The Republican Citizen.

Frederick City, Md.

FRIDAY, APRIL 1, 1870.

J. W. Baughman, Editor and Publisher.

What Lincoln Said.

"I am not, and never have been in favor of making voters or Jurors of negroes, nor of qualifying them to hold office, nor inter-marry with whites; and I will say further, in addition to this, that there is a physical difference between the white and black races which I believe will forever forbid the two races living on terms of social and political equality."—The above are the words of Abraham Lincoln. This sentiment, uttered by the martyr President, at the time of its utterence, was the sentiment of his party and of the American people. And, yet, see what a few short years of war and subjugation have effected. Negroes, in spite of the doctrine of Abraham Lincoln, now *vote*, and *hold office*, and act as jurors in ten States, and in a few days will, by proclamation of Grant, be voters in all the States of this bayonet bound Union. The party which elected Lincoln President *twice*, has done all this, and will now go to the negro and swear that they have made him a *voter*, a *juror* and *office holder* on the grounds of *humanity* add *justice*. Lincoln said he believed there was a *physical difference* between the white and black races, which would *forever forbid* the two races living on terms of social and political equality.—In view of the corruption of the times, the love of money, the ambition for place, and the power of the sword, who shall tell us how many years it may require, and the requisite means, to reverse that *political* condition *now fixed upon* the country, which the once great leader of the present negro suffrage party formerly said WAS FOREVER FORBIDDEN by PHYSICIAL DIFFERENCE.

Maryland Legislature.

The constitutional period for the Session of this body is drawing rapidly to the Close. In less than a week an adjournment must take place, unless the members should be willing to continue in Session without pay. It has been a very industrious body, and a large amount of buisiness has been transacted during the Session; but the close of the Session will show the number and character of the bills finally passed. Our columns have been so crowded with advertisements during the greater part of the Session that we have not been able to keep our readers posted even in regard to proceedings relating to this county; but Frederick county is represented by an intelligent delegation, familliar with the local wants of our people, and capable of reflecting their views on all questions of general State policy. And it is but simple justice to say of the gentlemen represing us that the journal of proceedings of the House and Senate show that all of them have been in very regular attendance at the post of duty assigned them by their constituants, and that they have been vigilant in the discharge of the trust reposed in them.

FIFTEENTH AMENDMENT.—Yesterday, President Grant issued his proclamation announcing the adoption of the XVth Amendment, and it is now, so-called, a part of the constitution of the United States.

PUBLIC SALE.—On Monday, the 4th inst., at 1 o'clock, p. m., Samuel Burrall, mortgagee, will sell on the premises, about 1 mile west of New London, in New Market district, 22 acres of land, improved with dwelling house, barn, &c. See advertisement.

BANK STATEMENT.—The statement of the condition of the First National Bank of Frederick, which we publish in another column, shows that the Bank is doing a business which must be most gratifying to the stockholders.

MORE BASS.—We understand that Edward A. Hanson, Esq., of this city, procured at the Point of Rocks, a few days since, about 150 live Bass which he has placed in the Monococy and its tributaries, with a view to increasing the supply of that delicious fish in the waters contiguous to Frederick.

THE BILL appropriating $2,000 for the use of the Confederate Memorial Association of Frederick Co., passed the House of Delegates on Wednesday last, and it is supposed will also pass the Senate.

GOOD DIVIDEND.—The directors of the Central National Bank in this city, have declared a dividend of six per cent for the last six months, to the stockholders of that institution, payable on the 4th, of April next.

SALE OF REAL ESTATE.—Geo. F. Webster, Property Agent, reports the sale of the dwelling house, situated in Market Space, owned by Dr. Loyd T. Macgill. Purchased by the Mayor, Aldermen, and Common Council of Frederick City, for $2,000

SWORN IN.—Capt. C. E. Eckstine, recently commissioned by Gov. Bowie, as one of the additional Justices of the Peace for Frederick district, was sworn in on Tuesday last, and is ready for business.

NEW ALMS HOUSE.—The loan of $60,000, advertised for by the County Commissioners a week or two since, having been promptly taken by our Capitalists, the building of a new Alms House for this county will be commenced without delay.

REMOVED.—Dr. J. A. Webb, Dentist, has removed his office from opposite City Hotel to South Market street, west side, three doors from Patrick street, where he will be glad to wait upon all parties desiring his professional services.

Persons having business with the Orphans' Court, will be able to transact it any day next week, as the County Commissioners will be in session.

TEACHERS' ASSOCIATION—We understand there were over one hundred of the public school teachers of this county in attendance at the annual meeting of the TEACHERS ASSOCIATION, held in this city on Thursday last. We learn that J. W. Page, Esq., Public School Examiner, delivered a most impressive and very interesting address. The exercises were continued on Friday, and, throughout, were of a most interesting character, furnishing a guarantee of the future usefulness of the TEACHERS' ASSOCIATION. We regret our inability to be present on the occasion.

CONDEMN ALL.—We cannot understand why W. S. Bantz, should be censured in a certain quarter for a suggestion or proposition which was voted for, as we understand, by all the members of both branches of our Municipal Legislature. Is it a circumlocutory process by which other, or all other members are being castigated over Mr. Bantz's shoulder? Our friend Bantz, thinks this is not fair; argues, and with much show of reason, that if he *can't go back*—on account of his vote, in the premises—he *can't see* how any of his colleagues, in either branch—all of whom are in the same boat—can go back.

THE MARYLAND UNION.—The editor of this paper manifests considerable soreness at our success in securing the corporation printing, and the publication of the laws passed by the present session of the Legislature. Notwithstanding the editor of the Union had the publication of the State laws of the last session, he made diligent efforts to secure the same job this year. It was by producing incontrovertible evidence that the editor of the Union had received several thousand dollars more for State, county and corporation printing, since the close of the war, than the CITIZEN had received, that those having the disposition of this patronage, were induced to award it to the CITIZEN as an act of justice. For several years the amiable editor of the Union enjoyed a complete monopoly of the registration printing, during the whole of which time we made no attempt to secure even a portion of it, but discovering the appetite of the man who during the abolition war, deliberately, in the columns of his paper, maintained that the freemen of Maryland who sympathize with the South, HAD NO RIGHTS, OUGHT NOT TO BE ALLOWED TO VOTE, AND OUGHT TO BE BANISHED OR HUNG—we determined to cut off his supplies to some extent, if possible, even if it became necessary to tell the story of our personal wrongs, during the war, by which this rebel hater so largely profited. We would avoid any personal discussion with the editor of the Union, through the columns of the CITIZEN, on this or any other subject, but we think our friends could hardly expect us to say less in view of the malicious and scandalous article in that paper this week.

Boston has fined a man three dollars for attempting to kiss a lady in the street.

It is announced that Hon. Alexander H. Stephens will shortly pay a visit to Washington.

A boy in Trenton, who killed a "valuable" dog which bit him has been fined twenty-five dollars.

At the last fashionable Hotel de Ville ball, in paris, it is estimated that the ladies present wore 1300 pounds of false hair

The Governor of Texas has been petitioned to postpone an execution on the ground that the condemned man should have a longer time to prepare for death and that his health is not good.

A Profound tinker says there is hardly a graver trial in the long catalogue of boy trials than the danger that springs from going with others who have more money to spend than they themselves have.

HOW TO PASS THROUGH SMOKE.—In the course of an inquest held in London lately, the coroner observed that it would be well to acquaint the public with the fact that if persons in a house on fire had presence of mind to apply a damp cloth or hankerchief to their mouth and nostrils, they could effect a passage through the densest smoke; but the surest way would be to envelop the head and face completely in a damp cloth.

ALASKA FOR PENAL SERVITUDE.—The New York Evening Post asks why not make Alaska a penal colony, and send convicts there from all the States? and says:

"The new purchase is worthless; it could be made usefull as a penal colony. Convicts sent thither would have a new career open to them: they would not be made worse, but better, by the mode of life they would lead there; and they would cease to be a charge on community.

NEGROES IN THE NEXT CONGRESS.—There seems to be a strong probability that the negroes of the South will insist upon being represented in the lower House of the next Congress. There are quite a number of districts in which the blacks have large majorities, and they will naturally incline to the support of candidates of their own color. The ex-rebels will vote for negroes in preference to Yankee carpet-baggers, and will be justified in so doing. Black Congressmen will at least represent their own race, while the miserable carpet-bagger will represent no class of the community in which they have located. We should not be surprised to see from twenty to thirty negroes in the Forty-second Congress. The ventilation of the House will need to be improved.—*Lancaster (Pa.) Intellingencer.*
