'UP AND DOWN THE Eastern Shore

Byrd on Antartica

Salisbury—In a lecture here Rear Admiral Richard E. Byrd said Antartica offers a most valuable link in the great chain of science in that a study of the Ice Age could be made there to establish what happened in this hemisphere thousands of years ago making possible accurate long-time prognostications of periods of drought and extreme cold weather. The famed explorer also asserted the region is rich in natural resources, particularly coal, and that centuries hence man will need these resources to survive. The lecture marked Byrd's second appearance on the Shore in his nation-wide tour.

Ritchie Boulevard

Cambridge—Senator Olin R. Higgins added another to the growing list of suggestions for a memorial to Albert C. Ritchie when he introduced a resolution in the General Assembly to rename the Philadelphia road Ritchie Boulevard.

Wife For An Hour

Greensboro—Ill for six weeks and realizing death was near, Leo Hartnett, 37, expressed a wish to wed Mrs. Jennie Moore to whom he had been engaged for some time. The Rev. Francis J. Hensel performed the ceremony at 10 a. m. At 11:15 Hartnett died. He was a Delaware State highway patrolman.

Coburn the Unpredictable

Elkton—Scorning a Democratic caucus called to decide the fate of bills affecting not only the State Survey Commission but also repairs to the Executive Mansion State Senator H. E. Coburn (Dem. Cecil) later joined eleven Republican members of the body in holding up a bill to abolish the Commission and turn its unexpended funds over to the mansion repair fund. At the opening of the Special Session Coburn was unmasked as a $2,000-a-year "research worker" on the Survey group.

Costly Poultry

Berlin—Convicted on a charge of stealing eight hens from the Atlantic Hotel which were later recovered, Calvin Massey, 26-year-old Negro, drew 18 months in the House of Correction from Magistrate Fred A. Culver.

Pasteboard Regained

Snow Hill—Revocation of driving licenses of Maryland motorists by the Maryland Commissioner of Motor Vehicles for violation of the motor laws of other states was declared unconstitutional by Chief Judge Johnson of the Worcester County Circuit Court. Thomas Hatter, Ocean City, who was convicted of drunken driving in Delaware and had his permit revoked by Commissioner Rudy, forced the issue.

Fishing Steamer Launched

Crisfield—Residents of Crisfield, self-styled seafood capital of the U. S., do not confine their activities to the Chesapeake, according to the "Fishing Gazette", a magazine devoted to the fishing industry. Wallace M. Quinn, who operates three fish-meal factories, launched one of the finest equipped fishing steamers on the Atlantic Coast last Saturday at Fernandina, Florida, the magazine reported.

Exit the Almshouse?

Princess Anne—Preparing for the day that Old Age pensions may make the county almshouse no longer necessary, Harry T. Phoebus has introduced a bill in the legislature which will permit Somerset to dispose of its poor farm. Caroline County through Senator Wilmer Fell Davis has taken similar action. Somerset sold old paneling from the overseer's residence some years ago for $2,000.

Shore Denied Crown

Cambridge—A monster torch light parade in which 3,000 young people marched through the streets and burned their opponents in effigy proved no substitute for skill on the court and Cambridge saw its basketball team, champions of the Eastern Shore, go down to defeat 38-16 before Allegany High of Cumberland in the final round of the Playground Athletic league playoffs.

CCC to Continue

Snow Hill—When reports got around that the CCC camp at Public Landing would be one of 700 out of 2,158 in the nation to be closed the Snow Hill-Worcester Chamber of Commerce and the Young Men's Democratic Club protested through Congressman Goldsborough, gained a continuance.

File for Delegate

Denton—Harry H. Rieck, Preston, and Marc Bryant and Austin Murphy, of Denton, will file as candidates for the House of Delegates subject to the May primary. The successful aspirant will fill the vacancy created by the death of Alda P. Whitby.

Home Liquor Control

Easton—Liquor licenses will be restricted to bonafide residents of Talbot County if a bill to amend the present law introduced by Delegate Coulby passes. The measure is aimed at outsiders who come here solely to engage in liquor traffic and who are not in sympathy with the tradition of the county.

Epicurean Controversy

Princess Anne—Irked by the comments of a letter writer to the Paris edition of the New York Herald-Tribune in which disparaging remarks on Maryland oysters were made in comparison with the much praised Morenne oyster of the French capital, J. Douglass Wallop, former proprietor of the Washington hotel here, wrote a reply, suggested that the epicure get himself a plate of Chincoteague Island or Wallop's Island saltwater oysters if in search of the last word in bivalves.

QUICK RELIEF FROM CONSTIPATION

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 20 years, and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation.

Olive Tablets do not contain calomel, just a healing, soothing vegetable laxative mild and pleasant.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They help cause the bowels to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache caused by constipation—you should find quick, sure and pleasant results from one or two of Dr. Edwards Olive Tablets.

Thousands take them to keep right. Try them. 15c, 30c, 60c.
