THE nomination of Robert M. McLane for Governor appears to be as popular throughout the State, as was the nomination of William T. Hamilton in 1879, and there is scarcely a doubt that he will be elected by a majority quite as large as Gov. Hamilton's. Western Maryland will do much better for the Democracy this fall than it has done for years, and Republicanism appears to be on the wane in southern Maryland; and there is not a single county on the Eastern Shore the Republicans can confidently count on carrying. They have a bare chance for Dorchester, in consequence of the Meekins blunder, but there is considerable doubt about their carrying that county. (It is the only Eastern Shore county that is in doubt. Baltimore city will roll up an old fashioned Democratic majority for McLane, Turner and Roberts, and the legislature will be Democratic in both branches. The outlook is blue in Maryland for the Republicans.

THE strength of the Democratic party in antebellum times was very much owing to the fact that it always espoused and defended the cause of the working men. It was in fact the workingmen's party. Whatever was their interests was it's interests, and it was ever ready to champion and defend the cause of the workingmen against all comers. It was the sons of toil that elected Jefferson, Jackson and Polk. We are glad to see the Democratic party coming back to first principles. It is a good omen. The workingmen's plank in the platform of the Democratic party of Maryland, points the Democracy of the nation to the road that leads to certain victory in 1884. Let the workingmen of Maryland ratify this platform by triumphantly electing Robert M. McLane Governor by a rousing majority, and the workingmen of the nation may take up the refrain, and elect him President of the United States in 1884 There is no abler statesman in the country, and no more popular Democrat than Robert M. McLane. He has ever been the consistent friend of the workingmen, and if they are truly their own friends, they will now rally to his standard and elect him Governor of Maryland, and then?

Election and Term of Office of Various Officers.

The Governor is elected on Tuesday next after the first Monday of November. His term of office commences on the second Wednesday of January after his election, and continues for four years. His salary is forty-five hundred dollars a year.

The Attorney-General is elected on the same day as Governor and for four years; but his term of office commences from the time of his election and qualification. His salary is three thousand dollars a year.

The Comptroller is elected for two years, and he enters upon the duties of his office on the third Monday of January after his election. His salary is twenty-five hundred dollars a year.

The State's Attorney is elected for four years, and his term of office commences the first Monday of January after his election. His salary is derived from legal fees.

Members of the House of Delegates are elected for two years from the day of their election. They are paid five dollars a day during the session of the legislature, but not to exceed ninety days.

The County Commissioners are elected to serve for two years, and the Judges of the Orphans' Court for four years, and their salary is regulated by various acts of the General Assembly.

The Sheriff is elected for two years, and cannot be elected again for two years. His salary is regulated by law, derived from various fees.

The Surveyor is elected for two years. His term of office commences on the first Monday of January after his election. His duties and compensation are prescribed by law.

MR. J. B. BENNETT, chairman of the Democratic County Executive Committee, stated publicly, to a Republican, a few days ago, "We (Democrats) are going to buy 500 niggers this fall, what are you going to do about it?"—*Easton Gazette.*

We are authorized to say that the above is *not true*. Mr. Bennett, as Chairman of the Democratic County Executive Committee, never stated either publicly or privately to a Republican or anybody else, that the Democrats "are going to buy 500 niggers this fall," or any other number. We presume reference is made to what Mr. Bennett said *publicly* in a store in town, during a political dispute between Mr. Peter Stevens and Dr. Isaac A. Barber. So far as talking goes, the Dr. appears to be the Republican champion hereabouts. He was going it strong and wild, and Peter was giving him as good as he sent. Both were excited. Mr. Bennett was a listener, like others, and to quiet the "contending factions," asked the Doctor, "if the Republican party was such a great friend of the negroes, why it did not put colored men on its ticket? As the colored people furnished four-fifths of the Republican votes they were certainly entitled to recognition." At that the Doctor raged, and then let up on Stevens and turned on Bennett, boasting what the Republicans were going to do. Mr. Bennett met him by also doing some tall bragging, saying the Democrats would carry this county. On the Doctor's asking how they were going to do it, Mr. Bennett said, if it was necessary they could buy "500 niggers" This caused a great laugh, and here the controversy ended. Now, the matter is magnified into a report that the chairman of the Democratic committee told a Republican, *confidentially*, of course, that the "Democrats are going to buy 500 niggers this fall." We think it a small business in the *Gazette* mentioning Mr. Bennett's name under the circumstances, and we should not have mentioned Dr. Barber's and Mr. Stevens', except for the fact that it was necessary to explain the conversation alluded to. Anyone may see from these facts that the *Gazette* is trying to make political capital by misrepresenting the matter. Mr. Bennett was jesting, of course, in what he said to Dr. Barber, and never intended to be understood as revealing what the Democratic party was going to do, or not do, and no one knows this better than Dr. Barber and the *Gazette*.

What Eminent St. Louis Physicians say:

PREVENTIAR OF MALARIA.—COLDEN'S LIQUID BEEF TONIC is a very agreeable article of diet, and particularly useful when tonics are required, being tolerated when other forms of animal food are rejected. *In Diphtheria, Ague, Malaria, Typhoid Fevers, and every depressing disease,* its use will be attended with great advantage. We have prescribed it with excellent success. J. H. Leslie, M. D.; G. P. Copp, M. D.; S. B. Parsons, M. D.; E. A. Vaughan, M. D.; Drs. S L. and J. C. Niedelet; Wm. Porter, M. D., and many others. (*Take no other.*) Of druggists.

What Tom Moore Said.

"WRINKLES are democratic and flatter nobody." The same may be said of all blemishes of the skin, whether caused by sickness, age or accident. "GLENN'S SULPHUR SOAP" will at least retard the time when wrinkles make their appearance, by keeping the skin of a velvet softness, improving its elasticity, and preserving its healthful appearance. It gives a pearly aspect to the skin, which cannot be distinguished from the natural hue of a pure blonde complexion. Beware of counterfeits. See that "C. N. OBERTEUFFER, Proprietor," is printed on each package, without which none is genuine. Sold by druggists and fancy goods dealers.
