Board Controls Special Dirt Roads Funds

(CONTINUED FROM PAGE 1)

mination rests with the State Roads Commission if they do not agree with the Roads body's stand.

This measure, in addition to Mr. Veasey, bears the endorsement of Senator William R .Wilson, Olin R. Higgins, Dorchester; Richard S. Dodson, Talbot; Joseph L. Donovan, Howard; and Harold E. Coburn of Cecil.

The Farm-to-Market roads program, urged continuously by the County Commissioners and in which the Maryland Farm Bureau Federation has recently become active in pushing, apparently is at a standstill.

Harry D. Williar, Jr., Deputy Adminstrator of WPA who heads the Farm-to-Market division, has advised the County Commissioners that the program has ben developed for the purpose of providing work for the employables on the relief rolls and that there is no definite allotment of Federal funds for any particular county.

Mr. Williar said that the available relief labor in Queen Anne's County is already assigned and working on other WPA projects. He was unable to give the Board any assurance as to starting any new projects in this county.

From Talbot County a special committee will meet with Congressman T. Alan Goldsborough on Saturday to ask Mr. Goldsborough to intercede for them in Washington in gaining a Federal dirt road grant.

Metcalfe, Green Lead In Sudlersville Shoot

Dr. C. H. Metcalfe of Sudlersville and Clifton Green of Centreville tied for first place in the weekly shoot on the Sudlersville grounds Sunday afternoon as each cracked 46 out of 50 clay birds thrown. County Commissioner Joseph M. George was runner-up with 44.

Weather conditions were the most difficult of the year with a strong wind cutting across the range.

The scores for two rounds of 25 birds: Dr. Metcalfe, 22 and 24 for 46; Mr. Green 23 and 23 for 46; Mr. George, 22, 22, 44; Dr. Merritt Brice, 22, 21, 43; M. Geiser, 19, 17, 36; Frank Brower, 20, 14, 34; James Groff, 19, 14, 33; Casper Clow, 17, 15,32; Edward Gillespie, 14, 14, 28; Charles Clow, one round of 18.

ERRATIC CITY PRESS

Reports in the city press that a body of an infant had washed ashore near Love Point and was believed to have been the victim of the Susquehanna River flood, were unfounded according to a local check up. Apparently if this happened it was further down the Shore. The case was not reported to local authorities, and a physician as mentioned examining the body is located in the vicinity of St. Michaels.

TOO BOGGY AND SLICK
for "WEB-FOOTED" MULES

SO *It's a "Caterpillar's" Job!*

Even if mules were "web-footed," they'd sink to their ears in some of the muck-fields out of which "Caterpillar" Tractors steadily haul big loads of perishable crops. Horses would balk at some of the slippery orchard hillsides—up which the "Caterpillar" Tractor pulls loads of Spray to keep ahead of pests despite adverse weather.

With the 20-inch track shoes, this 50-inch gauge "Caterpillar" Twenty Two's weight is spread over so large an area, that it stays on top of such soft footing. ..Also the wide grousers hold their sure grip to convert engine power effective pulling power.

MORAL: Don't buy life-preservers for mules—get a "Caterpillar" track-type Tractor, and be ready to beat weather year after year.

The Model Twenty-Two is offered to run on low-cost distillates and gasoline. Ask us for complete information on this model to meet regular or extreme conditions. Ask also about the Diesel models.

"Nothing stops me now
I can work when others can't"

IT takes an unusual tractor to bring a statement like that from a farmer. Yet, owners are saying this and other good things right along about the new Case Model "C" Tractor.

As a matter of fact, it is an unusual tractor, unusual because of its combination of dependable power and light weight—just slightly more than that of two draft horses. With a light stepping tractor like that you can do things not possible with ordinary machines. Instead of sitting around waiting for the fields to dry up completely, you can be out there days ahead of others and get your work done on time.

That's a tremendous advantage which adds to the tractor's usefulness and ability to earn. Another thing, because of the absence of superfluous weight, more of the power is put to work pulling pay loads.

If you want a tractor that will help you show a larger profit this year—get a Case—either the Model "C" or the larger Model "L". Come in and inspect these tractors and the many other Case farm machines we are showing. Do it now.
