Modernize For Winter, Theme Of FHA Drive

Md. Tour By Housing Representatives Starts. Improvements Urged

Representatives of the Federal Housing Administration from the Baltimore headquarters are now touring Maryland, explaining the advantages of the National Housing Act and contacting banks, building supply houses, merchants, dealers, individuals and the public generally.

"Modernize for Winter" is the slogan the representatives are stressing and special efforts are being made to present the highly advantageous factors of the National Housing Act which, among many other features, makes possible the modernization of homes, business places, institutions, etc.

Under the plan, a person may have up to five years in which to pay for improvements to property, such as repairs and alterations, extensions, erecting garages, and many other additions to make the home more livable.

For example, leaky roofs may be repaired, new heating equipment and lighting fixtures may be installed; the kitchen and the bath-room may be modernized and walls and roofs may be insulated from the cold of winter. There are many obvious ways in which substantial old homes may be modernized, which many a resident would like to have done, but have been deferred because of lack of funds.

But when one considers that up to five years may be had in paying for such betterments, there are few persons who cannot avail themselves of the Federal Housing facilities. The Government does not lend a penny. It insures loans made by private financial institutions operating under provisions of the National Housing Act.

Remember March 1933?

1. All the banks in U. S. were closed.
2. There were over 12 million unemployed.
3. Nearly a million farms had been sold under mortgage foreclosures or for taxes.
4. Wheat was selling for 48 cents a bushel. Corn was selling for 25 cents a bushel. Hogs were selling for 3¼ cents a pound.
5. The national debt increased 6½ billion under Hoover.
6. Farm Income suffered a loss of eight billion from 1920 to 1933.

But Today with Roosevelt!

1. No national banks closed in 1936.
2. The army of unemployed is diminishing.
3. Farms and homes saved for their owners under Roosevelt's policies.
4. Wheat sells for $1.17 a bushel; corn, $1.16 a bushel; hogs, ten cents a pound.
5. Roosevelt used the national finance to put people to work, start industry, save business, both big and little.
6. Farm income 2½ billion more now than in 1932.
