Water Halts Services At St. Andrew's Chapel

Water seeping into the basement of St. Andrew's Chapel and preventing proper heating of the church has prompted the Rev. Walter C. Eastburn to announce that services at St. Andrew's Chapel will be discontinued until further notice. Recent heavy rains have soaked the ground adjoining the church and water has worked into the basement to a depth of nearly a foot.

When the basement was pumped dry once it filled again overnight. Rev. Mr. Eastburn states that even after the water is finally eliminated from the cellar it will be necessary to heat the church thoroughly to drive out the dampness.

Until other notice is given the Sunday service for St. Luke's Parish will be Morning Prayer and Sermon at St. Luke's Church at 11 o'clock.
