A writer in the "Old Guard," upon that absorbing theme of the day, the "negro vote," discourses thus pointedly and well:

"The black man furnishes one-fourth of the Republican vote, and he is entitled to one-fourth of the offices at the hands of his allies. Let him demand and obtain them. And let him not be put off with inferior positions. It is his right to be placed on the Republican ticket as a candidate for Congress—to have his due share of diplomatic honors—to exercise judicial power, and to sit, at some time, in the Presidential chair It is his due from the Republicans that at least two of the judges of the Supreme Court should be of some shade between mahogany and ebony, that several colored brethren should dine with kings and emperors as envoys extraordinary and ministers plenipotentiary, and that ebo-shinned generals and flat-nosed admirals should give the land and sea forces the benefit of their wonderful mastery of the arts of war. All this he will obtain if he demands them of the Republican party for he holds nearly a million of votes, and without those the power of the Republican party dies. We are told that he "crushed the rebellion," that without those the white troops of the North would have been beaten, and were hopeless of success until Sambo entered the field and gave the finishing blow. Grave doubts may exist as to that matter; but there can be no doubt that the abstraction of the negro vote would leave the tricksters and plunder-mongers who have turned the Federal Capitol into a den of thieves, in a contemptible minority. Let the negroes ask and obtain."

The negro equality doctrine is not popular even in Chester and Delaware counties, as is proven by the result of the late election for congressman in that district. Townsend the Radical candidate, has 737 majority in Delaware county, a Radical loss of 478 votes. The negro vote of the county was 600 which added to the Radical vote, makes the actual loss of that party 1,078. In Chester county, Townsend has 1,390 majority, Radical loss 1,010. Negro votes in the county, 900. Radical loss including negro vote, 1,470. Including negro vote, 2,988. The white men of that long benighted district are entitled to much praise for the noble fight they made on Tuesday week.

The cheese factories in the United States in 1868, were 792 in number, of which 560 were in operation in New York, 72 in Ohio, 26 in Illinois, 25 in Vermont and 8 in Wisconsin. Since then the number has largely increased, 200 factories having been started in New York and 54 in Wisconsin. The cheese product, under the factory system, it is stated, has raised from one hundred and five million pounds in 1860 to two hundred and forty million pounds in 1868, while the demand in the latter year exceeded the supply by seventy two million pounds. The entire daily product of the United States in 1868, it is estimated, was worth four hundred millions of dollars.

AN ELECTION TRICK.—A letter from Scranton, Pa., represents that a respectable and influential German citizen of Luzerne county, who had been recently naturalized, was refused his vote by the Republican officers on account of an apparent flaw in the papers. The applicant, however went away and blackened his face, turned his German name into English, and his vote was received by the Republican officers without a word of dissent. Then, to their astonishment, he voted the Democratic ticket. He is threateded with prosecution, but he threatens in return a prosecution for depriving him of his right to vote.

A gentleman, who had once been one of the wealthiest citizens of Albany, appeared at the Station-house of that city the other night, and requested the sergeant to send him to the Almshouse.

PRINCE & CO.
Improved Patent Prize Medal ORGANS AND MELODEONS,
Are still ahead of all others.

They have taken the first premium whenever exhibited in competition with others. Some Instruments have a very good tone when first manufactured, but keep them in constant use for five or six years and the tone will become harsh and unpleasant. This however, is not the case with Prince's Instruments of their make—ten years old—can now be shown with as good a tone as they had when first bought.

They also contain the following improvements: *Automatic Swell, Divided Swell, Graduated Swell, Basso Tenuto, Manual Sub Bass.* Read what Frank Leslie says in his Illustrated Newspaper of August 31st, 1867:

"G. A. PRINCE & CO'S Automatic Organs and Melodeons are among the proudest triumphs of this musical age. It is estimated that there are over forty thousand of these excellent instruments now in use. It is also a remarkable fact that not one of this enormous number has ever been returned, a sure proof of their surpassing excellence. For the past six years the enormous sales has made it impossible to supply the demand promptly, and every year increases the number of orders. Their manufactory is in Buffalo, New York."
