Don't miss the FICTION SECTION of the Baltimore Sunday American. In this new section you will find the latest continued novels and short stories by popular authors. Your newsdealer will reserve your copy of the BALTIMORE AMERICAN every week.

Scouters Plan Dads' Training

Sessions Start March 30. Other Events Listed

Plans for training sessions for Scouters, committeemen and Dads were mapped at a conference of Scout leaders from the Tri-County district at Easton at which Mayor T. H. Chambers of Federalsburg persided.

The first session will be held at Easton March 30 with Centreville to follow on April 6.

The training sessions will be rotated in Queen Anne's, Talbot and Caroline counties for five Monday evenings and are to be conducted as far as possible like a Scout Troop meeting. Letha Taylor of Centreville, Benjamin Willis of Denton and J. Carter Richardson of Easton comprise the committee for promoting the sessions.

Other events listed for the year's calendar are an Overnight Encampment for all troops of the three counties at Garland Lake near Denton in June at which a Court of Honor will be held in conjunction with the Campfire program, and the opening of Camp Rodney on June 28 for its usual eight weeks' term.

Reports for the recent Scout financial drive showed Centreville, Queen Anne and Federalsburg reaching their quota with other towns well on their way.

Others present at the conference were Ray Tabler and Dr. Norman P. Chanaud of Centreville; Willard Funk, St. Michaels; Harvey Long and Rev. C. Irving Carpenter, Federalsburg; W. G. Rouse, Easton; and Scout Field Executive Stanley Woodhead, Wilmington.

Final 1935 AAA Payment Will Yield $30,000

Benefits Also Expected From 1936 Contracts Signed Or Applied For

Final payments on the 1935 crop reduction contracts under the now defunct AAA are expected to bring approximately $30,000 to Queen Anne's farmers, it was estimated by County Agent Kenneth W. Baker. The allotment will come out of a fund of $215,000,000 from special funds appropriated by Congress to enable Secretary of Agriculture Wallace to meet all obligations of the AAA in view of the stoppage of funds from processing tax receipts.

No definite word has come as yet as to amounts which are expected to be paid county farmers in connection with the 1936 wheat reduction program which was under way when the Supreme Court declared the AAA invalid.

However, farmers who had joined in the reduction program are almost assured of some payments. Secretary Wallace was given authority to make rental and benefit payments in connection with adjustment contracts entered into before January 6, 1936 provided there had been compliance by the farmer.

He was also authorized to make rental and benefit payments to an amount considered fair to those farmers who had applied for contracts and had made necessary reductions and met the requirements of the expected contracts before January 6, 1936.

Preliminary work is now going on checking up contracts entered into before the AAA went out with the likelihood that payments of all obligations or commitments of the AAA will be made before the end of June of this year.

Work while it is day; the night cometh when no man can work.—Mrs. Cragi.

It takes 110 pounds of sugar yearly for each person. Our capacity for taffy is probably more.

Keep In Step With Calendar Is Gulf Theme

Gasoline Contains 1,000 Different Ingredients, W. R. Huber Says

A number of interesting facts about gasoline not generally known to the public have been revealed by one of the world's top producers and refiners of oil, in connection with a series of advertisement begun in the Record.

"In adopting the phrase, 'Kept in Step with the Calendar', as our newspaper advertising theme for 1936," explains W. R. Huber, Gulf's advertising manager, "We believe that few people realize that gasoline is a mixture of more than 1,000 different substances, and that certain of these chemical properties must be carefully controlled according to weather conditions to give the best possible performance.

"It is impossible for anyone to manufacture a single gasoline which will start easily in Maine in February and which will not cause vapor-lock in Texas in July. It is expensive to manufacture and market different gasolines for different climatic conditions, but to properly serve the motorists, best interests, this cannot be avoided.

"That Good Gulf Gasoline sold in Massachusetts in summer is not the same gasoline sold there in the spring and fall. And this, in turn, is not the same gasoline sold in winter. Furthermore, our gasoline sold in Ohio in winter is not the same as the gasoline sold in Florida in winter.

"Gasolines that are ideal for quick starting in cold weather may be quite inferior in hot weather. To insure perfect performance and the highest mileage throughout the country and at all seasons, That Good Gulf Gasoline is "Kept in Step with the Calendar"—hence all of it goes to work—none of it goes to waste."

Proceedings of the Orphans' Court

Letters testamentary were granted to Mollie Walls Wesley.

Second administration account and distribution of Elizabeth Anderson, administratrix of the personal estate of Preston R. Anderson, was recorded.
