Annual Service At Old Dudley's

Church Marks 154th Year On Sunday

The 154th anniversary services at Old Dudley's M. E. Church will be held Sunday both morning and afternoon. The church, one of the oldest Methodist churches on the Eastern Shore and rivaling Barrett's Chapel in age, is situated just off the Sudlersville-Church Hill road about two miles west of Sudlersville.

The sermons both at the morning and afternoon services will be delivered by the Rev. Dr. Alfred A. Wagg, a prominent member of the New Jersey Conference and vice president of the Ocean Grove Camp Meeting Association.

Dr. Wagg has been the pastor of several of the largest pulpits in the New Jersey Conference and served as District Superintendent on several Districts as well as being a member of many of the General Conferences of the Methodist Church. He is a very forceful speaker and draws his messages from a profound spiritual experience and understanding.

The morning service will begin at 11 o'clock and the afternoon service at 2:00 o'clock with a song and testimony service. The services will be in charge of the Rev. C. M. Griffeth, pastor of Calvary M. E. Church, Sudlersvile.

No Tomatoes Taken By Federal Body

Rains Lifted Prices; No Contracts Made

Rains which proved the final blow to an already dismal tomato season defeated the purpose of the Surplus Commodity Corporation of the Federal Government, which went into action with the purpose of buying up to a half million cases of canned tomatoes in order to lift the market price on the crop for growers.

With tomatoes selling from eight to twelve cents a basket the Government offered to contract for canned goods provided a minimum rate of fifteen cents per basket was established. An office for the Surplus Commodity Corporation was opened at Easton and clerks installed. The canned tomatoes were to be distributed to relief clients.

But with rains completing the havoc caused by a previously unfavorable growing season prices for tomatoes lifted well over twenty five cents. Canners immediately lost interest in the Government offer of $1 per case and not a single contract was made by an Eastern Shore canner.

After sitting around for ten days the office was closed, the personnel ordered back to Washington and no tomatoes were secured for relief use.

Farther down the Shore some 37,000 bushels of Irish potatoes were bought to stiffen prices. These are also listed for distribution among relief clients.

Condition Of County Jail Rated As Fair

The condition of the Queen Anne's county jail was rated as fair by Howard C. Hill, prison inspector for the State Board of Welfare in his recently announced summary of his annual inspection of county jails while food conditions generally, and presumably in Queen Anne's, were found satisfactory. Six other counties, including Talbot, Caroline, Somerset and Worcester on the Shore, were included in the category with Queen Anne's.

Mr. Hill in a slightly excited summary of the county jail situation said that considering "the miserably constructed and still more miserably maintained equipment available, the wonder is that more of them, the jail and jailer alike, do not utterly collapse or explode in sheer desperation." However, he was not sure how far improvements should go, pending the newest theory on prisoner coddling.

HOLLYWOOD STAR-LITES

By Chuck Cochard

Obscenity is becoming a lost art in Hollywood these days. The Hays office admitted today that it has not issued a list of objectionable and offensive words, to be excluded from all motion pictures, since September 1, 1935, two years ago.

Since that time, there has not arisen any word or phrase that has proven objectionable to any creed, race, nation or person. However, the same words that were taboo in 1935 are still maintaining their offensiveness and any motion picture that attempts to use one of them must face the scissors of censorship.

Some of the objectionable words and phrases of the 1935 list include: broad (applied to a woman), Chink, Hot (applied to a woman), Nigger, Nert, Gigolo (always censored in England), "Traveling salesman" and "Farmer's daughter" jokes, Bum(objectionable in England), bronx cheer, sex appeal, and dump.

After two years, Hollywood producers have come to realize that "good taste" in producing pictures is the essential thing and a glance at the films turned out during this period reveals the grand transition this whole business has gone through.

At A Glance:

The highest money ever paid to an artist for a picture will be the $40,000 per week 20th Century-Fox will give William Powell for each of the five weeks he works in "Jean." The picture will also uncover the new 20th importation, Annabella. They're saying that Verree Teasdale (Mrs. Menjou) is a sensation in "First Lady", and walks away with the show.

—o—

On The Cuff:

Cary Grant wearing the deepest sun tan in Hollywood . . . Claims people mistake him for an East Indian . . . Nelson Eddy is at last being able to wear his hair close-cropped—he is a cadet in "Rosalie" . . . Barbara Stanwyck burning up the Atlantic cables with messages to Robert Taylor in London . . . You'll be able to see the advanced styles for 1938, designed by Adrian, with Joan Crawford as a mannequin in her latest vehicle, "Mannequin."

The British post office has a large motor van, full equipped with the usual post office supplies, which is transported to agricultural shows, races, and all large outdoor gatherings where a post office may be needed.

IMPORTANT NOTICE

We regret to announce that we have found it necessary to postpone the demonstration by Mr. Jack Carter, which was announced in last week's paper.

We have been in communication with Mr. Carter and as soon as a definite date can be arranged for his demonstration, we will hasten to advise our friends and customers who so kindly advised of their intentions to attend the demonstration.

We sincerely hope that the postponement has not caused anyone any inconvenience.
