights.

"I am the Last of Six."

One rainy Sunday afternoon, something less than a year ago, a pale, consumptive youth walked into the store of C. N. Crittenton, New York, and in weak, husky tones, interrupted frequently by dry hacking cough, asked that he would hand a couple of bottles of HALE'S HONEY OF HOREHOUND AND TAR. "I am the last of six," he said; "the others all died of consumption, and I am going fast. I will try this new remedy, but I have no hope." He did try it; and to some purpose. He took five of Tarine bottles, and is to-day in perfect health—lungs sound, cough gone, not a symptom of pulmonary disease remaining. Sold by druggists.

OPINION OF EMINENT DR R. S. STEUART, President Maryland Hospital, BALTIMORE: "I have used COLDEN'S LIQUID BEEF TONIC for more than a year, and recommend it as one of the most efficient preparations I have ever met with. It combines the virtue of food and tonic in a remarkable way, and I am satisfied has saved life when no other medicine could do so." (Remember the name, COLDEN'S—take no other.) Literary Notices.

THE PEOPLE'S CYCLOPEDIA.

Mr. R. T. Savage, is canvassing this county for this very valuable work. It is printed in two large volumes and sold at $18. It contains a vast amount of information, and much important matter not included in any other encyclopedia. For instance, it contains a complete record of all the important races, both running and trotting, giving the time made, the name of the horse and his sire. To horsemen it is very valuable in this respect as a book of reference.

FRANK LESLIE'S SUNDAY MAGAZINE.

The April number contains even more than the usual attractive features. The Rev. Moses D. Hoge contributes "What is Presbyterianism?" being No. IV of "Religious Denominations in the United States;" the editor, Dr. Talmage, has a characteristic article, "Mending the Bible;" Edward DeLeon continues those deeply interesting papers, "The American Pilgrim in Palestine," etc., etc. There are serial and short stories, a large number of very excellent sketches, some admirably written essays, a sermon by Dr. Talmage, "Homesickness," several poems of great merit; a record of important events, Personal Notes and Comments, Editorial Comments, Obituary Notices, &c. The miscellany is most comprehensive, entertaining and instructive; the number, in fact, overflows with good things, and abounds with illustrations. The price is only 25 cents a copy, or $3 a year, post-paid. Address, Mrs. Frank Leslie, Publisher, 53, 55 and 57 Park Place, New York.

THE ELZEVIR LIBRARY.

Decidedly the most unique venture in a literary way to which the public has been treated, is the Elzevir Library, a new semi-weekly magazine. Each number contains some complete literary gem, a characteristic specimen of the best product of the brain of the author who is represented. It is thoroughly handsome in typography, and convenient in form, and is sold at a price so low that it is startling, only $2 a year, for a volume of nearly 3,000 pages. The separate numbers vary in price; at two cents each we have Irving's famous "Rip Van Winkle," Canon Farrar's brilliant sketch of "The Burning of Rome," Wilson's "Sea-Serpents of Science," Tennyson's "Enoch Arden," the "Life of Sir Isaac Newton," by James Parton, and others; at three cents each there are very handsome illustrated numbers containing "The Life of Gustave Dore," by F. H. Norton, "Queen Mabel," by Ellen Tracy Alden, and "A Half Hour in Natural History," by S. H. Peabody; at six cents there is a "Life of Washington Irving," by R. H. Stoddard; and at seven cents, Macaulay's famous "Life of Frederick the Great;" at ten cents, two really beautiful illustrated numbers, one of which is Bunyan's "Pilgrim's Progress," complete, and the other, Charles Dickens' delightful "Cricket on the Hearth." You can obtain the books from the news or book dealers, or from the publisher direct, who offers liberal terms to clubs. John B. Alden, Publisher, 18 Vesey Street, New York City.

Sale of a Valuable Farm.

Messrs. G. E. Haddaway, J. H. White and R. J. Trippe have bought "Idlewild Farm," near Easton. The farm contains 262½ acres. The sale was made through the agency of Tilghman & Clarke. This farm is generally recognised as one of the most valuable in Talbot county. It has very handsome improvements. In 1860 Mr. T. J. Clarke sold the property to Mr. Emanuel for $26,000 cash.

The Chances Are

That you feel willing to pay a handsome sum of money to be rid of your sore throat or cough. A. T. Shreeve, 315 W. New Life sells for $50 cents. It is your best chance for health.

HANNIBAL,

No. 2191.

I would call the attention of the breeders of fine horses to the STANDARD-BRED horse HANNIBAL, No. 2191, (trial four years old, 2.30,) by Woodford Mambrino, 2.21¾; Dam, Lady McKenny; also the dam of Nil Desperandum, 2.24¾.

For size, speed and disposition Hannibal is the equal of any horse, and the best that ever stood in Maryland.

"What's his Number?" We are now just entering upon the season of the year when cross-roads, blacksmith shops, village barrooms and other places are ornamented with an immense amount of "horse literature." A great many of them will be announced as "standard bred trotters," and frequent reference will be made to the Trotting Register to prove it. The "pedigree" will contain an overwhelming array of distinguished horses, and never think of stopping short of the Godolphin Arabian. All that is needed to prick the bubble is simply to ask the owner "What's his number?"—[Wallace Monthly, Vol, IX.

I am authorized by Mr. T. W. Martin, the owner of Hannibal, to give two hundred dollars in premiums to the best three colts to be shown August, 1885. To the best three years old, in harness, $100; to the best two years old, $50; and to the best yearling, $50. To those having his colts I would say, please have them in readiness, as I will see that the money is forthcoming. Hannibal will make the season of 1883 on the same terms as last year.

TERMS.

Will make the season in Talbot county at $20 to insure. Owners parting with mares will forfeit insurance money. Mares from a distance, or out of the county, will be charged $20 the season, with the privilege of return next year free, in case of failure, provided the horse is in my possession. Groom fee, 50 cents.
