TERRENCE McGRANT, a cousin of ULYSSES, is again in Washington. We clip the following from one of his recent sketches:

I met a man here yesterday, who was at first going to ate me. You must have sint one of your papers to California, as that Mr. O. H. La Grange has come here to becoufirmed as Superintendent of the San Francisco mint. He is the man some of our party go back on because he run away from his wife in Wisconsin, and tuck a social evil to California. I alluded to the circumstance in one of my pravious letthers, and some one showed it till him, and he put back his moustache, and said he wud ait me. He met me jist as I was returning from Mr. Gerand's—the man who married the nagur—wid a prisent of a little pocket-flash of French brandy for me cousin. This La Grange met me, and says he:

"Are yez Terence McGrant?"

"Faith, and I am that same," says I.

"Thin prepare to die," says he, and he commenced to pull off his outside garments. I knew by the look of him that he was as blood-thirsty as a bedbug, and thought if I was going to die, I might as well be embalmed, so I tuck out the flashk of brandy to take a drink. He tuck it for a pishtol, and he started, away in the direction of Bull Run, laving me alone. You see how little brandy it sometimes takes to save a man's life. I tould me cousin Ulisses of the circumstance and he said it was a terrible blow, the searing of that man away, as he was loaded down wid goold, to use in securing a confirmation. The most of the Sinators are in favor of specie payment—whin a man buys their votes. My cousin favors that, too.

NARROW ESCAPE.—We copy the following from a late issue of the Fredericksburg Herald showing what a narrow escape was made by Capt. Edward White, of Berryville, near Chesterfield Depot:

"Edward White, Esq., of Berryville, formerly of this place, was on the up-train of cars when it collided with the down-train, near Chesterfield Depot, last week. Mr. W. having observed the brakesman putting down the brakes and then jump off, started for the door of the car. As he reached the door a jar of the train pitched him out, and his legs were caught at the knees between the two cars. By a quick movement he drew them up just as the great shock came, which fortunately threw him inside the car again. Almost at the same moment both platforms and both ends of the cars were shivered into splinters. The passengers stood aghast as Mr. White was thrown back, thinking him certainly killed. His life was saved as by a miracle. Both legs were cut in several places and bruised; one knee very much swollen, and walking was painful. Several other passengers were slightly hurt.

EXECUTIVE MANSION.—The new Government house was occupied by the Governor and family on Tuesday last. The few private rooms ready for immediate us have been furnished mostly by the furniture formerly in use in the old Governor's Mansion, which was sold to the United States for the use of the Naval Academy. The building and grounds have cost some $141,000. The iron railing, etc., will be an additional expense, while an appropiation by the State will be required to furnish the public apartments of the house and meet the expense already incurred, as the former sum appropriated was only $100,000. The mansion, both in its outer surface and inside appointments, without exhibiting extravagance, is in keeping with modern taste, improvements and ideas, and is highly creditable to the public spirit of the State, and is, in point of attraction, an addition to the city of Annapolis, of which its citizens may well be proud of.—*Annapolis Republican.*

The Boston Courier states that the wellknown brewer of that city, Mr. James McCormick, has patented in this country and in Europe an invention for purifying and clarifying ale beer and other liquors, by which a saving of one-half of malt and hops is effected, and a finer liquor produced. Another result gained by this process is that the beer and ale made by it will not turn sour in the warmest climate. It also gets rid of sediment, and produces ale as clear and sparkling as champagne.

A divorced woman in Boston, whose late husband has died, leaving property to the amount of $200,000 claims the administration of his estate, on the ground that the divorce, which was obtained according to the laws of Indiana is invalid according to the laws of Massachusetts.

A husband advertises thus: "My wife Maria has strayed or been stolen. Who ever returns her will get his head broke. As to trusting her, any body can do so if they see fit; for as I never pay my own debts, it's not likely I'll pay her'n."

A cannon has been cast in Russia which throws a ball weighing 1,000 pounds. Think of that lump hitting a man on the ear.

Bone Dust.

THE subsriber has just erected at his farm, near the city, the most improved machinery for making BONE DUST, and is now ready to fill orders for any quantity, which will be delivered at the shortest notice.

THE BONE DUST

will be finer than any heretofore made by him, (no chemical process resorted to,) enabling the Farmer or Planter to sow it with the Drill.

Mr. SAMUEL SANDS, well known to the Farmers and Planters of the United States, as the former editor of the American Farmer and Rural Register, will have charge of his office, No. 63 South Gay Street, near Pratt, and will be happy to receive the visits or orders of his old friends.

FORTY-FIVE DOLLARS PER TON, put up in neat bags. No charge for bags. Farmers and others are invited to visit my work, I have nothing to conceal.

My men have nothing nice to perform, therefore I have no "non-admittance" signs on my premises. Persons are free to examine my Factory, and the *modus operandi* of Dust-making.

I cannot afford to pay 5, 10 or 20 per cent, to commission merchants, as my profits do not exceed 10 per cent.

BONE DUST, as manufactured by me, is *A simple*, and its quality cannot be made to conform to the price.
