The Re-

Hach in r-

Emigra[illegible] Texas crowd the railroads through Alabama.

We may joke when we please if we are always careful to please when we joke.

A bill has been introduced in the Kentucky Legislature looking to the encouragement of emigration.

An Irishman who was drinking the health of a Bishop, gave this toast: "May yer Rivernce live to eat the old hen that scratches over yer grave."

One of the best sort of minds is that which minds its own business. Like any other extra good things, including beef steaks, it is somewhat rare.

A queer humorist, who has had a hard time of it, says: "when a man begins to go down hill, he finds every thing greased for the occasion."

A Western steamboat captain imponed by a life insurance solicitor; settled matters by remarking: 'Look here, my friend. I never bet on any game where I've got to beat it.'

An Irishman leaning against a lamppost as a funeral procession was passing by, was asked who was dead. I can not exactly say, sir, but I presume it is the gentleman in the coffin.

The jury in a libel suit at Chicago, in which Mary Walton sued the editor of the Times, has rendered a verdict of $500 in favor of the plaintiff, but the court subsequently granted a new trial.

California Wheat is so dry, that in coming east, through and into a humid atmosphere, it gains greatly in weight by absorption. This is quite an element of profit to the shippers.

Ten or twelve Lake Superior copper and iron companies have been indicted for issuing unstamped checks, the amount of from $20,000 to $60,000 per month. These highly protected people grudge its just dues to the government which grants them a monopoly.

Brown had been in love with a young lady, and asked permission to call her by the expressive name of some animal, which was granted on condition that she should have the same privilege. On saying, Brown said: "Good-night, bore." "Good-night, bore," said she. Brown has ever since given up the company of young ladies.

The Macon (Georgia) Telegraph says hundred Mormon converts have emigrated from the northern part of the state to Utah within the last few months. Four Mormon missionaries have visited Floyd, Henry and Fayette counties, and operated with considerable success among the people, as this emigration proves.

Hans where were you born?' 'On der Halderbarrack.' 'What always?' 'Yah and before too.' 'How old are you then?' 'Vy, when the old school house is pilt, I was two weeks more nor a year, what is painted red, as you go on pefore mit your pack pehind you, on der rite and side de old plackshmit shop what stands where it was purnt up next year will be two weeks.'

It is rumored that a vigilance committee has been organized in New York city, strong in number, and entitled "Law and Order Regulators." The object is said to be the executing summary justice on the roughs who escape punishment through political influence, and also that some of the local authorities, including certain judges, are included in the proposed action.

In Johnston county, Arkansas, last week, a planter named Johnson had an altercation with three hands in a cotton yard, who attacked him with knives. Johnson drew a knife to defend himself killing two and mortally wounding the third. Johnson received twenty wounds, but will recover. He bears a reputation of a good and quiet citizen.

The sale of 15,000 acres of splendid timber and Mineral land, in Grant and Hardy counties, West Verginia, has not been made, for cash, to John L. Hayward, James Boyce, and Samuel Brown, Baccubbin, of Baltimore. This tract of coal land is said to be of the most valuable character, and the purchasers will open the mines in a short time. The price paid for the property was $225,000.

The statistics of agriculture show that the number of cows in the United States is not sufficient to furnish the necessary supply of milk, and hence it is argued that adulteration by [illegible] all these words. At a recent [illegible] Producers' Association [illegible] Massachusetts it was asserted that there were in the state about 150,000 cows, yielding on average four quarts of milk a day, or in the aggregate 600,000 quarts. Of this quantity two-thirds are used in manufacture butter and cheese, so that only 200,000 quarts a day are available for the domestic consumption.

"Why Don't the Girls Go West." This is the question asked by a correspondent of the Boston Journal, who wholly uses statistics to prove that in Ohio there are in excess of males of 40,500, in Michigan 40,000, in California 143,000, and in other States similar proportions. In Massachusetts, on the contrary, there are 36,000 more women than men; in Hamshire 6,506, in Rhode Island 3,000, and in Connecticut 7,800. The total excess in New England of females over males is 48,500. Perhaps the unmated will find in these figures convincing arguments.

The Virginia Cattle Trade.—Very few persons are aware, perhaps, of the importance of the shipments of cattle from Virginia to northern markets, as announced almost daily in the newspapers of this city. Every head of the cattle thus carried to and disposed of in northern markets, represents a value of from $30 to $60. Assuming on a moderate computation that between five and six hundred head are shipped north in a week, and that their average value per head is $35, we have a regular income to the State per week, of $17,500 or $70,000 per month, or nearly $1,000,000 in the course of the year.—These figures are derived from a gentleman whose position enables him to become fully acquainted with this subject. It will be observed that the shipment of cattle north is not only a very important revenue to the State, but also to the railway lines which are employed in its transportation from the southwest to the northern markets.—*Lynchburg Republican.*

One day recently a young miss was standing on a railroad track at the depot while the passenger train was backing up. As she was looking in an opposite direction, she did not notice it. A gentleman standing on the platform noticed her danger and cried out: "Miss, you are in danger of being run over, jump!" The effect was electrical. With a bound she cleared the track and put all danger behind her. Recovering from her fright and imagining that she had made a judicious jump she turned to the gentleman who had warned her of her danger and said: "It was none of your business any-

Bone Dust.

THE subscriber has just erected at his farm, near the city, the most improved machinery for making BONE DUST, and is now ready to fill orders for any quantity, which will be delivered at the shortest notice.
THE BONE DUST will be finer than any heretofore made by him, (no chemical process resorted to,) enabling the Farmer or Planter to sow it with the Drill.
Mr. Samuel Sands, well known to the Farmers and Planters of the United States, as the former editor of the American Farmer and Rural Register, will have charge of his office, No. 63 South Gay Street, near Pratt, and will be happy to receive the visits or orders of his old friends.
FORTY-FIVE DOLLARS PER TON, put up in neat bags. No charge for bags.
Farmers and others are invited to visit my work, I have nothing to conceal.
My men have nothing nice to perform, therefore I have no "non-admittance" signs on my premises. Persons are free to examine my Factory, and the *modus operandi* of Dust-making.
I cannot afford to pay 5, 10 or 20 per cent, to commission merchants, as my profits do not exceed 10 per cent.
BONE DUST, as manufactured by me, is *A simple*, and its quality cannot be made to conform to the price.
JOSHUA A. HORNER.

Important to Farmers & Planters.
Merryman & Co.'s
RAW BONE SUPER-PHOSPHATE
PRICE $45 PER TON.
This Phosphate has proved itself to be the cheapest, and fully equal to any in the market—unsurpassed by the highest-priced GUANOS. Its adaption to
Wheat, Corn, Oats, Buckwheat, Tobacco, Garden, Truck, Grasses, &c.
Has been thoroughly and most satisfactorily tested. Finely ground and suitable for drilling. Put up in bags of 167 lbs. each.
O. P. Merryman & Co.
manufacturers, Warehouse, 54 South Gay street, between Lombard and Pratt streets, Baltimore, Md.
For sale at manufacturer's price (the cost of transportation added) by
J. TYSON & SON.
Frederick, Md.
Breathedville, Washington Co., Md. August 5th, 1869.
Messrs. O. P. Merryman & Co.—Gentlemen: We, the undersigned, used your Raw Bone Phosphate last Fall on our wheat crops, side by side with Whitelock's and other Phosphates of higher price than yours, and we could see no difference in the wheat. We can recommend it to the farmers in general.

with an entirely new and improved Guano Sower, the best in use certainly.
These Drills have the Willowby Spring Hoe or Break Pin attachment to suit purchasers. The great amount of these sold is the best evidence of the superiority over all others. Five thousand made for the trade of 1869. We also have the
BUCKEYE CIDER MILL,
none in market to equal it. Corn Shellers, Cutting Boxes of different kinds and prices. The improved Montgomery
WHEAT FANS,
and other Farm Machinery usually kept in a first-class Agriculture Depot.
We are Agents for the following Fertilizers: B. D. Sea Fowl, Weymouth Mills, Bradley's Patent, Farmer's New Method.
We call the attention of Farmers to the above popular Fertilizers before purchasing elsewhere.
N. B.—We have on hand several first-class Threshing Machines which will be sold cheap. S., A. & CO.
aug20

Something Useful for Farmers and Fence Makers.
YOUNG & GRUMBINE'S Improved Machine for Boring Posts and Pointing Rails.
THIS is one of the most useful and greatest labor-saving Machines ever invented for farmers in want of a good substantial post and rail fence. This is the only Machine ever invented for pointing a rough split rail. The rails are pointed by means of two concave convex knives, placed in two disks or wheels, turned just the shape of the point of a rail. Two men will point from 800 to 1000 rails per day, and will bore from 300 to 400 posts per day, with less than one-half the labor it would take for boring 50 posts in the common way. There is a Circular Saw attached to the machine, arranged for sawing the posts; also for sawing cord wood, pailings, lathes, &c. A full size machine can be seen at Young, Hason & Co.'s Foundry, Frederick. For further information inquire at Stewart & Price's Agricultural Store, Frederick, Md. Every machine warranted to give entire satisfaction.
State and County rights for sale.
CALVIN J. GRUMBINE,
june4 Frederick City, Md.

ROCKWELL'S
Patent Safety Bit,
AND BRIDLE CHECK,
The Best, Simplest and Cheapest Attachment and Bit out, for controlling vicious, runaway and unmanageable Horses.
I HAVE purchased of A. H. Rockwell the entire right of the above patents, and his system for educating the Horse, in the county of Frederick, being sole owner and having exclusive control of said patent. No one has the right to manufacture or use the above Patent or System, unless the right to manufacture or use the same is obtained from me, (excepting such persons as have or may form part of a class which have an illustrated book of his system, those persons having an INDIVIDUAL right only.)
I am prepared to furnish either Bits or Bridles, and the Safety Line for Kicking.—Also, Bits for Hard Pulling or Runaway Horses, and the full system, complete, with his Illustrated Books on the education of the Horse. The above Bit system, &c., is acknowledged by all good judges to be superior to any in the country for practical use, as they can be attached to any ordinary riding, driving or wagon Bridle.
