Easter Sunday is facing us like a mighty vision and if today—I am writing this Tuesday—is a foretaste of the weather for that day, just unwrap the package containing your new frock, prepare to don that chic little hat and and parade to you heart's content in all your Easter finery. The weather is becoming really delightful and each day like this puts winter out of our thoughts. Another sure sign that Spring is here is the steady influx of all those neighbors who annually leave us for the cold season and return with the first breath of Spring. Several have come home in the last few days.

Gladiolus

The pleasure derived from competition at the Summer Flower Shows doesn't end with winning prizes, it carries over into something outside of ribbons and lompetitive success. It is cooperative. Knowledge of varieties and methods of culture are exchanged and winner and loser alike both profit. The friendliest fraternity in the world is the fraternity of flower exhibitors. Maybe I can help you in the choice of varieties most likely to win in a keen competition.

It Is Dangerous

It is dangerous to sell a SUBSTITUTE for 666 just to make three or four cents more. Customers are your best assets; lose them and you lose your business. 666 is worth three or four times as much as a SUBSTITUTE.
