If certain parties can secure the land adjacent for wharves, stores, and the site for a town, they will dredge out the creek, build wharves and warehouses, establish stores, and the population and business are expected to follow, until the ancient town of Trappe will have to pack up, bag and baggage, and move down to the "Landing" in self-defence. It is supposed it will take about two years to accomplish the revolution, which will be known as The Trappe Enterprise.

—Take in time: see advertisement of Simmons Liver Regulator.

Literary Notices.

LIFE OF ALEXANDER H. STEPHENS.

A Life of this eminent statesman and patriot whose name is now especially dear to all southern hearts, is announced for publication early in April in the ELZEVIR LIBRARY,—a fact of decided popular interest, because in that form it will be at once a beautiful souvenir, and within the reach of every Southern home. It is written by F. H. Norton, author of the "Life of General Winfield S. Hancock," "The Life of Gustave Dore," etc. It will contain an excellent portrait, and other illustrations, making a volume of over 100 pages, and will be sold for the price of ten cents in paper, or 25 cents for handsome cloth binding. It will be well to order at once from your local newsdealer, or from the publisher, to be sure of securing a copy from the edition, as, of course, the demand will be very large. John B. Alden, publisher, 18 Vesey St., New York.

A LITERARY SURPRISE.

The Elzevir Library must be acknowledged the literary surprise of the year, and book-buyers are delighted with its style and convenience as well as amazed by its economy in cost. Recent numbers at two cents each are: "Sir Isaac Newton," by James Parton; "World-Smashing, Etc.," by W. M. Williams; "The Motive and Habit of Reading," by Richardson; at seven cents each, Macaulay's famous sketch of "Frederick the Great" and Shakespeare's "Hamlet;" at three cents, two nicely illustrated numbers for the young, one containing three stories by Mrs. Allen, and the other, "A Half Hour in Natural History" by Prof. Peabody; at ten cents, we have Bunyan's "Pilgrim's Progress," complete, large type, with five illustrations, and are promised soon; Dickens' famous, "Cricket on the Hearth," with several fine illustrations. For sale by booksellers; a club agent wanted in every neighborhood. John B. Alden, Publisher, 18 Vesey Street, New York.

PETERSON'S MAGAZINE,

Equal to the best number ever issued by Peterson, and this is saying much, for, as a fashion magazine, it is not excelled by any.

Specially Reported for the Star.

CORDOVA, March 15, 1883.

Chapel Lyceum met at the usual hour; in the absence of the President, Mr. Ayres occupied the chair. The question for discussion was: "Does Man Enjoy more Happiness in Childhood or Manhood?" and was debated by the young members of the society. Mr. Thomas Connolly led off on the affirmative in a neat little speech, in which he produced some strong arguments in behalf of the happiness of childhood. Mr. C., is quite young, yet he has the elements of a good debater. Mr. W. P. Jump followed on the negative, and was quite successful in meeting the arguments of Mr. C. Mr. J., is calm, cool and deliberate, and there is no doubt but that he will give the older debaters some trouble before a great while. Mr. William Killen followed Mr. Jump on the affirmative, and presented quite a number of sound, sensible arguments on his side of the question. He has a good voice, and his gestures are quite natural. We predict for him a record as a ready and fluent debater. Mr. Sisk replied to Mr. K., and as he is an older debater, he of course did not labor under any embarrassment, and quoted freely from Tupper to prove his assertions. The debate was enlivened by humorous and witty speeches from Mr. Morgan and Dr. Rose. The debate from beginning to end was lively and interesting. Notwithstanding the inclement weather, a large audience greeted the young debaters. The question was decided by a vote of the house in the affirmative. WINGATE.

(*Communicated.*)

MR. EDITOR:—In the Gazette of Saturday last I noticed an article, the point of which I have not yet been able to see, but the low vulgar tone of it would be perceptible to the most obtuse. For instance, the writer speaking of that noble Union General and chivalrous gentleman, Gen. Hancock, as "that man Hancock who ran for the Presidency some years ago"! In this age of civilization and enlightenment, is it possible that any paper would allow its columns to be polluted by such indecent allusions to a man whose conduct has been so manly and courteous to friend and foe? We suggest to the writer to turn his gaze to Indiana, and recall who it was that engineered the Republican canvass in that State during the Garfield campaign, and who also was Secretary of the National Republican Committee, and who on account of his devious ways and consummate rascality, was feted by the rich republicans of New York, and among them, I regret to say, was the present Executive of this great nation, who made himself conspicuous on that occasion by congratulating Stephen W. Dorsey on his corrupt use of money in that memorable canvass. If the writer wishes to know who S. W. Dorsey is, I will point him to the principal figure in the Star Route trials, a man shivering with fright at the storm and darkness before him. DEMOCRAT.

The Last of Old Rock.

For the past 8 years Mr. T. T. Martin has been using a single steer to a cart. He was familiarly known about town as "Old Rock." In 1875 he paid $30 for him. "Old Rock" having seen his best days, and performed faithful services, he determined last fall to fatten him with corn and blades and offer him to the butchers. Last week Mr. John Shannahan bought him for a beef for $70. Mr. Martin sold to Mr. Shannahan at the same time two 4 year old steers, one Hereford and one Alderney, and the three brought him $210. Mr. Shannahan had part of the beef in market last Saturday, and liner never was fatted for this market.

Personal.

Rev. Louis E. Barrett, of Still Pond, was in Easton last week, also, Rev. T. L. Tomkinson, of Millington.

Mrs. Randolph Tucker, of Virginia, is visiting her sister, Mrs. B. C. Hollyday, at "Ratcliffe."

Rev. B. S. Highley was so indisposed at Charlestown last week, in consequence of a bad cold, he was unable to attend to his duties as editor of the Daily Conference Journal.

J. B. Bennett, Esq., was at Westminster last week, attending the M. P. Conference as a lay delegate.

Cure or no Pay.

As soon as the wonderful powers of Wilsonia Magnetic Appliances were proven, a company was formed in New York with a capital of one hundred thousand dollars, to place them upon the market. This company gives written guarantees to cure or return the money. Nothing could be fairer than this, and their reference is one of the strongest Banks in New York city. See advertisement on another page.

Fashionable Tailoring.

In another column will be found the card of Mr. Harry B. Elston, one of Easton's young business men and a fashionable Tailor. He has recently refitted his establishment and is now prepared to measure, cut, make and fit a suit of clothes that will please the most fastidious Chesterfield. Go see him and be convinced.

Disappointed.

The Owens Comedy Company received a telegram from the Arch Street Opera House Minstrels, of Philadelphia, yesterday, announcing the fact that owing to an accident they could not play here last night, but would be on hand Thursday night. It was a great disappointment to the young gentlemen.

Preaching in the M. P. Church next Sunday.

The Methodist Protestant church in Easton will be open next Sunday for preaching and Easter services. Either Rev. Mr. Tagg or the new preacher will officiate.

Recovering.

Lieut. L. L. Bruff, U. S. Army, who has been dangerously ill at the U. S. Arsenal, Rock Island, Ill., of pneumonia, is better. The chances now are believed to be favorable to his recovery.

G. A. LIEBIG.

BALTIMORE, MD., Feb. 27, 1882.

MESSRS. HUBBARD & BROTHER:

Dear Sirs:—Enclosed you will please find result of my analysis of the sample of your OCEAN BIRD GUANO, and it is my candid opinion that the article represented by this sample must prove a valuable fertilizer. As stated in my Analysis 26.59 per cent. of the Bone Phosphate of Lime is soluble in a solution of Citrate of Ammonia at normal temperature, and would be quoted Available Phosphate, though the physical condition of the undecomposed phosphate justifies me in saying that all of the phosphate is in an available form, and ready to act as plant food at once. Yours truly,

G. A. LIEBIG.

It is not necessary that we should make further explanation of our O. B. Guano. The above analysis with the accompanying letter we think will satisfy any one who has a knowledge of the required elements to make a valuable GUANO, and from at least twenty tests that have been made from different samples, not in a single instance has it shown a less value. We have exclusive control of a vast deposit of this Guano, yet only a limited quantity can be got here in time for Spring crops. We have now at our factory and in Baltimore something over 200 tons and expect another cargo this month. Orders can be filled from either place. We shall be pleased to have our farmers generally test our O. B. on Spring Crops with our STANDARD PHOSPHATE or any high grade fertilizer in the market. To introduce the O. B. GUANO we are selling very low when quality is considered. Call at office and see the goods and get prices.
